CLEVER WORK OF BANDITS

Some bandits are very clever. They do not really need to become bandits. Such cleverness directed into other the Prince of Peace and preaching channels would bring a safe reward without the danger of the gospel of eternal love and the spending the rest of their lives in prison or ending them prematurely on the gallows.

That boy who robbed the Royal Bank yesterday at Vancouver seems to have done a neat job. Yet the probability is that he will be caught, some time if not now. At the best he will have little peace, for the fear of being caught will haunt him to the day of his death.

A man clever enough to rob a bank should be employed inside it, or at some even more lucrative business.

THE BIG YACHT RACE

The big international yacht race planned for next ear when Sir Thomas Lipton will again be the challenger, promises to be just as spectacular as have been former similar events. From now on we may expect to get news from time to time in regard to the construction of the new vessel, the trials she will have to undergo and every move and word of Sir Thomas.

Yacht racing is still a pleasant sport, although it is golden voice may even now be Burns Lake Hospital. wholly divorced from commercialism. Ships do not sail giving supreme pleasure to the any more, but are propelled by some power within them. possible to one of such warped archaeological department of the feder-Whether this race is worth the money expended on it is sensibilities—and a host quite a debatable question and can never be decided. All others whom the time limit set on duties. depends upon the point of view. It is probably worth it my speech will not allow me to to Sir Thomas or he would not undertake the enterprise.

POLITICS IN THE SOUTH

The Vancouver Sun publishes a political article in reans. The central Europeans are which it says that R. B. Bennett, K.C., will be in Vancouver next month to try to straighten up political diffi- and as for being garne-smelling. I consider such a weakness a thousand times culties and to lend aid to Premier Tolmie in carrying on his work in the provincial arena. Also, it has as part of have mentioned, which appeal to the its purpose the laying of plans for trying to retain federal mentality of, and could be uttered seats now held for the party.

One of the rocks on which the party is splitting, accord-central European is not what Bishop ing to the Sun, is that of patronage. The party heelers want the Government positions for their supporters, the present holders of such positions to be replaced from among the ranks of the faithful. To this Premier Tolmie is said to object. Mr. Bennett, as leader of the party, it is thought, will have some influence in curbing the activities of the militant job hunters.

Unfortunately such a position does exist to some extent throughout the country. Also, it has existed under other Governments, not excepting the Brewster and Oliver regimes. There are always heelers who see in political the fullest sense of hie word. It does changes opportunities to secure positions. Whether Mr. Bennett or Dr. Tolmie can curb the tendency remains to be seen.

It is no argument for any party to say someone else did the same. The way to abolish patronage is to do it, not to talk about it.

ACTIONS, NOT WORDS (Financial Post)

It took just 25 words in the annual report of the Canadian Pacific Railway to refer to the construction of the they were noted in the old country. Sing examinations of the Royal Aca-Royal York Hotel in Toronto. The hotel is costing the C.P.R. \$16,000,000, which is something over \$600,000 for

each word in the report.

Canadian Pacific has become such a large institution that even its mightiest works must be kept in perspective says when one attempts to view them as evidence of what C. P. was the article calculated or intended by Andrew ded to excite ill between different cel Eckman, was here last week from R. is doing for Canada. Three millions is being spent on the classes of the King's subjects, because Ketchikan, having brought over Frank Empress Hotel in Victoria and \$2,000,000 on the Palliser sedition— which the definition of Metcalf and Ray McCormick, land survey the Crest group in Calgary, but these are routine matters to C.P.R. Within about one year, four magnificent ocean was just as bad as the article written liners have been put into commission; contracts were let by Vaara in the paper which he edited; for two others and five ocean freighters have been loaded with their first cargoes. New lines as long as the distance speaker referred to the love of the from Montreal to Toronto were built. Millions were spent! on equipment.

Bishop Lloyd is Flayed by Young University Man of Ukrainian Birth in House

A few days ago the House of Commons at Ottawa was startled out of its usual humdrum course by a speech in defence of central and southern European immigrants in Canada and combating the utterances of Bishop Lloyd of Saskatchewan, whose anti-foreign views are well known. City delivery, by mail or carrier, yearly period, paid in advance \$5.00 The speaker was Michael Luchkovich, B.A., representing For lesser period, paid in advance, per month 50 the United Farmers organization as member for Vegreville. In his address he hit the bishop blow after blow, without gloves, using such terms as "Neurotic and un-

christian Bishop Lloyd." He cuoted Bishop Lloyd's letter pub- beautiful Lakes of Killarney, and urged

JUST ENOUGH

When appetites are sluggish ~ WIN THEM with Quaker Puffed Wheat

Puffed Rice

is Good, too

Quaker Puffed Rice is explod-

ed the same way as Pu.fed

Wheat, and is equally delic-

ious. Full of the ready energy

of the finest white rice. For

variety, keep both kinds of

puffed grains in the house.

Quaker Puffed Wheat always wins the sluggish appetite. Puffing the wheat grain to eight times its

natural size gives it a delicious, nut-like flavour which everyone relishes. It contains astonishing nourishment, too.

VERY MOTHER knows that appetites are often

sluggish. Sometimes the children won't eat;

sometimes it's dad himself. Ordinary food does

In each grain, the puffing breaks down millions of tiny food cells and releases valuable food stores so that their assimilation becomes easy and complete. The wheat bran is all retained, but artfully concealed.

Serve Quaker Puffed Wheat just as it comes from the package or warm it. Use it with berries, jelly or jam, or just with cream or milk.
