

BULLETINS

COMMUNISTS IN KAESONG

U.S. EIGHTH ARMY HEADQUARTERS IN AREA.—Communist troops and tanks were reported to be in Kaesong, the site of the pending Korea truce talks as Chinese Reds stepped up probing ground attacks on western and central fronts. United Nations command learned from a reliable source that major elements of a Chinese division remained in Kaesong after the truce was agreed to make the city a neutral area July 27. Red tanks are reported moving into Kaesong. Presence of such forces in Kaesong constitutes a violation of the neutral zone. Communist propaganda broadcasts tonight hinted that the Communists may be willing to change the site of the truce talks from Kaesong as proposed by Gen. MacArthur.

UNDER EXAMINATION

LONDON.—The King underwent an apparently searching 90-minute X-ray examination by London specialist today and then flew back to Scotland to continue his vacation. There was no immediate indication of results of the examination which had been recommended by two of his physicians who flew north last week-end to give him a check-up after he had complained of a cold.

PRIMATE OF CANADA

VICTORIA.—Rt. Rev. Walter Foster Barfoot, known as the Croix de Guerre as an infantry captain in World War I, was Friday night installed as primate of the Church of England in Canada. The 67-year-old Bishop of Edmonton, who automatically became archbishop after his installation, was elected to the church's highest office by the electoral college of the Anglican General Synod, sitting in Christ Church Cathedral here. The new primate, who became third Bishop of Edmonton in 1944, is a native of Collingwood, Ontario. (Archbishop Foot is no stranger in Prince Rupert. Some years ago he relieved for a while at St. Andrew's Cathedral here.)

Boards Are Set

Associated Boards of Trade of Central British Columbia is renewing its representations to the authorities seeking the survey of suitable camp sites along Highway 16 at intervals of not more than 100 miles for the benefit of tourists, travellers and sportsmen.

Camp Sites on Highway Sought

The proposal is that access to such camp sites from the highway should be given and the sites cleared. Once the sites were prepared, provision would be made to keep them tidy. They should, however, be in competition with private enterprise.

The Fishermen's Union vessel, Chiquitta III, arrived in port yesterday with Ted Foort and George Tuller in charge. Following a short refitting at the drydock, Chiquitta will proceed to Queen Charlotte Islands with T. E. Parkin secretary of the AFAWU local here, for an organization tour.

MEDITERRANEAN DEFENCE

Agreement between the Atlantic Treaty States on the Mediterranean Command problems is expected within a few weeks. These problems arise from the different aspects of American and British interests in the Mediterranean. Seen from America, the Mediterranean is the gateway to the North Atlantic, and, as such, a strategic part of North American defence—calling for American bases on the flank of Western Europe and North-West Africa. Viewed from Britain the Mediterranean is the main Commonwealth artery. The new defence allow for an extension of Admiral Carney's N.A.T.O. command (3) to include American forces operating anywhere in the Mediterranean. They provide for the maintenance of a British sea frontier and British command at Gibraltar (2), who will serve also under N.A.T.O., and for the establishment of a Near East command (4) under a British admiral who will be supreme command of the British supply route between Gibraltar and Suez.

Japanese Peace Treaty Signed Today at 'Frisco

Old Country FOOTBALL

ENGLISH LEAGUE First Division

Aston Villa 1, Arsenal 0.

Stirling Albion 2, Dundee 2 (tie).
Third Lanark 4, Airdrieonians 0.

Executive Vacancy Can Now be Filled

Against the event of a vacancy on the executive of the Associated Boards of Trade of Central British Columbia occurring between conventions, this year's convention passed a resolution providing for the expeditious filling of same.

The convention nominating committee will submit nominations to the executive, with further nominations being permissible from two member boards. Ballots would then be transmitted to the member boards and election would be by majority vote.

The most of last year the Associated Boards had no vice-president in view of the choice of the 1950 convention having moved from the district. There was no machinery to elect a successor.

Increase in Wire Tolls Requested

OTTAWA — The two telegraph companies doing business in Canada have applied for permission to increase rates. Increase of 10 cents on the basic full rate telegram of ten words with varying increases for other rates of service is requested. There would be no increase in press rates.

MP Means Democracy

What good is an MP? E. T. Applewhite, MP for Skeena, told Rotarians at luncheon yesterday that the main difference between having an MP and not having one was the difference between democracy and a dictatorship.

