RAILWAY TO PEACE RIVER

At a meeting of the joint committee appointed by the Board of Trade and City Council to carry on the work of securing rail connection for Prince Rupert with the Peace River country held last night, it was decided to form an association largely for the purpose of financing the organization which will carry on the work of education the public in the possibilities of Prince Rupert as the port of export for Peace River wheat. Members of the association will pay one dollar each and the city will also make before he started on his journey a donation toward the work.

Having faith in the loyalty and enthusiasm of the peo- islands succeeding H. M. Towner, ple of Prince Rupert and surrounding territory, the committee last night decided to proceed with the organization. A big banquet will be held in the near future at Better Manners which there will be a few brief speeches and at which the movement will be formally launched. It is expected to have at that banquet all citizens who are keenly interested in the movement. Possibly the Retail Merchants Association may arrange their monthly dinner for the same time opinion of Venerable Canon Newand the service clubs will be approached with a similar view. One big event would give the movement an impetus that would be a great help in carrying on.

PRINCE RUPERT'S BEST BET

Direct connection with the Peace River is Prince Rupert's best bet just now. Also, it would be the best thing personage belonging to what used that could happen to the Peace River. It is the east and west line as opposed to the north and south. It is the best and most economic route and undoubtedly the one that should be followed. Already the railway is running into brated his eighty-fifth birthday white Canons settled at Warbur-Prince Rupert and all that is needed is a line from the the other day, and who has been ton, and the date of the timber-Peace to connect with the C.N.R. at Hazetlon or some other point.

