PRICE FIVE CENTS

Two Fishermen Lost and 4 Rescued from Wrecked Fish Boat

SEATTLE, Nov. 28.—The wreck of the halibut boat Seabird of Seattle with the loss of two lives was reported last night to have been found by the coastguard cutter Unalga, which located the battered vessel on Wingate Island, Prince William Sound, southeastern Alaska. The dead men are Louis and Elias Dyb, who were drowned. Four others were taken off by the Unalga, which proceeded to the south of Copper River, where another wreck is reported. It is believed that this vessel might be the halibut boat Kanatak, which has been missing since November 11.

School Head at Coquitlam Has Been Suspended

VANCOUVER, Nov. 28.—David B. Bracking, for seven or eight years superintendent of the Boys' Industrial School at Coquitlam, has been suspended from office pending the result of the investigation of conditions at the school now being conducted by Eric Pepler, Provincial Government departmental solicitor.

Election Soon At Victoria With Many Candidates

VICTORIA, Nov. 28.—With nomination day close at hand there are twenty candidates in the field for the eleven vacancies on the various civic bodies. The civic election takes place Dec. 12 when a mayor, five aldermen, four school trustees and one police commissioner will be chosen. Mayor Herbert Anson is seeking a second term as the city's chief magistrate. No opposition has developed to his candidature and his return to the mayoralty office by acclamation is generally regarded as a certainty. Twelve candidates have entered the contest for the five aldermanic seats. Aldermen J. L. Mara, John Harvey, J. A. Worthington, William Marchant and R. A. C. Dewar, the retiring members of the City Council, are all seeking re-election, and the new aspirants are Trustees Alexander Peden and A. C. Pike, Mrs. James McGregor, and Robert Smith, J. A. Shanks, R. T. Williams and Walter Inward. For the four vacancies on the School Board which will be filled next month the following candidates are in the field at the present time, Trustees J. L. Beckwith and J. S. McMillan, Kenneth Ferguson, Captain F. R. Wright, P. E. George and Thomas Humphries.

Republicans At Washington Are Reorganized

WASHINGTON, Nov. 28.—There is to be a reorganized reunited senatorial Republican party. The rebels are being pacified by a reallocation to committees and it is expected that during the coming session the policy of the president will have a much better chance of being carried out.

No Surprises at Naval Conference Are Being Planned

LONDON, Nov. 28.—Speaking here yesterday Hon. Albert V. Alexander, first lord of the admiralty, said that England had no surprises in store for the naval conference which is to meet here in January. All that was to be proposed was a continuation and extension of the former naval reduction treaty.

Southern British Columbia Suffers Badly From Lack of Rain, Causing Power Shortage in All the Cities

VANCOUVER, Nov. 28.—As the result of power shortage due to lack of rainfall, all street lights which could possibly be spared were out last night. Electric signs were curtailed and tram cars moved along only half lighted up. Trams are being replaced on some of the lines by buses. Gas-electric cars will be put on the interurban routes and the B. C. Electric Railway Co. is planning to obtain two locomotives from the C.P.R. to replace the electric rolling stock on the Fraser Valley lines. Household are being urged to use as little power as possible and if no rain falls within the next few days further steps will be taken to curtail consumption.

Metlakatla Boat Had Good Hunting

Four Men on Hazel L. Bagged Eleven Deer on Grenville Channel. The Metlakatla seineboat Hazel L. is back in port after a successful hunting trip to Grenville Channel, eleven deer having been bagged. The party consisted of Chester Leask, John Ryan, Henry Ryan and F. Leask. Despite unfavorable weather, they had an enjoyable trip.

Victoria Amateur Baseball Clubs Fine Showing

Showing a splendid balance of \$1,683.37, the five clubs of the Victoria Senior Amateur Baseball League split the richest melon in league history last week at the meeting held last week at the Y.M.C.A. Over \$1,200 was realized in league and exhibition games, while the league play-offs, introduced for the first time this season, netted the league close to \$1,000.

POOL HAS TURNOVER HUGE SUM

Drop in Gross Amount Shown Accounted For by Holdover of Wheat. WINNIPEG, Nov. 28.—Total handlings of more than 253,000,000 bushels of wheat was reported by the Canadian wheat pool in the annual report of the Board of Directors issued last night. The gross turnover for the year amounted to \$288,000,000 a reduction from the previous year of \$35,000,000 largely accounted for in the carryover of wheat. The carryover, it is explained, is the result of a superabundance of supplies which could not be placed without demoralizing the world markets. The pool has shipped a total of 108,000,000 bushels.

