Esquimalt

ESQUIMALT, at its by-election yesterday, voiced in no uncertain terms its protest at the coalition government and its policies. All parties were admittedly watching this by-election as a barometer of public opinion and now they have had the expression.

There is no secret about the fact that the government and its supporters were nervous about it. That was one reason why the taking of the poll was so long deferred.

Of course, the outcome indicates that the CCF is still a force in provincial politics although in almost traditionally Conservative Esquimalt—even if for years it might have been a family affair—the protest motive might have been the actuating factor more than socialistic intent.

The fact of the matter is that the government's candidate—the mayor of Victoria and a popular figure around the community of the capital—came a poor third and the coalition got less than a third of the vote. So the opposition, even split, was far in the preponderance.

One thing is certain: there is going to be a lot of political activity in British Columbia in the very near future. The government is going to have to consider its own position seriously and soon. Reorganization or resignation of the government is something that could be reasonably anticipated.

And the voters of the province will have to consider seriously what kind of a government we are going to have in British Columbia.

Political groups will have to get busy without delay on their platform preparation and presentation for, with the current coalition so obviously fading, the public will want to know what is being offered on vital provincial policies.

The Esquimalt result indeed brings the political situation in British Columbia to a climax.

How Far With Japan?

ALTHOUGH Canada has signed the San Francisco Peace Treaty with Japan, our delegates as well as many of those from other countries, made it perfectly clear, that on some points this pact was not completely satisfactory. In our particular case there was some grave doubt concerning trade and fishing agreements, two matters that have led to much friction in the past.

It was with this previous experience in mind that the Canadian Manufacturers' Association makes the recommendation that Ottawa should refrain from immediately according Japan most-favored-nation tariff treatment. The CMA points out, that if we do so now, new international agreements since the war would no longer permit us to take the measures formerly employed to meet their unfair competition. On the other hand, if Japan remains subject to the general tariff only, Ottawa would not have its hands tied.

The CMA recommendation should get careful consideration. Admittedly Canada as well as Japan stands to gain from the restoration and expansion of mutual trade. But before we open the gates completely it would be well to have some definite assurance that there will be no revival of previous troubles.

Reflects and Reminiscences

The safest way to double your money is to fold it over and put it in your pocket.

HARDLY EVER

Alberta is being called "the Texas of the North." This must be due to the oil, and rolling plains. But as yet, we have not heard the Texas drawl. No such!

A craving for cigarettes will set you back forty three cents. Perhaps, because of this, there will be fewer half-smoked ones lying around, or soaking in rain water pools. Indeed, how often does anyone ever actually see a cigarette, the most of which has been consumed?

Howard Green MP says the present administration at Ottawa will go down in history as the "horsemeat regime." With some, it's taking very little urging to be a consumer, but only some. Tens of thousands all over Canada, if they have to eat horse in order to have a square meal, will find ways and means to avoid the alleged necessity. They are fed up with the idea.

Admiral Fechteler U. S. N. speaks of the possibility of war within the next twenty years. Well, there's nothing like having plenty of latitude. Don't fence us in.

FIFTH SEASON

The next four or five weeks will be known as the party heating season. There will be fuel, and it will be burning, but never, at any time, will there be a corner where one will feel sufficiently warm.

A survey has disclosed that Americans, in the tourist land of British Columbia, last summer spent an average of twenty dollars per day. In a considerable number of cases, there was refusal to allow a premium on United States funds where either vendors, or other stores were concerned. Only in banks would concession be recognized.

Juan Peron and his partner in petticoats, as well as nearly everyone else in Argentina are experiencing stormy times. The situation is described as having been close to civil war. They are dictators and have never taken the trouble to disguise it. They got away with this for years but invariably the showdown comes.

It is worth noticing that the big row broke out after the suppression and virtual extinction of Argentina's great newspaper, La Prensa.

Laborites Are United

Aneurin Bevan Subscribes To British Labor Program

SCARBOROUGH, Yorkshire, England (P) — The Labor Party pledged Sunday it would work for world peace, cut the cost of living and carry forward socialism in Britain.

In its platform for the October 25 general election campaign, the party's 27-member executive committee healed its recent split over Britain's rearmament and unanimously approved the program.

The 1800-word document was released on the eve of the party's annual conference of some 1500 delegates and party leaders.

The platform, roughed out during the last two days by party leaders, included Aneurin Bevan, who quit Prime Minister Attlee's cabinet last spring.

Bevan protested that the United States was dragging Great Britain into arms program so it would hurt the welfare state.

Dr. C. H. Wright of Trail and J. H. Palethorpe of Penticton were nominated by the Prince Rupert Chamber of Commerce last night for directing representing British Columbia on the executive of the Canadian Chamber of Commerce. The election will take place at the annual convention of the Canadian chamber at the end of this month.

RADIO INTERFERENCE

Editor,
Daily News:
May I use your column to lodge what I think is a justified complaint.