Furthermore, it was the duty of an MP to heed the problems of the people he represented in Parliament—the citizens of his own riding.

Mr. Applewhite pointed out to Rotarians that the best way this could be accomplished was by citizens writing letters to their MP. One member, he said, received annually 8000 letters from his riding.

Would Turn Over Phones

The present "hopelessly inadequate" telephone service—both long distance and internal—in view of the tremendous expansion of industry and population in all communities in Central British Columbia motivated the Associated Boards of Trade of Central British Columbia yesterday to pass another emphatic resolution on the subject.

The resolution urges the federal government to investigate the whole situation with a view to immediate installation of adequate telephone facilities and services in all such communities or, otherwise, transfer the service to competent and experienced operators.

(The territory is now served by the Dominion Government Telephone Service).

R. A. Robinson of Burns Lake referred in particular to the unsatisfactory service into the Babine country to the north of Burns Lake and the Francois and Ootsa Lake country to the south. And the internal situation in the town of Burns Lake itself was bad. There were as many as six connections on one party line.

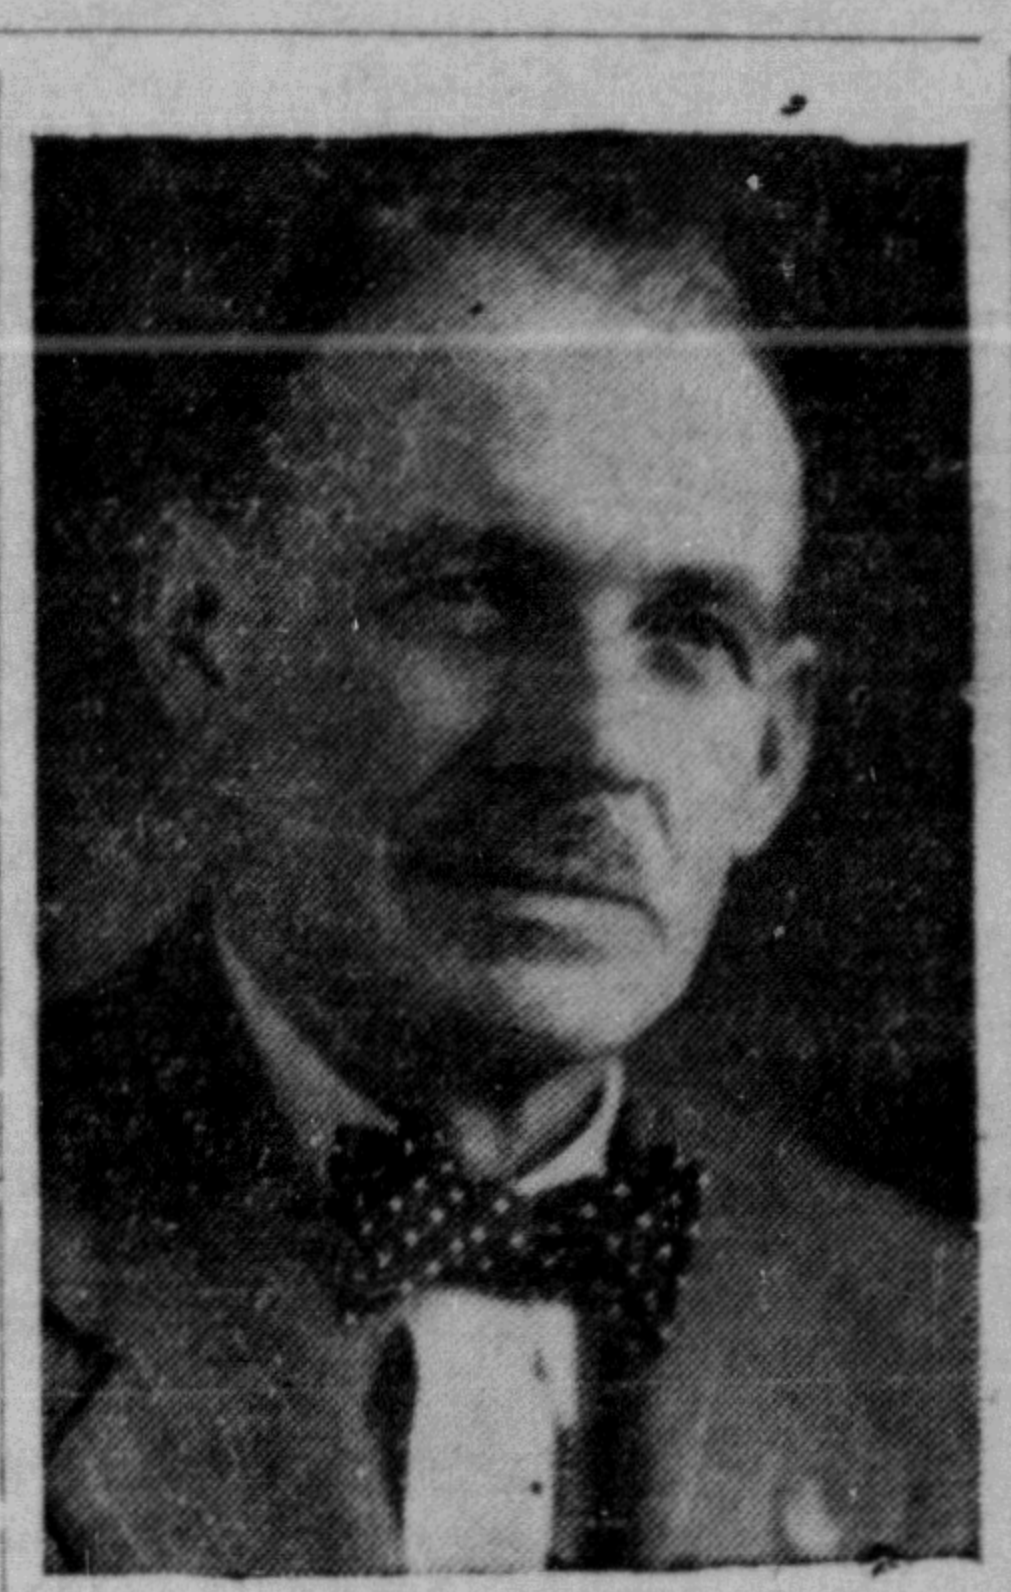

E. T. Applewhite MP, agreed that the strongest possible resolution should be passed.

New Bridge is Again Sought

Fort Fraser and District Board of Trade was backed up by the Associated Boards of Central British Columbia yesterday in renewing a request, made last year, that the minister of public works give most serious consideration to the matter of construction of a new bridge across the Nechako River at Fort Fraser.

