CARRIER DOVE TAKES MILLION FEET LUMBER

Sailed for Australia From Masset;
Residents of Island Bid Adieu
to Charles Harrison.

The fishing industries at Lan-
gara Island have closed down af-
ter a successful fishing season.
After four months of trolling for
spring and coho salmon the run
is practically over. About one
hundred and fifty gasoline laun-
ches were engaged in Hecate
Straits.

Rafting and milling spruce at
Buckley Bay has been discon-
tinued until the beginning of the
coming year. All of the logging
crews and many residents of
Buckley are now away from the
islands enjoying a well-earned
vacation.

The four-masted schooner
Carrier Dove sailed for Adelaide,
Australia, on the 25th instant,
carrying one million feet of
spruce. The large vessel sailed
direct from Masset and was towed
out of the inlet by the tug Lorne.
The shipment was cut and loaded
by the owners of the sawmill at
Sewell.

All of the residents of New
Masset assembled in the school
house on the evening of the 26th
instant to bid farewell to the pio-
neer resident of the Islands,
Charles Harrison, J. P., who left
for England on the last steamer.
After a farewell address delivered
in feeling terms by James Martin,
and the reading of a letter ex-
pressing the good wishes of the
residents of the island by the In-
dian agent, the congregation
joined in singing "Auld Lang
Syne." Mr. Harrison replied by
thanking the people for their ex-
pression of good will and prom-
ised to again visit his adopted
home, where he spent almost
forty years. Dancing and sing-
ing were indulged in until the
small hours of the morning, when
all joined in "God Save the King"
and three cheers for the "Grand
Old Man of the Queen Charlotte
Islands."

Messrs. Harlon J. Smith and W.
Patch, respectively archaeologist
and naturalist of the Dominion
Government, were passengers on
the Prince Albert, bound for Ot-
tawa after spending three months
on the Queen Charlotte Islands
collecting specimens of the an-
cient work of the Haida Indians and
game birds. Mr. Patch obtained
forty specimens of different spe-
cies of birds, while Mr. Smith
shipped out a large consignment
of specimens collected at Masset
and other parts of the islands.

QUEEN CHARLOTTE ISLANDS

Editor News:—It is about time
someone boasted the islands a few
miles from Prince Rupert. With
the healthiest and best summer
resort in the world at your very
doors, how many people realize
that we have waters where tol-
lers are making a good living
com spending a few months' va-
cation in their gasoline launches?
How many residents of Prince
Rupert visited the beaches,
streams, camping and bathing
places that are within eight hours
of the terminus of a transconti-
nental railway—bringing tourists
from the heated cities of the east?
Are your people aware that
vicious wild animals, snakes and
other destructive animals do not
exist on the islands across Hecate
Straits? Are they aware that
there is no healthier place in the
world for children than these is-
lands? Yet, ten years ago, we had
fortnightly communication with
Prince Rupert, and we have the
same space between visits of
steamers today. No wonder peo-
ple will not locate in places where
they cannot get in communica-
tion by mail with their friends
outside, or live in isolation sim-
ply because the world does not
know Prince Rupert has so many
places tributary where the mil-
lions of Europe could find peace
and comfort for the remainder of
their days.

Where the Indians build good
houses; own gasoline launch-
es and live on the produce of the
sea and land, the progressive
whites, looking for homes, should
raise their eyes and look at the
prospect before them on the ever-
green islands within a few hours'
sail of Prince Rupert.—T. D.

Does Thee Know This?

Perhaps thee
knows little of Qua-
ker Jam, and also
perhaps thee cares
little about knowing
more.

But if thee should
want to know more
the things that go to
the stomach we shall
be glad to have thee
read these little
notes.
