FINAL GAMES

HOCKEY SEEN SUNDAY NEXT

Canadiens and Boston Expected to Head Respective Sections

TORONTO, Mar. 11.—When the final game of the National Hockey League is played next Sunday it is likely that the Canadiens, the N.Y. Americans and Toronto will finish in that order in the international section, and Boston, N.Y. Rangers and Detroit in that order in the American section.

The N.Y. Americans would have to win three games, one against the habitants, and the Canadiens lose all their three for the Yankees to win by one point. Toronto's victory over Detroit on Saturday was considered important as these teams will meet in the play-offs.

The following were the scores: N.Y. Americans 3, Montreal 2, Ottawa 2, Boston 1, Detroit 0, Toronto 3, Pittsburgh 0, Chicago 1.

Sunday

Boston 3, N.Y. Rangers 2, Canadiens 1, Detroit 1.

The basketball series between Port Simpson Y. P. E. A. and Prince Rupert senior all-stars will be an attractive sporting event in the city this week.

The games will be played on Thursday and Friday evenings. As league basketball appears to be about petering out just now, there will probably be large crowds of fans in attendance to witness what may turn out to be the last hoop games of any importance here this season.

That the games will be keenly contested is assured. The Port Simpson boys are a lively bunch and will force the locals to extend themselves. Some of the same players who played in the Senior League Port Simpson team here last fall are expected to be again on the floor with the visitors.

LOSING THIRST HARD LIQUOR

EDINBURGH, England, March 11.—John Bull is losing his thirst for hard liquor, or is being taxed into sobriety.

Official figures show whisky consumption in Great Britain has decreased one-third in the last 12 years. Last year's total consumption of 10,984,368 gallons is the lowest figure on record for the twentieth century except for 1929, when war-time restrictions reduced it to 10,324,000 proof gallons.

Year by year the use of whisky has steadily declined. Distillers say it is the result of the spirit tax of nearly 200 per cent. British whisky and allied trades are going to petition Winston Churchill, chancellor of the exchequer, to reduce the duty.

An increase of 641,000 gallons of whisky exported was reported last year. Before the world war Great Britain exported two million more gallons of whisky than was exported last year.

GREAT CHURCH CONGRESS SOON

Plans Made For Big Event at Toronto Next September

LONDON, Mar. 11.—Outlining the scope and aims of the Church Congress in a letter to The Times, G. F. Emery, permanent lay secretary of the congress, points out the advantages of the meetings of the Congress being held overseas. It meets in Toronto in September. Mr. Emery says:

"The Church Congress is an entirely non-party institution, affording an open platform for mutual instruction and discussion, and membership is open to all without restriction to sex or age. The local effect of a Congress in arousing spiritual activity is a well-established fact and the possibility of extending this beneficial influence beyond the limits of our island had been under consideration for some time past. Toronto offers members welcome and hospitality and unless something unforeseen should happen it is expected that the Congress will meet at Toronto in the first week of September and be followed by a tour of the Dominion. Those who take part in the tour will no doubt be entertained during its progress except when actually travelling.

"The object of the tour is to bring the assistance of some of our spiritual leaders to bear locally on the spiritual and social problems confronting the local church and at the same time to give to the members an opportunity of joining in Canadian life and studying its problems so that they may be able, on their return, to assist by advice those to whom Canada must look for the maintenance of that British stock which is so essential to the welfare of the Empire. A visit to Niagara will be included in the program and everything possible will be done to fulfill the above objects and to make the experience pleasant and useful to members and their hosts."
