

Every Woman Knows

That Dr. Price's Cream Baking Powder makes delicious, appetizing food—unquestionably wholesome.

Some women, however, do not know that food made with cheaper baking powders, containing alum and phosphate compounds, is often inferior in taste and texture;—many of the highest food authorities have declared alum baking powders to be unwholesome and injurious.

The safe and sure way is to use

DR. PRICE'S CREAM BAKING POWDER

Made from Cream of Tartar derived from Grapes

Contains No Alum—Leaves No Bitter Taste

FEW GET NAMES ON VOTERS' LIST

Plenty of Officials Ready to Serve Those Who Wish to Register.

Those who wish to vote at the next general election and who are not already on the list of voters should see that they are registered at once or they will find themselves disfranchised when the time comes. There are hundreds of people living here who are not on the voters' list and who would like to vote, but they will not be able to do so unless they take steps to register. Some of the labor men have registered, but not many of the newer arrivals have placed their names on the list.

There is some little doubt in the minds of many as to where they may register. Among those who are authorized to receive applications and who should carry the proper forms for the purpose are every justice of the peace, the mayor, any of the aldermen, the postmaster, the registrar of titles, every notary public, provincial constable, assessor, mining recorder, judge, stipendiary magistrate, municipal clerk, assessor, Indian agent, registrar of voters, and those commissioners especially appointed for the purpose. With such a multitude of officials ready to act, there should be no difficulty in getting on the list.

J. H. McMulvin is the official collector and all applications are forwarded to him on their completion.

BIG GUNS ARE NOW COMPLETE

Built by Vickers for the British Government and Expected to Carry 75 Miles.

(Special via G. T. P. Telegraphs.)

London, Sept. 2.—Two unique guns have been completed by the Vickers Co. to the order of the British Government. These two cannons are unique. They are really the standard naval 12-inch guns reduced to 8-inch by inserting interior linings in the bores. They will fire special streamer shells, so shaped as to avoid air friction and secure smooth rotation and even flight, and the range is expected to be at least 75 miles.

These guns were ordered by Mr. Churchill when he was in charge of munitions, and were not approved by military authorities in France, partly owing to the difficulty of transport, the guns and special mountings being very heavy and bulky, and partly because no adequate military results were foreseen.

From the military point of view the killing in Paris of a few people by long-range freak shell fire was negligible. But from an expert ballistic and artillery point of view, the new weapon will be of supreme interest. In a short time there will also be completed several 18-inch howitzers of terrific power.

VISITED BARBECUE, ENJOYED THE RACING

Alex. Hunter, secretary for the Northern British Columbia Agricultural and Industrial Association, returned from a trip to the interior by the train last night. He proceeded as far as Hazelton and later motored out to Telkwa and reached the scene of the barbecue activities in the afternoon. He reports that the affair was a very great success and the horse races were a great drawing card. All the animals were in fine condition and it was break neck clip all round the track.
