## Prince Rupert is Well Represented.

Prince Rupert is well represented in the inner councils of the Liberal party. Yesterday a despatch was received from Vancouver which stated that F. G. Dawson of this city had been appointed a member of the National Council. That is an important position, as he represents the whole of the northern and central portion of the province. From time to time it will be his duty to proceed to Ottawa and confer with W. L. Mackenzie King and the other members of the Council on matters of policy and procedure.

It is a good thing for this city to have a live man in a position of that kind. Mr. Dawson has been here as long as there has been a semblance of a city, and he knows the whole district well. He is fully acquainted with our needs and aspirations. Members of the Liberal party will feel that their affairs are safe in his hands, and those whose sympathies have not in the past been with that party and possibly still are not, will be glad to know that the general interests of Prince Rupert and the northern and central districts are being well looked after.

Mr. Dawson was formerly the owner of the Daily News, but is now free from journalistic entanglements.

## Prince Rupert is Free From Fires.

Prince Rupert is very free from fires. Last month there was not one, as was shown by the report of the fire chief to the City Council. In spite of its freedom from conflagrations the city has to pay high rates of insurance. This it seems is because of the character of the buildings. There are too few fire-breaks in the business section.

If the city could be given an assurance that a substantial reduction would be made in the rates it would pay to build a few fire walls here and there in the city. At any rate the owners of property should be encouraged to erect substantial buildings that would act as fire breaks and at the same time be a credit to the city. The Royal Bank building and the Killas building are models of what should be done and their presence has already had a considerable effect in lowering the insurance rates in their immediate neighborhood.

## Great Lack of School Facilities.

A rearrangement of classes has taken place and also a change of seats at the Methodist Church, resulting in better conditions for the pupils attending. There are now 23 pupils at the Methodist Church basement and 38 in the room in the Hays Block. These rooms are the best available but there will be another room needed by Christmas and more before the next summer holidays. While the owners have done the city a service in allowing their rooms to be used, yet the rooms were not built for public school rooms and it is not pretended that they are suited for the purpose.

What it is necessary to remember is that more provision will yet have to be made for the pupils of the schools before the new school can possibly be ready, and all the time the pupils and teachers are suffering from lack of facilities.
