# NEW UN LANDING ABOVE 38TH PARALLEL

## Relief Syndicate Buys Administration Bdg.

Frank Kafel Sells Property—To Be Converted Into 60-Suite Apartment

Important preliminary move towards providing Prince Rupert with a substantial block of much-needed new housing has been taken.

Announcement was made late yesterday of outright purchase by a Prince Rupert syndicate of the former United States administration building on 7th Avenue near Seventh Street.

## Organizing School Band

Students Going  
With New Musical  
Instrumentation

According to the accompanying list of a brass band may be organized in Prince Rupert. The school band will consist of the following: two trumpets, two trombones, one baritone, one bass, one bass drum and a side snare. A flute on order is expected to arrive shortly.

Membership will be confined to present students, said Mr. Hu-cho, who said that a progressive group of well-trained. An effort will be made, he said, to incorporate the past year's students in the past year's curriculum. In Grade VII have been given instruction in music theory and on the flute, and in the brass instruments.

It is hoped to begin this type of instruction for Grade V students.

## B.C. Electric Negotiations

VANCOUVER — Union and company officials met for an hour yesterday after transit workers in British Columbia's three major cities rejected a wage offer by B. C. Electric Railway. An increase of 13 1/2 cents was offered.

Details of the discussions were not disclosed but both sides indicated the meetings would continue "within several days."

Majority of the 3200 transit workers in Vancouver, Victoria and New Westminster, seeking a wage hike of 25 cents an hour, rejected the company offer.

The workers are represented by Amalgamated Street, Electric Railway and Motor Coach Employees Union (AFL) which had recommended acceptance.

Rejected along with the wage offer was the "package deal" which would have given workers an increase in sick benefits from \$20 to \$30 a week and three weeks vacation after 10 years' service.

## Could Strike United States

Chief of Air Force Thinks  
Russians Could Get Through

WASHINGTON — Gen. Hoyt S. Vandenberg, chief of the Air Force, believes Russia could push at least 70 out of 100 bombers through to United States targets in a determined attack.

Vandenberg said in a signed article in the current issue of Saturday Evening Post that Russia "has been working intensively on a heavy bomber to match the B-36 Superfort" and that "she unquestionably will build it."

Analyzing Soviet striking power and United States air defenses, Vandenberg said Russia "now has at least 450 planes that can strike out major population and industrial centres from bases in the USSR" (a reference to Russian copies of the B-29).

He expressed belief no conceivable defence could fully stop a determined bombing attack.

## Princess Patricias Going Into Combat Area Tomorrow

WITH CANADIAN TROOPS IN KOREA — The Princess Patricia's struck camp today to move up to combat area tomorrow. They will be led by Lt. Col. J. R. Stone, their commanding officer, who returned from the front yesterday briefed on the battalion's first operation project.

Positions where the battalion will dig in are two days' road travel distant from the Canadian's South Korean training area. The job awaiting the Patricias may keep them out of battle news for some days. Under regulations, reporting is permitted only when firm contact has been established with the enemy.

## On Crossing Of Thirty-Eighth

OTTAWA—All nations who are taking part in the Korean war with their troops should have a say in the matter of whether or not the United Nations should cross the thirty-eighth parallel into North Korea, Minister of External Affairs Pearson told the House of Commons yesterday.

Any decision on this matter should be a collective decision of all those participating in the campaign, he said.

## South Koreans Go Ashore At Wonsan

### Staggering Casualties Inflicted on Communists on Central Front

TOKYO (CP)—South Korean marines landed today at the big North Korean east coast port of Wonsan in a surprise raid under cover of strong Allied naval bombardment. Wonsan is 90 miles inside Red territory above Parallel 38 on the Sea of Japan.

On the flaming central Korean front, American, French and Dutch forces inflicted a staggering toll on Chinese and Red Korean divisions striving for a break-through along a 20-mile-wide sector.

A field dispatch said that Allied defenders shattered two Communist divisions in a welter of blood, bombs and shellfire. It added: "Chinese lay dead by the thousands on all side of surrounded Chipyong." Other thousands were heaped up also in a river valley eight miles northwest of Wonju where they stumbled into a murderous air and artillery ambush.

