

### FIRE INSURANCE

Fire insurance is the cheapest commodity on the market today. The rate on your dwelling is from \$1.30 to \$2.00 for each \$100.00 of insurance for 3 years, depending on its location. This means that if you carry insurance on your dwelling for 150 years without a fire you will have paid out only the amount for which you are insured. It is so cheap you can not afford to be without it. We write it.

### ONLY KINGHORN WAS HERE-FROM ANYOX

No football team came from Anyox for the Labor Day celebration, so two scratch teams were picked for the entertainment of the spectators and two thirty minute halves were played, with Geo. S. Russell as referee. There was no particularly brilliant playing by either side except Willis-croft's cork-screw goal for the Callies. Kinghorn, who is visiting in the city from Anyox, played on the Callie forward line, but did not show up very well. W. Anderson and the elder Robinson played a splendid game for the Sons aggregation. The score ended in a tie 1 to 1.

### UNIVERSITY HEAD VISITS PRINCE RUPERT

Welcomed Here by Some of His Former Students—Enthuses Over G. T. P. Trip.

Among the arrivals from the east by Sunday evening's train was President Leonard S. Klinck of the University of British Columbia who was accompanied on his trip by Mrs. Klinck and 14-year-old son Ronald. President Klinck has visited this part of the province in the interests of agriculture with agricultural parties in other years. On this occasion the distinguished visitor had the opportunity of passing around the city at leisure and had time to see some of Prince Rupert's most attractive spots.

President Klinck succeeds Dr. Wesbrook who died in the fall of 1918. From that time until the time of his final appointment in the early spring of this year he was acting president. Formerly he was dean of the faculty of agriculture and along these lines has become very well known to many of the residents of the interior whom he has addressed on more than one occasion.

At this time he has just returned from a trip to Montreal, where there was a grand re-union of fellow graduates. He also arranged for the procuring of some additional members to the faculty staff. The return trip was made over the Grand Trunk and he has no end of praise for the many advantages offered by the northern transcontinental. There was no time to get all the local students together to welcome their esteemed head, but enough was done by some to make him realize that there were northern representatives in the great institution over which he presides.
