Harry to Write on

U.S. President To Continue Correspondence With Russ

MOSCOW (CP)—President Truman's disclosure that he intends to continue his correspondence with Soviet President Nikolai M. Malenkov was received with interest here Friday.

The Russians are anxious to know how he will react to Shverdluk's proposals, especially since the United States Department of State has turned down the one five-power peace pact which would include Communist Russia.

Russians have made it clear that they consider a peace pact which would line up Americans, Frenchmen and Russians with the Communist Chinese as the heart of their proposal for easing world tension.

There is no doubt the Russians would like to have Truman suggest a meeting of the five powers, or if not that, a meeting of four powers.

Would Break Fight Cartel

Congressional Inquiry Into Time Boxing Proposed

WASHINGTON, D.C. (CP)—Two United States senators said Friday that they will introduce a resolution in the Senate Monday calling for a congressional inquiry into any monopolistic practices in professional boxing.

The two lawmakers—Harry P. Gold (Republican, Washington) and Herman Weljer (Republican, Idaho)—said the proposed inquiry would deal particularly with the International Boxing Board of which stages bouts at Madison Square Garden in New York and has outlets in Detroit and Chicago.

The two senators said that boxers not tied in with that group fail to get a chance at big-time fights. Both mentioned Harry Matthews of Seattle, light heavyweight contender, as an example but they said he is only one of many who could be cited.

Anti-Tank Shell, Platoon Radio and Arctic Vehicle

OTTAWA (CP)—The western allies have accepted as standard a new Canadian anti-tank shell that is the "last word" in armor-piercing destructiveness, Defence Minister Claxton said Friday. Production has already started.

Atlantic Pact countries also chose to accept as standard both a Canadian platoon wireless set and a Canadian Arctic cross-country vehicle, the minister said in running down a relatively brief list of arms and procedures on which these powers have managed to make standardization work.

Old Champion Rower Dies

VANCOUVER (CP)—Champion of the nineties, Robert Johnston, 83, internationally known sculler, died Thursday night at his home here.

Johnston had met world champions, including the famed Jake Gaudar in a 2500-yard match race here in 1898. Gaudar won but was pressed all the way.

Earlier Johnston had rowed against the United States champion, McDowell of Chicago, who was brought here from the English Diamond Sculls. He beat McDowell by 10 lengths over a 1½-mile course.

Canadian Women Open Golf Final

LAVAL-SUR-LE-LAC (CP)—Marlene Stewart, 108-pound and five foot tall piece of golf dynamite, blasted her way through the semi-finals of the Canadian ladies' open golf tournament Friday with a one-up victory over May Murray of Rutland, Vermont.

It was another sensational finish—this one at the 18th green—for the courageous 17-year-old girl from Fonthill, Ontario.

Excitement over her victory overshadowed the steady four and two win by cool, 23-year-old Grace Lenczyk of Hartford, Connecticut, over Mrs. Peter Patch of Montreal.

Little Miss Stewart will meet Miss Lenczyk, twice Canadian women's open golf champion, in the 36-hole final today.

Sharp Words At Cease Fire Talks

Yanks Win In Tennis

MONTREAL (CP)—The Americans—Budge Patty and Tony Trabert—swept their United States doubles team into the inter-zone final against Sweden today, eliminating Canada's Brendan Macken and Henri Rochon, 6-4, 6-3, 6-2.

The United States tennis stars showed no mercy Friday as they raced through Canada's best in straight sets to take the 2 to 0 match lead in the singles.

Husky Tony Trabert, 20-year-old sensation from Cincinnati, zipped through Lorne Main of Vancouver 6-1, 6-2, 6-3 in the opening singles while Big Dick Savitt, Wimbledon and Australian champ from Orange, New Jersey, breezed past veteran Brendan Bracken of Montreal 6-3, 6-1, 6-1.

Such was the prelude to the win of Trabert and Budge Patty of Los Angeles over Macken and Henri Rochon of Montreal in today's double match.

Pleven Forms New Cabinet

PARIS (CP)—Premier Rene Pleven formed a new coalition cabinet early Saturday. It is one of the most conservative governments France has had since the war.

Pleven's successful coalition effort marked the end of a month-old government crisis.

Former Premier Henri Queuille resigned July 10 in a formality paving the way for a new post-election cabinet.

Pleven was the eighth candidate to undertake the formation of a cabinet. All the others failed.

Air Passengers

To Vancouver (today)—J. N. Ewart, Mrs. Ewart and child, B. F. Jordan, D. F. Miller, P. Maslanki, Mrs. T. King, V. Miller, C. F. Sargeant, B. Larson, G. R. Heffernan, W. A. Crouse, Mrs. G. Roberts.