STOCK QUOTATIONS

Table with columns for stock names and prices. Includes Bayview, Big Missouri, Cork Province, Cotton Belt, Dunwell, Dulthe Mines, George Copper, Georgia River, Golconda, Grandview, Independence, Inter. Coal & Coke, Kootenay Florence, Kootenay King, L. & L., Lakeview, Lucky Jim, Marmot, Marmot Metals, National Silver, Noble Five, Oregon Copper, Pend Oreille, Premier, Porter-Idaho, Reeves Macdonald, Rufus-Argenta, Ruth-Hope, Silver Crest, Snowflake, Sunloch, Terminus, Tooley Richfield, Whitewater, Woodbine, Bluebird, George Enterprise, Advance, A. P. Con, Calmont, Dalhousie, Devenish, Fabyan Pte, Home, Ryalite, Hargal, Freehold, United, Sterling Pacific, West, McIntyre.

TORONTO STOCKS

Table with columns for stock names and prices. Includes Falconbridge, Abana, Amulet, Hollinger, Hudson Bay, International Nickel, Lakeshore, McIntyre, Mandy, Nipissing, Noranda, Sherritt Gordon, Sudbury Basin, Teck Hughes, Treatwell Yukon, Ventures, Mining Corporation, Home Oils, Amulet, Falconbridge, Hudson Bay, International Nickel, Imperial Oil, Mandy, Mining Corporation, Noranda, Stadacona, Sherritt-Gordon, Sudbury Basin, Teck Hughes, Treatwell Yukon, Ventures, Wright Hargraves, McIntyre.

Labor Elects A Supporter

KILMARNOCK, Nov. 28.—The Labor party retained Kilmarnock seat in Parliament when Craigie Atholson was elected in a three-cornered contest in the by-election. He had a majority of 5000 over the Conservative. The Communist candidate polled but a small vote.

NEW HEAD OF LEGION

Sir Arthur Currie Unable to Accept Owing to Ill Health Followed by Lafleche. REGINA, Nov. 28.—Lieut. Col. L. R. Lafleche of Ottawa was elected president of the Canadian Legion in succession to General Sir Arthur Currie, who was prevented by ill health from standing for re-election. He was made grand president. British Columbia will be represented on the Dominion executive council by Colonel W. W. Foster of Vancouver. It was decided to take a complete census of all surviving ex-service men and women in Canada through the provincial commands and local branches. Niagara Falls was chosen as the meeting place next year.

Workers Driven Out by Winter

THE PAS, Nov. 28.—Winter weather has driven most of the miners and others out of the country until spring. The shutting down of the Flin Flon and other work recently caused several thousand men to flock here. The town was busier than it had ever been before but it lasted only a short time. Men found their way south to Winnipeg and other points and this place is settling down to the regular winter routine.

Liberal Elected Walkerton, Ont.

WALKERTON, Ont., Nov. 28.—Fred Elliott, Liberal, was elected to represent North Bruce in the Legislature over D. J. Byers, Conservative, in yesterday's deferred election necessitated by the death of A. P. McWhinney, Liberal candidate, on the eve of the provincial election. Elliott's majority was about 400.

Stock Speculation Only Froth of Industry and Not the Essence, Says J. D. Galloway to Mining Convention

VANCOUVER, Nov. 28.—British Columbia will produce \$70,000,000 worth of ore during the present year, it was estimated by J. D. Galloway, provincial mineralogist, before the convention of the British Columbia division of the Canadian Institute of Mining and Metallurgy yesterday. According to Mr. Galloway, copper will show from five to ten per cent increase in quantity and a much higher money value than last year owing to increased prices. Gold, silver, lead zinc and coal outputs will show decreases. Mr. Galloway drew attention to the fact that five mines were producing 95 per cent of the metallic minerals and that fifteen years ago these mines were unknown. A dozen or so substantial mines were coming into production, which will assure expansion of the province's output. "In the last three years there has been rank overvaluation of mining prospects and wildcats, a condition caused largely by the gambling fever of the public, but I assure you that this is only the froth, not the essence of the mining industry of British Columbia, which is progressing regardless of stock prices," declared Mr. Galloway. Lieut. Governor Bruce made enthusiastic predictions about the potential value of Atlin and other Northern British Columbia areas and advocated the building of a highway through this country.

PRINCE TO ENTERTAIN

YORK HOUSE PREPARED FOR RECEPTION OF GUESTS BY BRITAIN'S FUTURE KING. LONDON, Eng., Nov. 28.—The Prince of Wales will head the list of society hosts and hostesses who will entertain in London as the Little Season gets into its stride. For nearly 12 months alterations of one kind and another have been going on intermittently at York House, and the Prince has at last got his quarters there adapted more or less to his liking. Now he proposes to receive his friends there a great deal more frequently than he has done in the past, and to entertain quite as much as he has been in the habit of being entertained. The Prince is very fond of the role of host, and it is one which all his guests declare he plays to perfection. During the London Season he gave a series of small receptions and dinner parties, as did the Duke and Duchess of York, receiving well-known people often entertained by the King and Queen, members of the Corps Diplomatique, and representative men and women in public life. Parties of this type will continue to be held during the Little Season, interspersed with private gatherings for his own particular circle of friends, at which the Prince will have the support of his younger brothers the Duke of Gloucester and Prince George. More room has been afforded for the reception of guests by the removal of the secretarial staff to another part of the house. This gives the Prince, for the first time since he went into residence at York House, the exclusive use of his own front door. All the decorations at York House have been carried out very carefully with a view to keeping

