DISTINGUISHED VISITORS

There never was a time when overseas people took as much interest in Canada as is done today. Every summer a number of Old Country people visit Canada to learn something about the country and the people. Today Rt. Hon. J. H. Thomas is touring Canada and so are Rt. Hon. Winston Churchill, formerly chancellor of the exchequer, and at one time a newspaperman, and Rt. Hon. C. M. S. Amery, also a member of the previous government. At the Canadian Chamber of Commerce gathering at Edmonton and Calgary early in September there will be about nour train twenty members of parliament and others from across JUUNIUSUKS the seas taking part and one from India. Everything points to the growing importance of Canada in world affairs.

QUICK MONEY INJURIOUS

Earning quick money either by oil or by finding rich mines is very injurious to the regular industries of a neghborhood. At the week-end we heard how people were leaving their usual productive work in the lakes district to taking up prospecting because there was a prospecting flurry in the district and everybody seemed to catch the of Universal Brotherhood, Limfever. The Prince of Wales rather regrets that oil is being Doukhobors,"-denounces the carfound in the neighborhood of his farm in Alberta, because it spoils the country and interferes with agriculture. These things are inevitable in connection with the advancement of modern industries, but they are often most regrettable.

PRAIRIE CROP

It is now pretty generally accepted that the prairie crop will not be more than half of the average. While the falling off will affect the railways and there will be guilty ones." nothing like as much casual labor in the country this year as formerly, some farmers will make almost as much as they have in the big crop years. To begin with, the price Verigin, has come a declaration or is sixty cents higher than it would have been if there had protocol. This protocol deals with been a good crop. Then the cost of handling the crop is Doukhobor peoples in Canada. It very much less and in many cases threshing is done as the crop is cut. Farmers will help each other and save labor on June 27. and many will thus find themselves at the end of the year as we'll off as last season.

AROUND PRINCE RUPERT

Silver Cup Operating in Full Swing Again; North Helps to Speed Up Provincial Mineral Output; Copper River Project Still Alive

After having been shut down for some time on account of road conditions and the necessity of making certain alterations, the mill at the Silver Cup mine, near Hazelton, is again in full operation and trucks are making regular deliveries of ore between the mill and the railway. clauses of the protocol which Peter The road has been greatly improved, which should much facilitate future operations. A new generator has also been installed at the mine and power trouble will now be over. In No. 4 tunnel at the mine a new shoot of high-adhere to and actually practise all

grade ore was recently struck. So fareabout 60 tons of this ore have been mined and the full extent of the shoot is not yet known. The No. 4 tunnel is at a depth of 500 feet and the shoot Reginald Beaumont and B. C. Keeley of Vancouver, directors of the mine, recently visited the property and expressed themselves as being highly pleased with the showings.
