QUEBEC, Sept. 30.—Pending possible developments in the United States, Canada should keep her hands free, dec'ared Hon. W. D. Euler, minister of customs, in regard to a resolution introduced by British and French delegates at the recent assembly of the League of Nations.

The salient features of the resolution were that a meeting be called of various European countries with a view to considering the lowering or abolition of tariffs and the formation of a United States of Europe and that during the meantime there should be a customs truce for two

Mr. Euler returned Saturday from Geneva, where he was one of Canada's delegates to the assembly.

"The United States is now working on its tariff with a view to increasing it and shutting out our products, and do not think it justifiable for our country to be open to the countries which are c'osing their doors to us," he declared. He expected the economic conference of the British Empire to take place at Ottawa next year, although nothing definite has been decided yet.

## WILL STAY INRUPERT

Rev. Dr. R. M. Stevenson Declines Call To Mount Pleasant Presbyterian Church, Van-

Rev. R. M. Stevenson, M.A., D.D., Ph.D., told the board of managers of First Presbyterian Church here at a special meeting yesterday that he felt there was more need for him here, and that, therefore, he had decided not to accept a call to Presbyterian Pleasant Church that was extended him last week. He will, instead, await and accept a call that is to be given

Dr. Stevenson has now been here for three Sundays and in that short time has proven himself an effective and popular pastor. The church "" crowded at both services yes-

### SETTLEMENT OF WOODBINE SUIT

Mr. and Mrs. J. B. Watson of Vancouver Agree To Pay \$26,000 to Company

A supreme court action between the Woodbine Gold Mining Co. and its former president, J. B. Watson of Vancouver, and his wife, has just been settled, it is announced in the south. The company was claiming recovery from Mr. Watson on the alleged sale of nearly 1,500,000 shares of promotion stock.

Mr. and Mrs. Watson have agreed Judgment In Fur to pay \$26,000 in six installments and the company has agreed, upon complete performance and fulfilment of the terms of settlement, to discontinue action. A mortgage on Mrs. Watson's Shaughnessy Heights residence will secure \$21,000 of the

#### MORESBY ISLAND COPPER MINE SOLD AND TO BE DEVELOPED AT ONCE; BUNK HOUSES GOING UP

SKIDEGATE, Sept. 30.—R. Smith & Co. have sold their copper properties on Huston Inlet, Moresby Island, to a Vancouver firm, the price paid being \$75,000 cash.

Development of the property is to take place at once and bunk houses are being rushed up to accommodate the workmen.

Owing to the mildness of the climate here, work on the property can continue interrupted throughout the winter, and there is probability of this developing into one of the important industries of Queen Char otte Islands.

Huston Inlet is at the south end of the island not far from Jedway, where the Japanese shipped considerable copper ore several years ago.

MOBILE, Alabama, Sept. 30:-

#### Seven Seiners Seized In Queen Charlotte Island Waters for Contravention of Fisheries Law

SKIDEGATE, Sept. 30.—The air patrol of the fisheries department has been very busy here this year, no less than seven seiners being seized and charged with contraventions of the fisheries regulations, mostly with fishing too far up the creeks. The activity has caused quite a stir in fishing circles and many protests have been made that the action of the department is too drastic.

The first case was that of the seiner Eve. It was laimed by the airplane patrol that he men were inside the boundary,

hey were 60 yards outside. They were fined \$100 and costs. The Kincolith, owned and nanned by natives, was also seized y the airplane. The crew claimed nat there was no boundary mark, but they were told that they should now better and were fined \$100

The other boats pleaded guilty and were fined \$300 and costs each, vith the exception of the Reveille, which was taxed \$150 and costs.

Option Said to Have Been Taken On Properties and Scheme Under Way

ATKALUM

It is understood that an option has been taken on the Bohler SITKA YESTERDAY & property at Kitsumkalum River close to Terrace, and also on at least one of the adjoining properties for use in connection with a and paper project which is said to be developing there. It is in connection with the proposed development of the Pellatt estate which includes large timber limits n the Kalum Valley. General Haskstock who is closely identifled with the Pellatt interests, was here recently in connection with

this proposed development. It is stated that a pulp and paper mill would be a paying conern if well managed at that point. there is an abundance of timber both on the Kitsumkalum and Skeena Rivers and power can be leveloped close by or could be supplied easily by Power Corporation from their Prince Rupert installation. The timber is just now costat the owners a good deal to hold and developments in connection

with its use are expected. A mill was built some years ago near the junction with the Skeena River but it operated only a short would be used to cut the timbers for the new plant, it is suggested.
