HERE were two children, healthy and strong, who were climbing the ladder of learning - learning that life holds forth a promise to faithful students, rewarding them with opportunities and sometimes fame. Now these two children dreamed dreams and made wishes as they saw the end of schooldays and looked into the years ahead. Their country was prosperous, because the products of the land and factory were the first choice of all the people. All the land and its industries prospered and abounded with opportunities for the children of the people. Each child began the battle of life with the occupation of his choice, and few there were who failed n after years.

Products helps provide opportunities and careers for your children in the industries of British Columbia. After all, that is where "life" begins.