The preamble of the resolution held that, while some temporary repairs had been made to the bridge during the year, it was still limited to a load of ten tons which was obviously inadequate for present day traffic including heavy machinery for the Alcan project and for land clearing and public freight trucks and buses. In the event of bridge failure 100 or so vehicles using the road daily would be tied up with a small ferry the only alternative.

The resolution deplored "the fact that we must wait for an accident, possibly with fatalities, to expedite the construction of a new bridge."

HON. E. C. CARSON—Minister of Public Works to visit district this month.

Minister Is Coming

Hon. E. C. Carson, minister of public works, will visit Prince Rupert September 23 and 24, according to word received by W. W. Wright, Progressive-Conservative organizer, who has been in the district for some time.

Mr. Carson is bringing a car with him and, with Mr. Wright, will spend eight days visiting various parts of the central interior country between here and Prince George.

Among other bodies, Mr. Carson is desirous of meeting with Boards of Trade in the various communities.

Bank Robbery At Saskatoon

SASKATOON.—The Nutana branch of the Royal Bank of Canada was held up early Friday afternoon by two Vancouver men who were arrested shortly after the attempt became known. The armed bandits, with silk stockings serving as masks, were actually in the bank little more than three minutes when police and citizens were at the scene.

A camera, belonging to a reporter was smashed by one of the gunmen when he gave the instrument a swift kick.

Nutana is across the Saskatchewan River from Saskatoon. All money taken by the bandits was recovered. It amounted to more than \$12,000.

About an hour after the hold-up, police arrested John F. Hunter, aged 30, and Carl Berick, 37, who told the police that they had arrived in Saskatoon the day previous.

Dirk, an RCMP dog, flushed the men from the bushes on the east bank of the South Saskatchewan River within the city limits. They had fled in a stolen car.