HIGHWAY ENDORSED

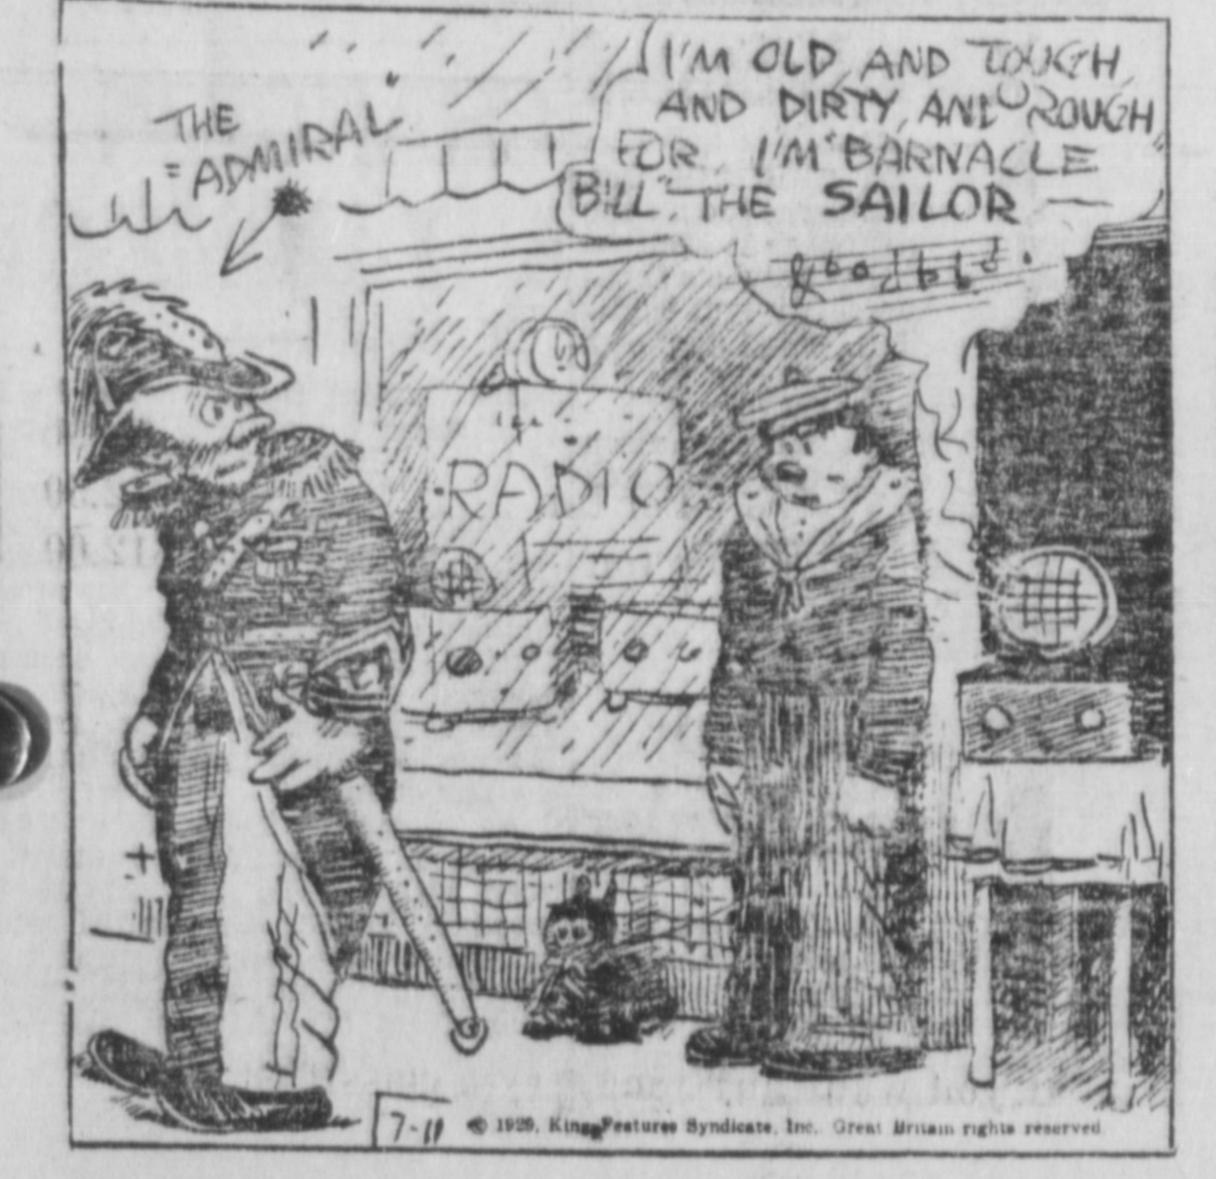

The presence of Mayor McMordie at the Good Roads says, is shown for the character present oldest part of the church League gathering seems to have been felt right at the of the cathedral than was former- about two centuries later. Howopening when the resolution asking for the completion of ly the case. "People used to come ever, that may be, a church of the highway from Prince Rupert to Hazelton was en- chatter among each other, and to stood on the same spot for a least dorsed. Prince Ruperts mayor has been elected a director of the organization and this will also add to the prestige of the district. Gradually it is being forced upon the authori- quillity inside the great building the north side now is, but the ties that Prince Rupert must have that highway and that construction cannot be much longer delayed.

FISHERIES CHANGE

A momentous change has taken place in connection with control of the British Columbia fisheries. The Federal Government no longer has control of the canneries, but this control will pass to the Provincial Government. Gregory, who was the immediate built entirely of Lymm sand-In connection with this it is announced that steps will be taken immediately to license canneries and to accept the had a very long association with teenth century. control which has been thrust on them through force of St. Paul's has left on record how The low-pitched roof of the circumstance.

The test of the rights of the Dominion in this matter edral services and the superinten on three of which are stag's horn commenced in Prince Rupert when the Sommerville Can-dence of the building when first hat-pegs and on another a plain ning Co. wished to operate a floating cannery and the he went there. There was a ver- iron hour-glass stand. The seats right was disputed by the federal fisheries department, ger, for instance, who disliked on the south side were removed who placed prohibitive regulations on its use. Proceed- people gathering under the dome, in 1895 on account of dryrot, and ings were then commenced which have just been completed.

Yale Hoists and Trucks

For practically every job of lifting and moving material -raw, in process or completed-there's a Yale Unit that will do the work quickly, easily and safely. There are many Yale Hoists both hand and electric powered, Yale overhead trolleys carry big loads quietly and easily, and Yale Electric Trucks and Trailers are quick to transfer material. Yale margins of safety are unusual, and Yale controls are simple, safe and easy to operate. Let us study your material moving problems - in many cases our engineers have made real savings with Yale equipment.

