## Princess Pats Fight Greatest Battle

## Pursue Enemy Along Blood-Soaked Trails

WEST-CENTRAL FRONT, Korea (CP)—Canadian troops last night sat tight on Hill 532 after a two-day battle described by Lt.-Col. J. R. Stone, their commanding officer, as "one of the greatest in the annals of the Princess Patricias."

Engagement saw the battalion make two bayonet charges up a 60-degree slope covered with shoulder-high pine growth and cut by a lacework of enemy positions.

Patricias yesterday took two spurts leading up the hill, took them with bayonet charge and close-quarter fighting. Today's attack carried them onto the hill.

Chinese bodies counted on the ground numbered 43. More undoubtedly were carried away before the Chinese withdrew and, on the basis of normal ratio of killed to wounded, at least 250 enemy must have been wounded.

Trails up Hill 532 were drenched with blood and they led right on down the forward slopes into enemy territory beyond.

The bayonet charge was made by the company of Major Vince Lilley of Hamilton.

Unlike Wednesday, when the Chinese bitterly contested an assault by the company under Capt. Gordon Turnbull of Toronto, opposition was light.

Even so, the performance was impressive for its sheer courage. It came after Major Lilley's men had spent the night less than 100 feet from Chinese higher up the hill.

Bren Gunners Pte. Ron Ebert of Nanaimo and Pte. Ken Dobbs of Duncan couldn't even dig in. They found shelter behind large rocks, with the enemy opening up on them every time they moved.

ALLIES FORGE AHEAD  
Allied troops ripped a gaping hole in Communist lines as they drove ahead as much as four miles today in their big new Korean offensive.

Thousands of Red casualties were added Friday to more than 17,000 killed or wounded in the

## Paris Not So Hopeful

PARIS (CP)—The big-power foreign ministers' deputies went in to their fifth session today amid reports of an important message received by the United States delegation from Washington.

Deputies, trying to find out whether the top-level Big Four conference can be held on international tension, were 20 minutes late starting.

The session opened in an atmosphere of pessimism brought about by words of Soviet Deputy Andrei Gromyko, who made it appear chances of hammering out an agreement on the agenda for the foreign ministers have lessened considerably.

## Plane Base At Lakelse

TERRACE Board of Trade Seeks It—Better Freight and Phone Service Sought

TERRACE.—Acting on the advice of Hon. E. T. Kenney, the Terrace Board of Trade decided at Wednesday night's meeting to write to E. T. Applewhite, M.P., urging him to seek action on the immediate establishment of a mooring wharf and refueling facilities for planes at Lakelse Lake. It was also suggested that a possible site for the wharf could be in the vicinity of the Forestry station where there is a sheltered bay and deep water.

The advice that the board take the initiative in this matter was contained in a personal letter from Mr. Kenney to Alec Gillanders congratulating him on becoming this year's president of the board. The meeting was held in the Credit Union Hall and was presided over by Mr. Gillanders. Due to the very cold weather, there was not a very good attendance.

E. S. Sargent, speaking for the Terrace Retail Merchants' Association, asked the board to endorse a request to the Canadian National Railways that an adequate staff be available in the local freight office to handle business there until a freight shed can be built. The local merchants complain of a delay of three or four (sometimes more) days in the handling of freight after arrival here, and they are in accord in believing that a freight shed would eliminate this delay. Accordingly, the board endorsed the merchants' request.

TELEPHONE SERVICE  
Months of dissatisfaction with local telephone service came to a head on Wednesday when, following a serious accident in a local garage, the doctor could not be called. An improvement is being sought by the board. It was decided to communicate with E. T. Applewhite to ascertain what progress he had made in respect to the establishing of a booster station in Terrace.

The members decided not to let the matter drop of having directional signs erected in the district but to keep pressing for them from the Department of Public Works, especially as it appears that other districts are getting such signs. The village commissioners are also to be asked to have street signs erected in the village.

A letter from Canada College, Toronto, concerning bursaries and scholarships will be turned over to E. S. Laird, high school principal.

McNeely Dubose, president of the Aluminum Company of Canada, wrote thanking the board for their invitation to visit Terrace and stated his intention of doing so at the first opportunity.