Nothing but Wiggle of Fish Should Be Wasted, Declares D. B. Finn in an Address Yesterday to Local Gyro Club

Waste is the cardinal crime in any industry and to remove waste from the handling of fish is one of the chief objectives of work being carried on by the fisheries experimental stations of the Biological Board of Canada, D. B. Finn, director of the Prince Rupert Fisheries Experimental Station, told the Gyro Club in a Fish Week luncheon address yesterday. Mr. Finn's subject was "The Relation of the Biological Board's Work to the Fishing Industry of Canada." At the outset, Mr. Finn explained the difference between the work being carried on at biological stations, such as that at Departure Bay, Vancouver Island, and at the experimental stations under which category the local establishment came. The biological station concerned itself with the fish while alive, dealing with such problems as conservation, husbandry and movements of fish. The work of the experimental station was in connection with the fish after it was dead and included preservation, processing and development of by-products. In the matter of elimination of waste, there was to be considered the finding of uses for every part of the fish so that "nothing but its wiggle" might be wasted, as well as the processing of the fish so that it reached the market in the highest possible quality and state in the canned, smoked, salted or fresh condition. In connection with the catching of salmon for canning, there was waste in the throwing away of the eggs after the fish were caught, also through the loss of the entrails. There was a real possibility, Mr. Finn said, of removing the eggs from the dead fish and maturing them into fish by artificial methods. However, little had been done in this connection as yet since the experimental stations were not equipped for the work. This would come, however, Mr. Finn believed, and he was of the opinion that the salmon egg could be matured artificially just as could be done with the egg of the frog or the sea urchin. Use could also be found for the entrails of the salmon which were now largely thrown away. Speaking of pilchard oil which was now used principally in the manufacture of soap and linoleum, Mr. Finn declared that it could be put to a higher use than that. It had been found to be rich in vitamins and he felt that its medicinal qualities compared favorably with that of cod liver oil. Researches were also being made in connection with its possibility as a paint oil. The hope was that a process would be found whereby it would be just as effective as linseed oil. As an article of animal nutrition, Mr. Finn predicted an ever growing use of fish meal. The chief complaint now was that, when fed in a quantity greater than ten per cent, fish meal was inclined to leave a taint in the eggs of hens, the milk of cows and the flesh of

Improvement In Power Situation Seattle Yesterday

SEATTLE, Nov. 28.—There was a slight improvement in the power situation here yesterday but at Tacoma the storage is lower and cannot last long unless there is a very definite change in weather conditions. The big airplane carrier Lexington on view today as Thanksgiving Day attraction.

Abolition Death Penalty Proposed

LONDON, Nov. 28.—The House of Commons adopted an amendment for appointment of a committee to report on the possibility of abolition of capital punishment. When debate opened on a private member's resolution for abolition of the death penalty, Right Hon. John R. Clynes, secretary for home affairs, expressed government sympathy with the idea, but said the question of an alternative to such punishment was the rock on which all projects for abolition had split.

Son of Late Premier Oliver Charged Causing Greivous Bodily Harm to Doctor by Use of Tar and Feathers

PENTICTON, Nov. 28.—Dripping with tar and with the lower portion of his body covered with feathers, Dr. V. E. Latimer, formerly of Brandon, Manitoba, well known in western Canada as an eye, ear and nose specialist and a man well up in years, staggered into town late at night and, notifying the police, charged Charles E. Oliver, son of the late Hon. John Oliver, former premier of B. C., with causing bodily harm. Mr. Oliver was arrested and appeared before Magistrate G. F. Guernsey, but did not plead to the charge. He was released on bail of \$500 cash and a surety for a similar amount. The preliminary hearing is set for Monday. The tar and feather episode follows a long series of charges made against Dr. Latimer by Mr. Oliver, the nature of which has not been revealed. Dr. Latimer's Story. Dr. Latimer told the police that he went to his office in answer to a telephone call from a man who gave the name of Harvey. Arriving at his office, he said, he was felled by a blow on the jaw and three men drove him at a furious rate of speed to a point two and a half miles from the centre of the city. There his legs were tied, his trousers and underwear removed and a tar-like substance applied to his legs. A pillow slip of feathers was slit open and the feathers scattered on him. The men then drove off. Minus his trousers and covered with tar and feathers, the doctor was forced to walk back to the city with only his overcoat covering him.

Weather Is Very Mild at Present

Atmospheric Conditions Close and Almost Unseasonable; 51 Above This Morning. Weather has been almost unseasonably warm in Prince Rupert during the past few days. With soft rains falling, the atmosphere has been close and little like winter. This morning at 8 o'clock the official reading of the Dominion meteorologist was 51 above zero. That is exceptionally mild, considering it is less than a month from Christmas.
