POWER PLANS

Financial News Tells of Some of The Plans For Prince Rupert And Stewart

(Financial News)

Far-séeing enterprise of the hen behind Power Corporation of Canada is amply evidenced by recent purchases of the company n Western Canada.

there are two principal mainland ports on the Pacific coast of Canada, viz, Vancouver and Prince Rupert, and one port potentially a great randay with us, Stewart, at the head of Portland Canal.

Today Power Corporation of Canada has a stake in the power and light utilities of each of

nese centres. In Vancouver control is shared

with the Holt, Grundy interests mie in Prince Rupert and Stewert it is or will be entirely in he possession of Power Corpor-

H. C. Pawson, who has been at le coast for some time negotiating the northern acquisation or the Power Corporation, in an nterview with The Financial News this week made known the act that between \$2,500,000 and \$3,000,000 will be spent by his company in Princ Rupert and stewart, on construction work be-

See Prince Rupert's Future Taking over the municipal ower plant at Prince Rupert, vith its developed 3000 h.p., tart increasing that amount to ower requirements with developnent of its hinterland and esblishment of new industries

"Prince Rupert is the outlet or a territory hitherto more or ess unexplored lying north and st of that port," said Mr. Pawon. The future of the port will lso be affected by the settling i the Peace River country and he territory generally known as he Grand Trunk country.

Within a radius of 40 miles of rince Rupert are power sites on e Khata a, Oxtail and Brown's livers all lending themselves to

conomical development.

Means New Financing American Creek, some 12 miles up the Bear Valley from Stewart vill be developed to about 4,000 or 5,000 h.p., that amount being ifficient to take care of the imtediate requirements of the area tewart is regarded only as a lining centre, in the plans of the ompany, said Mr. Pawson, any ture it may have as a railway

It is understood that new finanpending by-law vote. The name on the new company and details of financing have yet to be de-

# Fairbanks Scales

For almost a century Fairbanks Scales have been known for their enduring accuracy, and each one of the many types has been perfected in design and build, to weigh not only accurately but also to register clearly at the utmost speed. From tiny delicate balance up to huge track scale, the Fairbanks line includes scales for practically every weighing purpose.

#### Steam Equipment

The phrase "for quality steam equipment - Fairbanks-Morse", can only suggest the large and varied assortment of steam goods stocked by our twelve branches.

Fairbanks and Pratt & Cady Valves - Foster Regulators - Burt Exhaust Heads and Oil Filters - Strong Traps, Durabla and Palmetto Packing are lines that have won a high recognition.

And each of the hundred and one articles in our steam equipment department, be it pipe or pump, gauge or gasket, wrench or vise, torch or fire pot, has been selected for its dependable service.

### Norton Grinding Wheels

For quickly removing metal, for cutting off, for producing a high finish on any material, for any service where grinding wheels can be used, you will find a Norton Wheel that will cut quicker, or produce a higher finish, or turn out more pieces at a lower cost. Norton Wheels are carried in stock at all branches and at your service are men who have made a study of removing metal by grinding. They will tell you the right wheel to produce the most work at the lowest cost.

### Transmission Equipment

To ensure the steady and economical flow of power from drive to machine, proper shafting, hangers, bearings, pulleys and belts are essential, and here you will find Graton & Knight Leather and Dick's Balata Belting, Fairbanks Wood Pulleys, Barry Steel Split Pulleys, Hyatt Roller Bearings, as well as all the numerous appliances necessary for the transmission of power.

## Fairbanks-Morse pumps and motors

"A pump for every purpose" - for water, steam, sand, air, sewage or stock, we can supply the special type of pump best suited for the service required. Fairbanks-Morse Pumps, either separate drive, or direct-connected to Fairbanks-Morse Ball Bearing Motors, have made unusual records for efficiency and dependability.

In our twelve Branches you will find stocks of mechanical equipment and shop supplies that for variety and quantity are unequaled in Canada. Aside from the many lines made by us, we have been selected to represent many of the world's outstanding makers of machine tools, machinery, equipment and supplies. Our general catalogue shows clearly how wide a service we provide for Canadian industry. A copy will be mailed without charge.