On the western front the Americans mowed down 1152 Red Korean sneak troops who had crossed the Han River and slipped inside the Allied lines. They captured nearly 250 more Communist soldiers.

American machine-guns cut down fleeing remnants of the Red Korean force as they tried to splash back across the Han. Allied losses were reported small.

The landing at Wonsan on the Sea of Japan was made early Wednesday afternoon. A big Allied task force, including the battleship Missouri, bombarded Red installations. Then the South Koreans swarmed ashore north of the harbor.

The Koreans fought to the city's outskirts and seized two islands off the port.

Resistance is reported light.

## Penticton Hit Hard By Flu

VICTORIA—Penticton is the only community in British Columbia which has been hit hard so far by the epidemic of influenza which appears to be developing in Canada. Elsewhere in the province there have been only 196 cases.

## how they did it

### (One of a series) Cranbrook Arena

Population (including urban residents)—About 6000 people.  
Cost of artificial ice—40,000 Average share per person—6.50  
Cost of arena—\$ 70,000 Average share per person—\$11.50

Total \$110,000 Per person \$18.00  
Designer and builder—E. E. Tory, Vancouver, B.C.  
Facilities—Ice sheet 80' x 191'  
—Furnace room  
—Seating for 1200 people  
—Two large dressingrooms  
—Office  
—Control room  
—Coffee bar

Financing: The arena—By service clubs and ratepayers bylaw.  
Artificial ice—By direct public donations.

The Cranbrook arena was recently opened. A curling rink had been in operation for many years. The funds to instal artificial ice are now being raised.

The arena is approximately 100 feet wide by 250 feet long. It is constructed of wooden arched trusses, at about 18-inch centres, rising from concrete abutments on each side of the arena. These abutments are outside the arena outer wall so that no posts are inside any part of the arena. The roof and outside are covered with sheet aluminum.

The 1200 seating capacity, giving a clear view of the ice surface, is principally at the ends. Dressingrooms, etc., are constructed under the seating. Additional future seating is possible at the sides, with little added cost, but the arches do not allow completely clear view of the ice surface.

The construction contract was on a unit basis, definite costs being quoted for each unit, such as each truss, each section of sheathing, etc. The money as raised could then be definitely allotted.

It is believed that the service clubs were the original movers, but the co-operation, effort and financial assistance of the entire community, citizens, business and industry, was necessary for a successful completion.

## Japanese To Stay Away From Western Pacific Fisheries

WASHINGTON (CP)—The Japanese government announced yesterday a voluntary agreement to bar its nationals temporarily from the major fishing areas in the eastern Pacific and in the Bering Sea.

The ban is to be effective until after Japan regains full sovereignty with signing of a peace treaty. Hereafter, Japanese pledged their willingness to negotiate conservation agreements with other countries applying to all fisheries accessible to the Japanese.

The Japanese government will keep its citizens from those fisheries already being conserved where Japanese were conducting operations in 1940. Among such fisheries would be salmon, halibut, herring, sardine and tuna in waters of the eastern Pacific and the Bering Sea.

## Sugar Ray Favorite

CHICAGO — Middleweight Champion Jake La Motta weighed in at 160 pounds today, making the exact weight for his title defence against Sugar Ray Robinson at Chicago Stadium tonight.

Robinson scaled 155 1/2 at the official weigh-in. He rules 3-1 to 4-1 favorite.

Mrs. George Colbourne arrived in the city today aboard the Prince George, to join her husband here. Mr. Colbourne, who came to Prince Rupert a month ago, is on the mechanical staff of the Columbia Cellulose Company.

## Aluminum And Game

### Special Survey To Be Made in Kitimat-Nechako Area

Due to the aluminum manufacturing plans at Kitimat, the provincial game department will conduct a scientific survey this summer in the area from the Nechako River west, Game Commissioner J. G. Cunningham said here this morning.

Referring to the aluminum project, Mr. Cunningham said: "I think it will be established—they have gone too far to back out."

The commissioner, who arrived here on the Prince George this morning for the annual Rod and Gun dinner, said that a contract has been signed with guides and field men to investigate the results of the Aluminum Company's planned flooding of northern lakes.

In addition, he said, Dr. Peter Larkin, game commission biologist, will conduct a fish survey in the Tweedsmuir Park area where the aluminum damming is planned.