Several other matters of correspondence were disposed of. The next meeting will be the quarterly meeting.

## YugoSlavia Charges Military Pressure

Toughest Document Yet by Tito Against Russia—Sees Aggressive Measures

BELGRADE (CP)—Yugoslavia today formally accused Russia of applying "military pressure" against her and of supplying Soviet satellites with arms and troops with which to overthrow Marshal Tito's anti-Cominform government.

## Seward Mayor Is Imprisoned

ANCHORAGE, Alaska (CP)—The mayor of Seward is in federal jail today, charged with taking money to take a trip—and then not taking the trip.

A secret indictment, returned by a grand jury February 28 and now made public, specifically charges Mayor Eugene N. Lanier with obtaining money under false pretences.

He was charged with accepting \$200 to attend a Coast Guard hearing in Juneau, January 8, in connection with a shipment of explosives. Indictment said he did not attend the hearing.

Lanier was asked by Seward City Council January 15 to resign. He remained in federal jail unable to post \$5,000 bond.

The document appears to be the Tito government's toughest talking indictment against the Kremlin and Soviet satellites since the country's independent Communists broke with the Cominform almost three years ago.

The minister was asked whether Yugoslavia was concerned about the possibility of invasion from the east this year. He replied the Yugoslav government was not given to making prophecies but added details in the White Paper "show people in Yugoslavia should be concerned and ready for any possible occurrence."

The White Paper accused Hungary and Rumania with "undertaking far-reaching and serious military measures which were not customary on borders of countries in peacetime."

Asked what these measures were, Vojvodica replied trenches along the border were being dug, mortar emplacements being made and airfields built.

The White Paper said Hungary, Rumania and Bulgaria have stepped up armaments production "of a type and calibre used in the Soviet Union" and their arms stocks are growing with the help and deliveries from the Soviet.

Remains of Oliver Santurbane, popular Prince Rupert boy, who passed away this week in Vancouver, are being returned home this Sunday on the Camosun and the funeral will take place here next Monday. Returning with the body are the father, D. Santurbane, who flew south this week, and a brother, Capt. Ernest Santurbane, coming from Texas where he is serving with the United States Army.

Relieved of administrative responsibilities, Bevin will remain a member of the cabinet in the post of Lord Privy Seal where his advice on foreign affairs particularly will be available.

## AVERAGE HOSPITAL STAY HERE 7 DAYS

Administrator D. C. Stevenson has been compiling some statistics at the Prince Rupert General Hospital. At least one fact of outstanding interest has been established. It is that the average stay of patients in the Prince Rupert General Hospital is 7.3 days as compared with the general provincial average of eleven days in the rest of the province.

## Conspiracy In Pakistan

LAHORE (CP)—Prime Minister Liaquat Ali Khan said today his government discovered a plot "striking at the foundations of our national existence" and has arrested the chief of general staff and other ringleaders.

Full details cannot yet be disclosed "for reasons of national security," he said.

The Prime Minister said the plot was "aimed to create commotion in the country by the loyalty of Pakistan defence forces."

## MacMillan on Defence Board

OTTAWA (CP)—H. R. MacMillan, one of British Columbia's leading industrialists, has been selected as Canada's representative on the North Atlantic Defence Production Board.

Appointment of the 65-year-old lumber, fish and shipping business man was announced yesterday by the trade department. It places emphasis on Canada's belief that she can make her best contribution to North Atlantic defence by armament production.

Mr. MacMillan's job will be to fit Canadian plans into the overall objectives of the organization.

## "Lonely Hearts" Killers "Burned"

OSSINING, New York (CP)—"Lonely hearts" killers, Martha Beck, 31, and Raymond Fernandez, 46, died last night in Sing Sing prison's electric chair, calm and dignified, pleading undying love for each other.

The 200-pound murderer, her fat bulging under the chair's straps, was the last of four persons executed in the space of 24 minutes.

## Education Features

Several feature stories dealing with Education Week in some of the city schools will appear in the Daily News tomorrow in connection with a general round-up of the week's activities.