Radio in Rupert is one of the few pleasures we may look forward to. By that I mean getting stations other than the local, of which most of them, such as Ketchikan, Seattle and Portland, at times come through pretty clear but through one or maybe a few people who insist on using machines that cause continual noise, this pleasure is often taken away, causing maybe a few unnecessary cuss words.

It seems to me, since we pay a radio license fee, we should have a service, such as other cities, in spotting these culprits and making them get an adapter installed in the machines or stop altogether.

Hoping the person or persons guilty will read this and maybe their conscience will flutter a little and let us have maybe a couple nights a week pleasure without buzzing us right out of our living rooms.

Tungsten in Production

Production of tungsten is due to start this month in the Rocher de Boule mill at Hazelton. This will also be true of the recovery plant of the Western Uranium Cobalt Mines, also in B.C. There the 100 ton Red Rose mill is expected to produce tungsten concentrate, and a concentrate containing copper.

Three more fire alarms were turned in during September than in August, but the count was considerably by the fire department still to be very low. The eight calls which were answered resulted in "negligible damage." Total damage due to fire so far this year is estimated at \$23,000, \$20,000 of which occurred in March fires.

Better Waiting Rooms Sought

Canadian National and Canadian Pacific Railway companies will be canvassed by the Prince Rupert Chamber of Commerce with a view to improving waiting room facilities here.

Subject was brought up at last night's meeting of the Chamber when H. J. Marchant suggested that something might be done about brightening up the station here, particularly now that six trains a week service was being instituted.

Lack of waiting room facilities at both CNR and CPR wharves was mentioned.

Pendleton Bay Contract Given

The contract for building an office, stores and residence for the provincial forestry department at Pendleton Bay, Babine Lake, in Northern B.C. has been let to Greer and Bridden, Prince Rupert. It was a low bid of \$36,922. Figures on the work closed July 25.

Those deer eyes!

Doe eyes looked into Irish eyes, and Patrolman Flaherty put away his revolver. He had been ordered to shoot "Stumpy," a pet deer, because her leg was broken. Instead he called a vet, who set "Stumpy's" leg, using aluminum splints.

Aluminum saves human lives, too, in many ways—for instance, at sea with aluminum lifeboats, from fire with aluminum ladders. It saves the lives of forest trees with portable aluminum pumps... and the lives of crops with movable irrigating systems... A versatile metal, aluminum! Aluminum Company of Canada, Ltd. (Alcan).

Anscomb Good Wine Publicist—Misreporting Charged—Prettying Up for Princess

There's nothing Finance Minister Herbert Anscomb loves better than an argument about his wine business. Every chance he gets he mentions it on the public platform. He did it several times in the recent Esquimalt by-election campaign.

A man got up and wanted to know if there's a wine monopoly in B.C. Mr. Anscomb jumped to his feet and said he was glad he had a customer in the hall. The man protested that he didn't drink Mr. Anscomb's wine or any other kind of wine.

Mr. Anscomb said there's no wine monopoly in B.C., that there are 74 different brands of wines, from all over the world, in addition to his, on the shelves of Liquor Control Board stores.

A good businessman, Mr. Anscomb knows the value of free advertising.

The old custom of politicians denying they made statements that prove embarrassing never dies.

Mines Minister R. C. Macdonald, a Conservative, spoke a few weeks ago in Port Alberni. The papers reported that he said all the Coalition troubles should be laid on the shoulders of the Liberal cabinet ministers, that the Conservative cabinet ministers are blameless.

This started quite a howl. There were those who said Premier Johnson should demand Mr. MacDonald's resignation. At a public meeting someone asked

FESTIVE—quick to fix with Modern Fast-Acting DRY Yeast!

FAN TANS

Measure into large bowl, ½ c. lukewarm water, 1 tsp. granulated sugar; stir until sugar is dissolved. Sprinkle slowly with 1 envelope Fleischmann's Fast Rising Dry Yeast. Let stand 10 min. THEN stir well.

1 c. milk and stir in 5 lbs. granulated sugar, 2 tbsps. salt; cool to lukewarm. Add to yeast mixture and stir. ½ c. melted butter or shortening. Beat in 3 c. flour-sifted bread flour; beat well. Beat in 4 lbs. melted shortening. Work in greased bowl and brush top with melted butter or shortening. Cover and set in warm place, free from draft. Let rise until doubled in bulk. Punch down dough in bowl, grease top and let rise again until nearly doubled. Punch down dough and roll out, half at a time, into a rectangle, scant ¼" thick; lift dough, cover with cloth and let rest 5 min. Brush with melted butter or shortening; cut into strips 1 ½" wide. Put strips together, cut into 12 pieces, place each in a greased muffin pan; separate slightly; a little at top. Cover and let rise until doubled in bulk. Bake in hot oven, 400°, 15-20 min.

Always running short of yeast because it spoils so quickly? End this nuisance—switch to modern Fleischmann's Fast DRY Yeast! Keeps full strength and fast-acting right in your cupboard—no refrigeration! No new recipes—one package equals one cake perishable yeast in any recipe.