To Sandspit (today) — Mrs. Fairburn.

From Vancouver (Friday) — A. McLean, S. McLean, S. Doiron, F. Johnson, V. Davidson, R. McKillar, N. Mark, M. Bussey, A. Baardsen, M. Hull, C. Robinson, D. Englestead.

Frank Waterhouse freighter Chilliwack is due in port toward the end of next week with general cargo. The vessel is sailing Monday from Vancouver.

Fur Flies At Hearing

COURTENAY.—Fur flew at the wind-up of the Buttle Lake public hearings here Friday. T. G. Norris, KC, counsel for the conservationists, charged S. R. Weston, chairman of the British Columbia Power Commission, should have been on hand, and H. W. Davey, counsel for the dam proposers, said Mr. Weston was a busy man and those present had no idea what "commitments" he had.

Mr. Norris charged: "Mr. Weston is head of this Power Commission. He has made statements right and left. He has carried on propaganda on this matter as far as Williams Lake. And now he isn't here at the crucial time when he should be here." He said Mr. Weston should be here at these hearings to justify the position of the Power Commission.

The Power Commission's original statement that only about 25 million feet of timber would have to be removed from the park was refuted by a "long-time" forest engineer.

After taking the oath, Tom Clarke stated he had been in forestry work for 30 years. He knew forests in every part of British Columbia and he had made a timber cruise at Buttle Lake last month.

His totals present were: 1699 acres of merchantable timber in the flood area; average feet board measure per acre in the flood area, 57,000; total f.m.b. in flood area, 96,075,000.

He said a strip of 32 miles of merchantable timber would be subject to flood, with an average width of 435 feet. Although the Power Commission brief of April 12, 1951, stated the strip to be flooded would be "around 25 feet except on the flats at a few stream mouths," Mr. Clarke claimed: "The contour map on which the above figures in my summary are based indicates that the average strip width is greater than this, even on the slopes."

"The flats will be flooded anywhere up to a half mile in width and, in the case of Price Creek, upstream for two miles. Certainly the best and finest timber would be affected by flooding and most of the choice recreational spots wiped out."

Buttle Lake, the forester's report continued, "was the original inspiration for the creation of Strathcona Park and from the outset nearly three-quarters of a million dollars have been spent in development and preservation."

"The lake is described as beautiful in an attractive mountain setting. Its timbered shoreline drops off more or less steeply into the lake with gravel beaches at several of the river and creek deltas. There are bays and coves for shelter from occasional rough waters. Fishing is said to be good."

Interest in these hearings mounted as counsel kept referring to evidence "to be presented in Victoria on Monday." Nobody knows just who is to be called, or what is to be said, but T. G. Norris said one witness he will recall is Roderick Haig-Brown, and everyone interested in fishing or literature is wondering what else the angler-writer has to say.

New Rifle Is Shown

British Weapon Unveiled As Competitor of United States Garand

WESTMINSTER, England (CP)—Britain yesterday unveiled her new fast-firing 280-calibre rifle, a stockless weapon that looks like a sub-machine gun.

About 200 military attaches saw the demonstration aimed at convincing western military men that the rifle is what Defence Minister Emmanuel Shinwell says it is—the best weapon of its kind in the world.

Not all were convinced, especially Americans who, with Canada, have adopted the .300 calibre Garand.

Tests by expert riflemen proved the new gun can be fired faster than the Garand or the old British 303 but lacks their penetrating and shocking power.

Parley on Near East is Sought

GENEVA (CP)—The United Nations Palestine Commission has invited representatives of Israel and Arab states to meet the commission in Paris September 10 in a new effort to reach a solution of the Palestine dispute. Egypt, Jordan, Lebanon, Syria and Israel were invited.

Communists Are Bombed

UNITED NATIONS HEADQUARTERS IN KOREA (CP)—United States bombers today blasted Communist supplies stored near the Red-held Hungnam on the east coast of North Korea. Planes rained more than two thousand bombs on targets and encountered little anti-aircraft fire.

Motherwell 6, Stirling Albion 4.
Partick Thistle 4, Hibernian 2.
St. Mirren 2, Dundee 2.

WEATHER

Synopsis

Generally unsettled conditions characterize the weather picture over the province. Thunderstorms, which started in the interior yesterday afternoon, continued through the night as somewhat cooler and more moist Pacific air crossed the coastal mountains. Skies are mostly cloudy on the coast and a little rain has fallen over northern Vancouver Island.

