## BORNITE KING RICH STRIKE

**Valuable Lead Discovered Last Week at Usk and Ore Exhibited Here.**

One of the most interesting samples of ore shown at the Exhibition is from a new strike made only last week. This is in the Usk section and is from the "Bornite King" property owned by Baxendale and Peters. They have been working on their property developing for the last two months and only a few days ago struck a six-foot lead of solid metal which carries 60 per cent copper. This property lies five hundred feet high on the Bornite mountain just above the "Old Quarry" group.  
 Another rich sample of gray copper also from the Usk district was shown a few days ago from the "Peerless" group which lies eighteen miles up Gold Creek. This showing consists of 100 per cent copper with traces of silver to the ton.  
 Usk is becoming a very busy place these days between mining, lumbering and eighteen cars a week are being shipped out. The Kitselas Mountain Copper have their concentrator on the ground now and most of the machinery is installed on the "Peerless" property. Every-thing points to Usk taking an important place among the mining centres of the province.

If the weather will allow the speed boat race is to be held this afternoon at 5. A number of boats are ready and it is expected there will be an exciting time.  
 Last night George Frizzell had his boat out for a trial spin and he is said to have made great headway against the wind. However the final test is the thing. The cranby boat is one that is keeping them all guessing and there are others in the going that may prove winners.

## ATTENDANCE AT FAIR WAS GOOD

**In Spite of Inclement Weather People Turned Out in Large Numbers.**

Yesterday there were 700 paid admissions to the sports and 9 to the exhibition building. This is nothing like as many as there would have been if the weather had been good, but it is a wonderfully good record considering the condition. In addition to the above there are the ticket holders, a record of which does not appear.

Taken on the whole people have patronized the fair well. The takings have been nearly as good as last year, and this under the extremely unfavorable conditions. Possibly the one outstanding feature that has been of more interest to the fair than anything else has been the mining exhibit. It is a splendid showing and will not only advertise the district well when it is sent on to New Westminster, but will also be a good permanent exhibit when it is returned to this city.

## AIYANSH BAND WINS THE PRIZE

**In Competition Yesterday is Adjudged Better of Two Entering.**

Yesterday afternoon the band competition took place in the Exhibition Hall with the two bands, Aiyansh and Greenville as contestants. Great interest was taken in the event and many gathered to hear the strains. The Greenville band was the first to take the stand and rendered the selection "Souvenir de Beethoven." The Aiyansh group offered a rather simpler production in the overture "Stradella" and received great applause for its efforts. The judges decided that the honors should be carried off by the Aiyansh.

The musicians who had the titling of the matter were J. S. Gray, of Smithers and formerly of this city, Dr. A. H. Bayne and Jim Peyton. The latter two men are both very well known here in musical circles.

This year certain summer conditions prevented the Terrace exhibit being as large as was expected it would be, but still it was the best showing at the fair. He is very enthusiastic in regard to the exhibition and is pleased at the orderly way in which everything has been conducted.

Word has been received by the cold storage company that a Japanese boat pulled left Haysport on Tuesday to fish outside, probably in the neighborhood of Porcher Island. ## RUPERT WINS BALL GAME

**Beats Anyox to Tune of 6 to 2 in Game Yesterday Afternoon.**

In the baseball game yesterday afternoon between the Anyox team and the local nine, the home boys were victorious to the tune of 6 to 2. Rupert got well away in the first innings and at the beginning of the fifth stood 5 to 1. A terrible state of affairs was saved here as there were three men on bases and Tinetti to bat. Frank knocked a nice little fly which was gobbled right up by the man tending the third sack and the whole side passed out. In the fifth, pitcher Daly for the smelter men knocked a clean home run over the rock pile which brought them up another point. However the Rupert boys were not to be kept back and they added another run before the finish.  
 Rupert—Dravis, Anderson, Day, Clementson, Tinetti, Hardy, Astoria, Menzie and Henning.