No-Hit, No-Run Game by Hacker

SEATTLE — Righthander Warren Hacker pitched a no-hit no-run game Friday night as Los Angeles blanked the 1951 Pacific Coast League champions, Seattle Rainiers, 4 to 0.

Expert Goes To Mexico

CANBERRA, Australia.—Prospect of a motorcyclist being killed in Australia is nearly 20 to one greater than that of a car driver. Last year 424 motorcyclists, compared with 269 car drivers were killed—although motor cycles are outnumbered 10 to 1 by other vehicles.

Forty-Nine Nations Sign as Russia Washes Hands of Peace Pact

Russian Retaliation Foreseen Although Attlee Does Not Expect War

SAN FRANCISCO (CP)—Forty-nine nations signed the Japanese peace treaty today after Soviet delegate Andrei Gromyko washed his hands of the treaty and the San Francisco conference.

As names began to go down on the peace treaty, members of the American delegation said that a security pact between United States and Japan would be signed later today or tomorrow. Supplementing the peace pact, this will specifically authorize the United States to keep troops in Japan indefinitely.

Argentine's ambassador Hipolito Jesus Paz, envoy to Washington, was the first to march up to the table in San Francisco's Opera House and, in behalf of his country, put his name to the treaty.

Prior to the start of today's signing ceremony, Gromyko held a press conference at which he stuck to his theme that the treaty is a "draft for a new war."

Gromyko also said that his government "disassociated itself" with the Japanese peace conference.

"The Soviet Union would fall in its duties" if it supported the American-British drafted treaty, he said.

The Russian said he was "issuing a warning that those who impose the peace treaty here on Japan must stand responsible for it before the eyes of the world."

Russia's failure to sign the treaty will leave here still in a state of war with Japan and her future relations with Japan in turmoil.

After the press conference the Russian delegates got into their automobiles and drove away from the scene.

Denounced in Moscow

The Russian press today pulled out all stops in denouncing the Japanese peace treaty.

Newspapers lashed out at the United States and Great Britain, chief architects of the pact, and accused the two western nations of "high-handed" action at San Francisco.

Foreign observers said today that the wrathful press indicates that the Russians will retaliate but what form the expected retaliation will take is unknown.

Attlee Sees No War

In London Prime Minister Attlee said today that he does not believe Russia is planning war.

"But you must have an adequate force because wars are not always brought about by scoundrels like Hitler," he added.

"They are sometimes brought about by blazing fools like the Kaiser."

Yesterday Russia's Gromyko called the Japanese peace treaty a "draft for a new war."

Speaking at the press conference, the chief Soviet delegate said Japan was being converted into an "American military base."

"The purpose of the treaty," he said, "is to stage American troops there (in Japan)," he said.

Gromyko said the United States was setting up an aggressor coalition "under the leadership of that seasoned warmonger," John Foster Dulles.

Must Change Our Thinking

We must change our way of thinking. In an address to delegates to the annual convention of Central B.C. Associated Boards of Trade, E. T. Applewhite, MP for Skeena, said this area "has suddenly reached maturity" and the people must face that fact.

"We have to begin thinking along lines commensurate with present-day circumstances. If you want to live a nice, easy way of life—well, that's up to you. But if you want to get in step with development, you'll have to change that cozy course of living which you've had here so long."

The Member of Parliament urged and admonished that the communities now involved in the industrial expansion of the province must act along bigger lines and not carry on as pioneering communities any more.

"And I respectfully suggest that all of us change our way of thinking before we are left behind" in the expansion era.

Randolph Hearst-Marion Davies

LOS ANGELES.—Special administrators of the estate of William Randolph Hearst declare that a supposed agreement giving the late publisher's longtime friend, Marion Davies, voting control of his many enterprises "has no more effect than if it had never existed."

Miss Davies, who stepped from a convent to the New York stage as a dancing beauty in 1916, had been the publisher's confidante.

The Hearst family consist of the widow and five sons.

Hearst had not lived with his wife for many years.

Freedom Sons Now Stay Put

VICTORIA.—Attorney General Wismer stated Friday that, until there is more of a united feeling among the people of the province regarding the Sons of Freedom and the proposed move from the Columbia River to Adams Lake, there will be no change for the present. Mr. Wismer desired more of an open mind on the subject.