A high level disturbance which has caused this weather is drifting slowly southward into the central parts of the province and it seems likely that the unsettled weather will continue with quite frequent shower activity through much of the interior.

It is likely, however, that the main effect of the disturbance will be felt in the interior and that no appreciable rainfall will occur along the coast. Temperatures will be a little cooler in most regions both today and Sunday.

Forecast

North Coast Region — Cloudy with sunny intervals today and Sunday. Occasional light rain along northern Vancouver Island and the eastern Charlottes. Little change in temperature. Winds northwest (15) reaching 25 in southwestern waters today. Lows tonight and highs tomorrow—At Port Hardy, 50 and 65; Sandspit, 55 and 68; Prince Rupert, 50 and 68.

Liquor Board Chief Passes

William F. Kennedy Dies After Stroke

VICTORIA (CP)—William F. Kennedy, 63, British Columbia Liquor Commissioner, died late last night following a paralytic stroke.

Starting as a cow hand on the famous Goldstream Ranch, he later entered the lumbering business. He was prominent in Vernon as school trustee, alderman, president of the Board of Trade and Athletic Association.

In a by-election in 1927 he was elected Conservative member for North Okanagan in the Legislature and was re-elected in the 1928 election. However, he resigned in 1930 to join the then three-man liquor board.

Communists Come Over

Reds Unhappy About Mass Migration Into West Berlin

BERLIN (CP)—Tens of thousands of Communist Blue Shirts straggled from East Berlin's World Youth Festival into West Berlin as sight-seers Friday and boosted the total of such visitors during the week to 250,000.

Kod leaders did not like it. Youths defied Communist orders in surrendering to the temptation to see how the West does things.

A young girl was bitterly attacked in East Berlin for her trip. She fled back to the west and tried to commit suicide by slashing her wrists. She was removed to a West Berlin hospital and was promised haven as a political refugee.

FDR'S Intimate Taken by Death

WASHINGTON (CP)—Stephen T. Early, aged 61, press secretary and intimate of the late President Franklin D. Roosevelt, died today.

Chief United Nations Delegate Outspoken

Another Session Ends at Kaesong With No Sign of Agreement

MUNSAN, Korea (CP)—Communist negotiators today "brusquely rebuffed" another United Nations attempt to find some area of agreement on the cease-fire line in the deadlocked military armistice talks at Kaesong.

The opposing sides wrangled for two hours and 20 minutes. Their only agreement was to resume the critical discussions tomorrow.

Vice-Admiral C. Turner Joy told the Communists in strong terms that they had "slammed the door on every attempt to make progress."

Joy aimed his words directly at Lt. Gen. Nam Il, chief Red delegate, for his inflexible stand on the 38th parallel as the only line acceptable to the Reds.

"You did not come here to stop the fighting," Joy declared. "You did not come here to negotiate an armistice. You came here to state your price—your political price for which you are willing to sell the people of Korea temporary respite from pain."

"You have engaged in these conferences only to present demands, not to negotiate a solution."

When Nam Il left at the end of the day's session, observers said he was "apparently angry."

Eight Die in Train Crash

SIMMESPORT, Louisiana (CP)—A marine troop train and a Kansas City streamliner crashed head-on and burned near here Friday.

Kansas City Southern officials put the toll at eight dead and one missing.

Railroad officials said the troop train crew, for some unknown reason, ignored an order to put the train on a side track to allow the streamlined Southern Belle to pass on the main track.

Yanks-Indians Still in Tie

NEW YORK (CP)—Clutch-hitting by Johnny Mize and Al Rosen enabled New York Yankees and Cleveland Indians to remain in a first place tie in the American League pennant race Friday night.

Mize drove home two runs on a home run and fly ball to lead the Yanks to a 3 to 1 victory over the Philadelphia Athletics.

Rosen climaxed a four-run seventh-inning rally with a two-run homer which gave the Indians a 6 to 4 victory over the fourth place Chicago White Sox.

The third place Boston Red Sox remained 4½ games back of the co-leaders by downing Washington Senators 6 to 4.

In the other American League game Ned Garver turned in his 14th pitching triumph for St. Louis Browns over the Detroit Tigers 4 to 2. His batting also helped to spike the Tigers' debut under their new manager, Charlie Gehringer.

Relief Train Is Dispatched

SUDBURY, Ont. (CP)—A special train was dispatched from here Friday to pick up passengers stranded aboard a Toronto-bound Canadian Pacific Railway train at Benny, 42 miles northwest of here.

A transcontinental passenger train was delayed when a 43-car freight was derailed Thursday night, blocking the main line and cutting off communications between east and west.
