FISH CONFERENCE

Editor and Reporters' Telephone86

Member of Audit Bureau of Circulations

The dinner given Saturday night to W. A. Found, ing was as follows: deputy minister of fisheries, took somewhat of the form of a conference because a number of people interested in fish- H. Heilbroner: J. Scott, 4; D. Frizeries matters were able to give their views to the minister zell, 4; E. J. Smith, 9; A. Mitchell, and he had an opportunity of replying. It was a very in- 18; total, 36. teresting event and one that is worthy of repetition.

We are not suggesting that a dinner of this kind should Dingwell, 2; D. Stalker, 2; total. take the place of a public conference, because there would be sure to be others who would wish to have something to Dingwell, 4; E. Smith, 5; D. Stalsay. The difficulty with the ordinary conference is that ker, 7; A. Cross, 4; R. Stalker, 4; so many speakers have nothing of importance to say and High School-W. Johnson, 8; D. so much time is wasted. Men often get up to talk just for Morrison, 9; S. Stiles, 8; K. Naka-the sofe of heaving themselves talk the safe of hearing themselves talk.

Success consists in fitting yourself for an unlimited amount of work and securing the opportunity to carry it out.

GOVERNMENT DEPARTMENTS CHEAP

The Fisheries Department seems to be following in the wake of the Marine Department and several other Government departments in asking that service which should be paid for be given free. The Daily News was asked to publish free of cost an advertisement stating that the deputy minister would be here and that he would be ready to receive deputations. For just such advertisements as this the newspapers make a charge. Why the Federal Government should expect to be exempt from this charge we do not know. We suggest that when Mr. Found comes to the city again he pay his way like a man and not try to sponge on the newspapers.

The man who says he understands women has Ananias beaten by three laps.

MINING ON QUEEN CHARLOTTES

Dr. J. T. Mandy, district engineer, suggests the possibility of mining developments on Queen Charlotte Islands. These islands have splendid timber, which is being manufactured at Prince Rupert and at Vancouver or being sults last night were as follows: ground into pulp at the paper mills; it has fisheries which are in need of careful fostering; it has excellent oil prospects and already some mining is being done there in a quiet way. We suggest that the attention of mining men should be turned in that direction following the advice of mill 14 the engineer, and we make the prophecy that good results will follow.

This advertisement is not published or displayed by the Liquor Control Board or by the Government of British Columbia.

Players' Club and High School Winners in First Half Wind-Up

the Intermediate game from Big Four 38 to 29. Despite the paucity of spectators, the players worked with a will and turned in good

The Senior game was nip-andtuck all the way. About five minhad a lead of six points. With back and snatched the victory by the one point margin. Half time score was 12 to 10 for the Players' Club.

The first half of the Intermediate games was particularly close. High School having a scant 17 to 6 lead. Collegiates made the most of their scoring opportunities in the second period, however,
