

Garbage Problem

Thorough Survey To Be Undertaken—Would Extend Service

A thorough survey of city garbage collection is to be made by the city council's board of health in conjunction with the garbage collectors headed by E. F. Glassey and Sanitarian Edward H. Fitch. The survey is being conducted in conjunction with the five-day collection week, which is being observed by the city council. Glassey said that the garbage collectors had "never been approached" with the suggestion that they work week-ends. Glassey referred to a report of a health meeting which quoted him as saying that the collectors did not work more than a day week, because of union objections. Glassey said he would not know whether the report in the News was accurate or inaccurate. But he said he had not since the health meeting of which he was chairman, the collection crew had not been approached with suggestions of extra work. Don Fitch said the collection crew had not been approached because of extra expenses involved in paying over-

Dr. Duncan Black, medical officer, said Prince Rupert is not a very clean city. He said that the garbage overflowed from the garbage overflows of restaurants during a five-day non-collection period. He said disease could be spread by flies and garbage exposed to air in warm weather and that the health unit's request for this situation be strongly considered was no fly-by-night.

Mr. Evans said only very few restaurants provided suitable garbage cans and that on rainy days the cans would have water in them. He said on Monday mornings the cans were "so full they are hard to handle, and garbage is spilled."

He said he would welcome a member of the garbage collection crew to be present on regular garbage collection trip.

Canucks Get Information

But Raid Behind Enemy Lines in Korea Cost 20 to 30 Lives

WITH THE CANADIAN BRIGADE IN KOREA — A battalion of the Canadian Twenty-fourth Brigade has brought back valuable information about Communist defences after a three-day raid behind Chinese lines of Imjin River.

The raid cost the Communists estimated 20 to 30 killed, said Robert Keane, acting brigade commander. He said the Canadian casualties were negligible. They thrust 4½ miles into enemy territory.

Foreign Exchange Control Evasions

Vanouver (CP)—Two brothers, John Addison McAllen and William Henry McAllen—were fined \$30,000 each today for foreign exchange regulations violations.

The brothers, owners of the Capilano Timber Co., pleaded guilty to three charges in County Court.

# Cease Fire Delegates Down to Brass Tacks

KOREAN ORPHANS—These are most of 80 Korean children living in an improvised orphanage in Seoul. Ranging in age from 2 to 15, they are under the care of 18-year-old Chung Kyong-Nyang, second from right. Kyong-Nyang is general administrator, chief nurse, quartermaster, dietician, dormitory supervisor and recreation director for the establishment. The son of a farmer, he never attended school, but taught himself to read and write. United Nations authorities were impressed and made him responsible for the orphanage. His sister, Chung Nok-Hyon, 15, lives at the orphanage. They do not know where their parents and five younger brothers and sisters are. (CP PHOTO)

## City Council Would Safeguard Fisheries In Japanese Treaty

A strong request to the government of Canada regarding fisheries safeguards in the Japanese peace treaty will be made by Prince Rupert's city council. The following statement of policy was passed in a motion at city council meeting last night:

1. That the government of Canada do all in its power to have written into the proposed Japanese Peace Treaty—or in a separate treaty at the same time—full protection for the British Columbia fishing industry.
2. That in the interests of conservation and the protection of our fisheries, the Treaty specifically declare that no Japanese fishing fleet shall be permitted in our conserved waters.

**UNION'S PRESENTATION**  
T. A. Parkin, secretary of Prince Rupert local, United Fishermen and Allied Workers' Union, addressed the council to say that B.C. fisheries and Prince Rupert in particular—face a "very serious threat" if Japanese fleets are allowed to fish the waters of northeast Pacific Coast which "have been cultivated and conserved" by all those interested in commercial salmon fishing in Canada.

"There is no safeguard now embodied in the Treaty which would prevent Japanese from intercepting the salmon runs on which our industry depends.

Their modern and highly technical methods of fishing—floating canneries and traps—could practically wipe out all our attempts to rehabilitate salmon runs.

"Either we have to share with the Japanese the fruits of our conservation work, and greatly reduce our income from the fishing industry, or we have to keep the Japanese out of the northeast Pacific waters."

Mr. Parkin asked council to support a statement of policy which included the following paragraph:

"That in the event of a failure to reach a mutual agreement on this important question (fisheries safeguards), Canada shall refuse to sign the Treaty."

E. T. Applewhite, MP for Skeena, who had been asked to the meeting for his opinion on the matter, said he agreed the situation was serious. He could "go along with" the last paragraph of the statement.

## Prince George Here Tomorrow

VANCOUVER—It was "in again, out again" Friday for Canadian National Steamships' palatial cruise liner Prince George.

The vessel arrived at 10 a.m. yesterday to complete 1951 summer voyage No. 6 which favored the bumper load of passengers with clear skies and fair sailing all along the way through scenic British Columbia and Alaskan waters on the 10-day trip.

Twelve hours later, at 10 p.m., reloaded with another capacity list of 260 passengers—and their baggage—from all parts of North America, the big ship left the CN dock for Skagway once more, with only one more trip to go to complete another record season.

Among prominent passengers on Prince George last night were Rex MacKenzie, well known Chicago attorney, and Mrs. Deny Friswold, of New York, editor and publisher of Public Relations News, which she started seven years ago and which, today, enjoys a healthy weekly circulation in many countries.

(The Prince George is due in Prince Rupert tomorrow morning.)