Also here to attend the banquet to be held tomorrow is Game Inspector W. H. Hill of Prince George.

Formerly relieving here with the U.S. Customs, Earl E. Gadberrry was aboard the Prince George this morning. He and his wife have been holidaying in Wyoming and are now returning to Ketchikan.

## Wiggs O'Neill Coming Back

SMITHERS—Undeterred by the disastrous \$100,000 fire which wiped out his garage on Sunday, Wiggs O'Neill, pioneer automotive dealer, is already back in business. He is selling gas in small premises which he promptly obtained and is making plans for rebuilding on the fire-swept site. Foundation is believed to be still in good condition.

## Sees No Russian China Break

OTTAWA—It is idle to believe that there is any possibility of Communist China breaking with Communist Russia, said Hon. George Drew, leader of the Progressive-Conservative party, yesterday. Only a break between dictators could bring that about, Drew said. He was speaking before the Ottawa Business and Professional Women's Club.

## United States Cleared By UN

LAKE SUCCESS—Two Russian resolutions which would have cited United States as aggressor in the Far East were rejected by the United Nations political committee yesterday, only the Soviet bloc supporting them.

One resolution charging United States with aggression through invasion and blockade of Formosa was rejected 49 to 5.

Another charging United States with aggression in connection with bombing in Manchuria was defeated 50 to 5.

India voted against both resolutions.

## Israel Gov't Beaten, Quits

JERUSALEM — Cabinet of Prime Minister David Ben-Gurion, head of the Labor party, fell today over a question of religious education among immigrant children. Ben-Gurion resigned after his program was rejected 49 to 42 votes.

## Cominco Takes Taku Mill

### Two New Tulsequah Properties Start Production

TRAIL—The Consolidated Mining & Smelting Company of Canada Ltd. will lease the Polaris-Taku Mining Co. surface plant on the Tulsequah River in British Columbia, about 60 miles east of Juneau, according to an announcement made today following completion of arrangements between the two companies.

The present Polaris-Taku concentrator will be modified to handle ore from Cominco's Big Bull and Tulsequah Chief operation at the rate of about 250 tons a day.

Operation is expected to start by midsummer this year and a crew of about 200 men will be employed. The arrangement between Cominco and the Polaris-Taku Mining Co. provides for a minimum five-year lease period.

Cominco's Big Bull and Tulsequah Chief properties have been under development during the last three years and adequate ore reserves have been established. Ore from the mines will be trucked an average of five miles to the concentrator.

Production at the Big Bull will commence this summer with the Tulsequah Chief coming in at a somewhat later date.

Mineral values at both properties occur as a complex copper-lead-zinc ore containing gold and silver.

The concentrator will produce a copper, a lead and a zinc concentrate. These products will be trucked seven miles to Tulsequah Landing and barged down the Taku River to tidewater.

The copper concentrate will go to a customs smelter at Tacoma and the lead and zinc concentrates will be shipped to Trail.

## Mrs. Sullivan Is Acquitted

OTTAWA—Mrs. Marion Sullivan was acquitted here late yesterday on a charge of manslaughter in connection with the death of her husband, Francis J. Sullivan, in a room of the Chateau Laurier here last fall. The jury deliberated for four hours. The verdict was the only one the jury could bring in, the presiding judge agreed.

The 48-year-old woman was charged with manslaughter after the body of her husband, corporation lawyer for the province of Ontario, had been found in the hotel bedroom last November 18.

The jury heard a summary of the evidence by Crown Attorney Raoul Mercier and from Royden Hughes, counsel for the defence, and received its charge from Chief Justice J. C. McRuer.

Mr. Mercier contended that Sullivan died from blows received in a struggle. Mr. Hughes submitted that he died from natural causes.

## Government Is Upheld

OTTAWA—Parliament yesterday rejected a CCF want of confidence motion criticizing the government for failing to institute price controls. The vote was 150 to 54 with Progressive Conservative and Social Credit members joining with the CCF. Liberals voted solidly against the motion.

A. J. Brooks, Progressive-Conservative, New Brunswick, and Hazen Argue, CCF, Saskatchewan, were among the Opposition members who spoke against the government yesterday.
