New Cease Fire Hope

WASHINGTON, D.C. (CP)—A Senate committee, inquiring into the ouster of General Douglas MacArthur, voted 20 to 3 today against making any report on its two months of hearings.

Individual members of the committee will be permitted to express their views.

MUNSAN (CP)—There were no new developments today at the Korean cease-fire talks but it was hoped that, as a result of the deliberations of a sub-committee, agreement might be reached on the buffer zone issue.

When the committee members adjourned Thursday, United Nations and Communist delegates posed together for the first time. Major General Harry Hodges of the United States put his arm around Major General Lee Sang Cho of North Korea.

The other two delegates also appeared to be in good spirits. It was a complete reversal of cold formality which featured previous meetings.