## Warns of Thumbing

VANCOUVER—Judge Mackenzie Matheson has given warning that parents who knowingly allow their young daughters to "thumb" rides on the streets may be subject to a charge of contributing to juvenile delinquency. Girls, he says, should be taught to realize what a terrible risk they are taking. He cited instances of sex crimes resulting from "pick-ups." Murders were mentioned. Among the cases cited was that of Blanche Fisher who was picked up in a car driven by Roger Ducharme who was hanged.

## Count Off To Brazil

MONTREAL (CP)—Count Jacques de Bernville, under sentence of death as a wartime collaborator in his native France ended five years of illegal residence in Canada yesterday when he headed for Brazil by air.

De Bernville bought only a one-way ticket and it is understood he went to Brazil in the hopes of finding permanent haven there as a political refugee.

Since 1948 he has been fighting against a Canadian government ruling that he be deported to France.

DENVER—Caught in a howling snowstorm, more than a hundred automobile tourists are awaiting a change of weather on the crest of Mount Evans, 14,260 feet above sea level.

## Tribe And Yanks Tie

Cleveland Loses and New York Wins to Make Leadership Deadlock

NEW YORK (CP)—The hapless Cleveland Indians, who seemed on the verge of emerging in front of the tight American League pennant race, have dropped into a tie with the New York Yankees.

The Indians were scalped in both ends of a doubleheader last night by the pesky Chicago White Sox, 7 to 1 and 8 to 3.

The world champion New York Yankees downed the Philadelphia Athletics 3 to 2 to move into a first-place deadlock.

The Sox belted Bob Feller for 10 hits in their opening game and then piled up a pair of three-run innings to defeat Cleveland 8 to 3 in the nightcap.

Meantime Boston Red Sox blasted across three runs with two out in the twelfth to defeat Washington Senators 7 to 4 and move within four games of the twin leaders.

Detroit Tigers weathered a ninth-inning uprising to edge out St. Louis Browns 5 to 4.

## NATIONAL LEAGUE

In the National League the circuit-leading Brooklyn Dodgers split a night doubleheader with Boston Braves, taking the opener 3 to 1 and dropping the after-piece 4 to 3.

The second place New York Giants ran up their string of victories to seven straight in hammering out an 8 to 5 triumph over the Philadelphia Phillies.

Mighty Stan Musial cracked open an one-all deadlock with his 28th homer of the season, enabling St. Louis Cardinals to split Cincinnati Reds 2 to 1.

Mel Queen hurled three-hit bill as the Pittsburgh Pirates trounced Chicago Cubs 8 to 3.

## Loggers to Work Overtime

But Operators Not Happy About Time Limit—To Catch Up on Timber

VANCOUVER (CP)—British Columbia loggers, represented by the International Woodworkers of America, with membership of 30,000, have agreed to work overtime when the forest closure ends but there are some reservations to the plan.

Union woodworkers will only work overtime where such action is justified and the time limit for overtime work will be October 31.

The International Woodworkers of America also reported that all overtime must be completely voluntary by the workers.

The operators sought an overtime agreement in order to stock pile logs and avoid a major slump in the industry this winter.

PRINCESS ELIZABETH DESIGN—This dinnerware pattern was designed in honor of Princess Elizabeth's visit to Canada. The dark green border is edged in gold, against an off-white background. Green tones of the border are used in the floral pattern.

## Drill Team At Edmonton

EDMONTON (CP)—Precision drill team of Job's Daughters from Prince Rupert, together with their big party of supporters, passed through Edmonton today to compete at the supreme session of the order on August 23 and 24 in Richmond, Virginia.

They won first and second prizes in the last two years in such competition. If they win again it will be the first time that any group has won the honors in three consecutive years.

The team is to perform at the Canadian National Exhibition at Toronto on the return trip to Prince Rupert.

## Hurricane In Jamaica

Gale in West Indies Declared "Dangerous"—Kingston Cut Off

MIAMI, Florida (CP)—Navy planes took off today to pick up the trail of a hurricane that, apparently, struck overnight at the Island of Jamaica in the West Indies.

Communication with Kingston, the capital of Jamaica, a city of 120,000, was lost last night when the airport and radio tower were evacuated.

All efforts since to learn how the city and outlying areas withstood the 120-mile-an-hour punch of the storm were fruitless.

"This is a dangerous hurricane," the weather bureau said.

## KINGSTON DAMAGED

A pilot radioed today that the hurricane raked Kingston during the night, sank several ships and caused a "great deal of damage" in the city. He said the airport was extensively damaged and airport facilities practically demolished.

The pilot circled the city but did not land owing to the condition of the airport.

## Friendly Informality At Parley in Kaesong

MUNSAN (CP)—The Allies and the Reds got down to brass tacks today as a four-man armistice committee met on the buffer zone issue in an atmosphere of friendly informality for the second straight time.

The talks were strictly off the record and no official report was made but a Kaesong dispatch said the four generals—two American, one North Korean and one Chinese—were seen huddled over a map.

Once more the sound of laughter coming from the conference room spurred hopes of progress.

## Europeans Look Towards Canada

LONDON (CP)—Prospective European immigrants by the thousands are looking eagerly toward Canada as a new home of freedom and opportunity. George M. Morrison, representing Canada's Department of Labor, reported today after a month's tour of the United Kingdom and continental countries.

The Canadian official said he had already dealt with more than 2000 applicants. They were primarily seeking employment in the engineering trades but many more without any special qualifications indicated desire to migrate to Canada to accept any type of work available.
