A SPEED BOAT RACE AT FAIR

Preparations Being Made for an Unusual Event in Endeavor to Land Challenge Cup.

SPECIAL PRIZE FOR INDIAN LAUNCHES

Superintendent Campbell of the Anyox mine expects to have a speed boat in Prince Rupert that will be fast enough to carry back the silverware to the smelter town, according to a report made by Ben Self at the meeting of the Agricultural Association directors last night. The race will take place at 10 a.m. on the last day of the fair and there will be either two or three local entries that will possibly have an effect on Mr. Campbell's ambitions.

In addition to this challenge cup event, there will be a big launch race for Indians, the prizes offered for the event being \$50, \$25 and \$15. Many Indians are very proud of their launches and this will be an opportunity to test their speed and endurance. A number of entries are looked for.

REORGANIZING TRADE THROUGHOUT BELGIUM

London, Sept. 10.—Trade organization is proceeding rapidly in Belgium. As Great Britain has its Federation of British Industries and France its formidable industrial groups, so Belgian industry has been divided into a well-organized system of 18 main divisions. In each of these divisions have been formed one or more groups to take charge of the interests of each of the particular branches into which the industry in question is subdivided. The groups are not merely industrial associations, but are judicial organizations with power to buy and sell. They were formed without any official intervention or control, but have been virtually recognized by the Belgian government. At the head of this system is the Central Industrial Commission which existed before the war as a federation of the large industrial associations. The Commission has established a special reconstruction service with headquarters in Brussels for the purpose of assuring unity of action among the various groups and to serve as the intermediary in dealing with the Government in all questions of general interest.

REV. GEO. H. RALEY IS TO OPEN EXHIBITION

Many Indian Schools Will Have
Displays and There Will be
Basketry and Network
Demonstrations.

Definite arrangements were made last night to invite Rev. Geo. H. Raley of the Coqualeetza Industrial Institute of Sardis, B. C., to open the fair here. He always takes a deep interest in the fair and his institute will have an exhibit here.

Five Indian schools will have exhibits of their work entered for competition, including color work and plastocene modeling.

President Perry expects to have demonstrations of Indian basket making and net making at the fair this year. He visited Metlakatla yesterday to see the Indians who do the work and will go to Tucks Inlet when he hopes to have the final arrangements made.

A wire was received yesterday from Dan Harris at Hazelton saying that he was shipping the mineral exhibit from their district.
