# MAKE CANADA GREAT NATION

Canadian territory comprises half a continent, only a narrow strip of which is populated. It extends all along Bay, Wales Island. the United States boundary and varies in width from one Naas Harbor-Not operating. to six hundred miles. Even that section of the country is very sparsely settled and no one is sure just how far it will be possible to go. Gradually the northern frontier Haysport, Skeena Commercial, is being pushed back until it may eventually reach well into the Arctic Circle. The possibilities in such a huge area are enormous.

Dr. Grant, in addressing the Rotary Club this week, Lowe Inlet, Namu, Klemtu. spoke of the desirability of making this country one that will impress the rest of the world. The struggle against climatic conditions helps to develop stamina. It is in a Boswel, Smith's Inlet, Leroy. temperate climate that the best people are developed. Having this in mind we can well think that Canadians will be among the favored nations of the world. It will be a nation of which we may be proud.

It's a sin if Nature has a punishment ready for the person who commits it. For what is Nature but God?

# ELIMINATE WAR PERIL

A'most every great leader in the world today is anxious has been improving the last few to eliminate the possibility of war. Many have expressed days. themselves along those lines. And all the time each nation is looking with fear and trembling at the activities H. N. Brocklesby, assistant moved a survey party and crew boundary line which was not Yakutat an oyster catcher. of its neighbor and building ships and training men for war. They have not yet learned to trust each other.

Salmon Fishing Holding Up Well; Whaling in Full Swing on Islands: Halibut Landings Still Higher

Sockeye fishing by gill net boats on the Skeena and charter, this week. Also in the Naas Rivers during the past week was not quite as good Star Welding shop, the Inverness as in the week immediately previous, but has still been quite satisfactory. On the Skeena River the boats have averaged from 45 to 49 fish per day throughout the week, while fishing on the Naas was spasmodic, the average for one day of the week having been 32 fish. In the Rivers Inlet division the average is reported to be 68 fish. Sockeve is still the principa' fish being caught, pinks starting later in July. Fishing is reported.