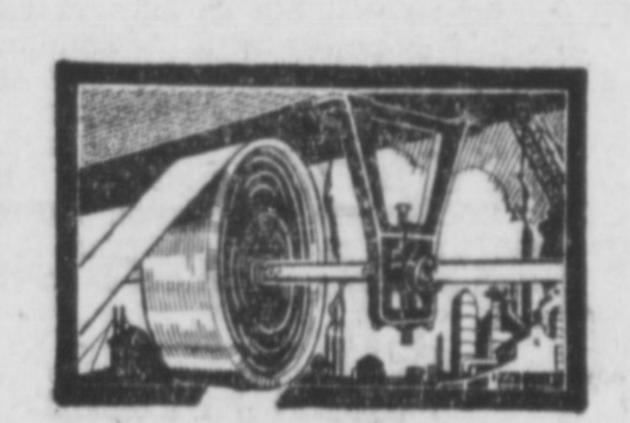

Fairbanks Scales

For almost a century Fairbanks Scales have been known for their enduring accuracy, and each one of the many types has been perfected in design and build, to weigh not only accurately but also to register clearly at the utmost speed. From tiny delicate balance up to huge track scale, the Fairbanks line includes scales for practically every weighing purpose.

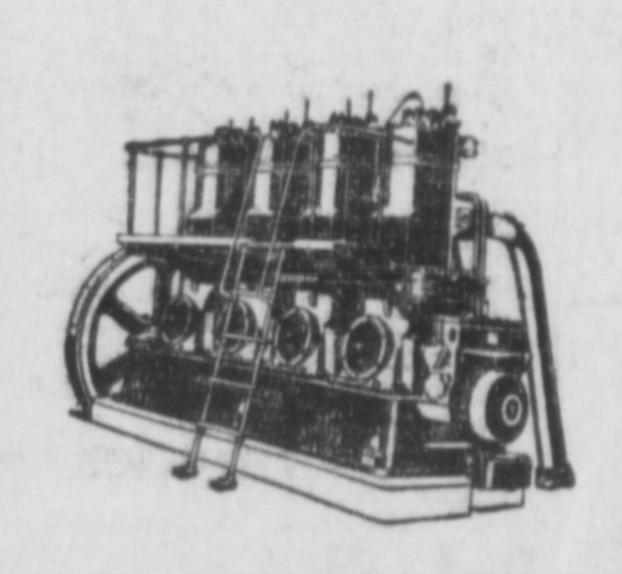

Fairbanks-Morse pumps and motors

"A pump for every purpose"—for water, sand, air, sewage or stock, we can supply the special type of pump best suited for the service required. Fairbanks-Morse Pumps, either separate drive, or direct-connected to Fairbanks-Morse Ball Bearing Motors, have made unusual records for efficiency and dependability.

Transmission Equipment

To ensure the steady and economical flow of power from drive to machine, proper shafting, hangers, bearings, pulleys and belts are essential, and here you will find Graton & Knight Leather and Dick's Balata Belting. Fairbanks Wood Pulleys, Barry Steel Split Pulleys, Hyatt Roller Bearings, as well as all the numerous appliances necessary for the transmission of power.

F-M. Stationary Diesel Engines

For isolated power plants where electric power is not available, and for standby service, Fairbanks-Morse Diesel Engines have proven thoroughly dependable and remarkably low in power, operation and maintenance costs. In mine, mill, grain elevator, railway yard, town and city light, power and pumping plants, in countless instances they are giving entire satisfaction using cheap low grade fuel oils. They are made on the 2 cycle principle in a wide range of sizes from 25 to 840 H.P.

VICTORIA

In our thirteen Branches you will find stocks of mechanical equipment and shop supplies that for variety and quantity are unequaled in Canada. Aside from the many lines made by us, we have been selected to represent many of the world's outstanding makers of machine tools, machinery, equipment and supplies. Our general catalogue shows clearly how wide a service we provide for Canadian industry. A copy will be mailed without charge.
