**To War on
Rats-Clean
City Dump**

An all-out war will be waged against an army of some 100,000 rats at Prince Rupert city dump, beginning immediately. An "intensive poisoning campaign" proposed by the city health unit received full support last night at the meeting of city council.

A letter to council from Dr. Duncan Black, medical health officer, cited the rat situation as "grave and dangerous" and advocated large scale poisoning. But Dr. Black also stated that poisoning was not the complete answer to extermination of the vermin and asked that some thought be given to incineration of the garbage.

The problem became coupled with another brought up by Ald. H. F. Glassey, who felt the city dump was a "disgrace" because of the "disorderly approaches" to the dump.

Ald. Don Fitch, public works committee, said his department already was planning a program to maintain the approaches in order. "Indiscriminate dumping" by private firms was the cause, he said. All trucking firms would be notified that dumping must be carried out according to provisions of the dumping bylaw.

By-Election Date**

Successor to Mayor George Rudderham To Be Chosen

City by-election for a new mayor, following the death of Mayor G. W. Rudderham last Monday, will be held September 13. Meanwhile, Ald. Harold S. Whalen, appointed at last night's council meeting, will be acting mayor.

An alderman on the board of works committee, he was elected by the council on a vote of 5-2. Other candidate was Ald. H. F. Glassey.

City Clerk R. W. Long advised council that upon approval of council announcement of election would be made August 30 and that nominations would be called for September 6, election day following six days later, according to the Municipal Act.

Ald. George Casey included in his motion of approval that any alderman seeking election as mayor resign his position as alderman in time for nominations to be called on nomination day, thus avoiding two by-elections.

Mr. Long was appointed by council as returning officer.

WATER BYLAW

Meanwhile, a proposed bylaw to raise \$75,000 for rehabilitation of the city water system was referred to the board of works for introduction at next meeting. Ald. George Casey thought it would be a good time to present it to the people at the coming by-election but council decided there would not be enough time to obtain approval from Victoria.

Council expects to present the money bylaw to the people at the December elections.

over 1,000 railway companies operating their lines in the USA. While we realize it would take a number of those lines to make up the CNR mileage, yet may we wonder how it would be if the CNR mileage was divided say into a dozen railway lines, with each company having as its president a real live railway man who would be out to get the people in and develop the country, to create traffic for his line, as Jim Hill did for the north-western States.
Yes, with this reorganization would St. John, N.B. Churchill and Brandon be the orphan ports of our country? Would the Transcontinental Railway be cut off from the west at Hearst? Would the GTP be operating a fish and passenger train on a three-trips per week schedule? And would the Canadian people be called on to raise from \$2,000,000 to \$42,000,000 per year to pay government railway deficits. Yes, may we wonder.
