

10 YEARS OF PROGRESS—British Columbia is entering a new era in industrial greatness, and a glance back to the decade 1940-50 gives an idea of the momentum behind her present growth. This graph illustrates expansion in her industries in that time: forestry products, more than doubled; fishing more than trebled; agriculture, up two and one-half times; mining almost doubled; retail sales, quadrupled; construction, up nearly five times; manufacturing, more than trebled. Electrical output also is way up, and population is on the march. (CP PHOTO)

B.C. GROWS UP—A trappers' and prospectors' paradise at the turn of the century, British Columbia has become a vast industrial empire which seems only now to be striking its real growth, with Prince Rupert as a central point. This map shows the rich fishing grounds of the Pacific Coast, the rich agricultural lands up through the interior, the industrial empire around the coast, and the expanding forest industries, particularly pulp and paper. Offensive Mid-July?

TOKYO — The Reds today began pulling out one build-up area in Korea, pouring fresh men and supplies into another centre for a new try at cracking Allied lines. United Nations officers were not worried. The U.N. officers predicted that Chinese Reds would strike during the second week in July, probably down the Uijongby-Soul invasion corridor. There was no change in repeatedly-expressed Allied attitude that United Nations ground forces can handle anything the Chinese can throw at them. Lt-Gen. James Van Fleet, United Nations ground commander, has reiterated this view time and again since the Reds two spring offensives were shattered and has openly invited the Chinese to try again.

Ocean Falls Ship Killing

OCEAN FALLS — A ship's cook from a freighter loading paper at this port, was stabbed to death Monday with an eight-inch galley knife and a charge of murder was lodged later against another cook aboard the same vessel.

The Royal Canadian Mounted Police identified the dead man as Sidney Ferguson, aged 40, second cook aboard the American freighter Washington.

Charged with murder was Winfred Stansell Young, aged 43, first cook from Tacoma, Washington.

Police said the slaying was the result of an argument between the two men.

Crew members told officers of hearing an argument in the galley and then of seeing Ferguson run from the galley with blood gushing from his chest.

The vessel is being held here for an indefinite period, police said.

The Washington was due to have left yesterday.

Clarification—What Does Malik Mean?

United Nations Consider Proposal

UNITED NATIONS (CP)—The West pressed Moscow today to spell out what Jakob Malik meant by the Russian proposal for a "cease fire."

Acting on Washington's instructions, the United States ambassador, Alan G. Kirk, called on Andrei Gromyko, deputy Soviet foreign minister in Moscow.

They talked for 20 minutes and Moscow dispatches said clarification of Malik's suggestion was expected by the end of this week.

Secretary of State Dean Acheson said the United States had not learned the intentions behind the Malik proposal "but we hope today will bring further light." At the time he made this comment in Washington, Acheson evidently had not received Kirk's report on his meeting with Gromyko.

Malik, Soviet delegate to the United Nations, proposed Saturday that the "belligerents" in Korea open talks about the cease-fire, coupled with mutual withdrawal of forces from the 38th parallel.

The West wanted to know, among other things, what "belligerents" the Soviet Union considered involved and what guarantees would be given against reopening the fighting if a truce was declared.

United Nations Secretary-General Trygve Lie returned to New York from Norway, reiterating that he is "always hopeful." He called his United Nations aides into conference and planned later to see Nasrallah Entezam of Iran, president of the General Assembly.

There was no indication that Entezam had been able to see Malik, reported ill since Saturday.

Atom Bombs For Canada

OTTAWA — Defence Minister Claxton said Monday that the Russians may have 25 atomic bombs or more and there are two main routes across Canada for air attacks if war comes.

Canada has about seven targets which might invite use of one of those bombs.

Those were among the facts he marshalled in an address to the Ottawa Kiwanis Club to back his statement that, even if something comes of Russia's Korean peace overtures, Canada must not slacken defence efforts.

If war came there would likely be air and submarine attacks on Canada.

There were two likely avenues of air approach. The first might be from the northwest, from Siberia, swinging across Alaska to east of the Rockies into industrial centres of west coast cities. The second approach might be from northern Europe across Iceland, the tip of Greenland and Labrador, the Gulf of St. Lawrence and down to industrial centres.

Brooklyn Is Beaten

NEW YORK (CP)—Sal the Barber stalled Brooklyn's pennant drive Monday as he pitched the runner-up New York Giants to a 4-to-0 three-hit triumph over the Dodgers before 45,762 fans at the Polo Grounds.

The victory sliced Brooklyn's lead to five games and brought to an end Preacher Roe's ten-game winning streak.

Maglie blanked the Dodgers on three hits in gaining his 12th victory, top harvest in the majors.

Meanwhile, Chicago White Sox stretched their American League lead to two games, trouncing the Detroit Tigers 11 to 3 while the runner-up New York Yankees were upset 7 to 3 by the Washington Senators.
