## The Great "Ex"

WARRIOR'S DAY—Brilliant weather brought a record crowd of 274,500 and unprecedented jams to the Canadian National Exhibition on Warrrior's Day. This aerial photo shows the parade of 16,000 servicemen and veterans trooping past the grandstand, right. The was taken by Gen. George C. Marshall, U.S. defence secretary. (CP PHOTO)

## Mayor's Seat Contested Two Aldermen Resign

ALD. H. F. GLASSEY CANDIDATE

Possibly three but definitely two candidates to now placed themselves in the race for the mayoralty by-election September 13, and two aldermanic seats have been vacated.

H. F. Glassey announced that he will be candidate for the seat, and has resigned as an alderman.

Douglas Frizzell, on holiday leave from his position as City Clerk R. W. Frizzell, has intended resignation, but has not stated whether or not he will be running for mayor.

Young, city business manager, announced Monday he will be running for the mayoralty office. He said today he is running independently but is a member of the city council and has no personal interest in the tax payers' money.

Young seeks the support of the voters and I am strongly in favour of the independent government," he said.

Young would have served on the council by-election. He is a long-time resident of the city and currently commissioner for the city district, and operates a business. He also is a magistrate. Young is due back in the city on Monday.

## Special Session To Review Pension Scheme

VICTORIA (CP)—Special session of the British Columbia Legislature will be called on November 6 to deal with old age pension legislation, Premier Byron Johnson announced Tuesday.

The cabinet will submit its recommendations to the Legislature for ratification. The government has yet to reach decisions on payment of the \$10 monthly bonuses to old-age pensioners. It is believed that the government will pay bonus only to needy persons more than 70 years old. Also pending is decision on payment of pensions to needy persons in 65-69 age group.

The Legislature has already agreed in principle to the new Federal old-age pension agreement under which the Federal government assumes full responsibility.

## Paving Pt. Edward-Pr. Rupert Highway

COMPLETED BY NEXT MONTH-END

Work on the road towards Galloway Rapids is progressing very favorably. Levelling off has been completed for a distance of five miles and paving has started from this end. This section should be finished by the end of next week, L. E. Smith, provincial public works engineer, said today.

## Actor Robert Walker Dies

HOLLYWOOD (CP)—Actor Robert Walker, 32, who zoomed to fame during the Second World War in "shy guy" movie roles, died last night while undergoing treatment for an emotional disturbance.

Recently he made a successful comeback in pictures after a lengthy illness. Walker became involved in several brushes with the law on drunk driving charges before he went to the Menninger Clinic, Topeka, Kansas, for treatment of a nervous disorder in 1948.

There were sixty round trip tourists on the CNSS Prince Rupert this afternoon.

## World's Second Largest Power Plant at Kemano

GREATER THAN SHIPSHAW

(Special to The Daily News)

ARVIDA, Quebec.—B.C. newsmen learned here yesterday that the Nechako-Kemano power development to provide energy for Alcan's aluminum mill at Kitimat will be the second-largest power producer in the world.

The Central B.C. project, with an estimated capacity of 1,600,000 horsepower, will exceed that of the 1,200,000 horsepower Shishawash project.

But the world's largest power development will still be Boulder Dam, in the United States, with more than 2,000,000 horsepower.

Tuesday afternoon the visiting newsmen were received by the mayor of Arvida with whom they toured the medal city which has a city manager-engineer. Alcan pays 97 per cent of the taxes here.

## TODAY AT MONTREAL

Dynamic McNeely Dubose, vice-president of Alcan, today was encountered by B.C. newsmen in the act of speeding up the B.C. aluminum project.

Possible greater demand for aluminum by 1954, the time of scheduled opening of the western plant, is giving speed to the project.

Mr. Dubose said he had just received authorization to include Etsuk Lake water in the Tahtsa Lake pool. This could mean that the "big interior pond" would be filled by June 1, 1955, nine months earlier than planned originally.

Meanwhile, aluminum production is to begin at Kitimat by mid 1954, with power from Kemano operating on water stored by that time.

## Labor Strikes At Monopolies

LONDON (CP)—The Labor government announced tonight its plan for attack on monopolies in Britain's industrial structure.

The plan advocated a ban on combinations which restrain trade and competition, vigorous competition by state-owned companies on equal terms with private companies, and nationalization of monopolistic monopolies which do not yield to other methods of control.

Suggestions were made in an 8,000-word pamphlet prepared under the direction of party's policy committee. The committee is headed by foreign secretary Herbert Morrison.

## Fighting Continues

EIGHTH ARMY HEADQUARTERS, Korea (CP)—Communist troops built up their strength along the Korean front today despite clearing weather which exposed them to allied air and artillery attack.

A sudden break in the rainy spell also brought on a jet battle along the Korean-Manchurian border. Sixty Red and allied jets engaged in a dogfight. The Reds broke off the fight before any hits registered.

## WEATHER

Synopsis  
 The pool of moist air which is lying over southern British Columbia is beginning to move slowly southward and slow clearing is expected to take place in the southern coastal section during the day. Moist air from Alberta is continuing to pour into the southern interior and not much improvement in weather in this region is looked for today. Northern coastal districts should remain sunny and dry for the next two days.

Forecast  
 North Coast Region—Sunny and warm. Light northerly winds. Low tonight and high Thursday—At Port Hardy, Sandspit and Prince Rupert, 48 and 70.

Bishop Jordan was a passenger returning to the city on the CNSS Prince Rupert this afternoon.

A SOLDIER'S SALUTE—Gen. George C. Marshall, U.S. defence secretary, takes the salute at the grand march-past on Warrrior's Day at the Canadian National Exhibition. (CP PHOTO)

Says Ridgway—

## Reds Delay Truce Talks

TOKYO (CP)—General Matthew Ridgway Wednesday in a message to Communist leaders in Korea flatly refused to make a second investigation into alleged allied bombing of Kaesong.

The Allied commander declared that further investigation as demanded by Reds "could serve no purpose other than to continue this unjustifiable delay in armistice negotiations."

The Communists suspended talks last Thursday asserting an allied plane bombed truce talk site the day before.

## Countries to Recognize National Fishing Areas

WASHINGTON (CP)—A State Department official said today United States and Canada are preparing a proposed fisheries agreement with Japan to be negotiated after the peace treaty is signed.

## Can. Soldier Gets Life; Manslaughter

SEOUL (CP)—Private Glen Roland Blank of Winnipeg was convicted of manslaughter today by a Canadian court martial, and sentenced to life imprisonment, but the sentence is subject to review.

Blank, 27, was the first of three enlisted men of Princess Patricia's Canadian Light Infantry to be tried on a charge of murdering Lieut. Lee Chong Sung. Lee was one of three South Korean soldiers killed March 17 by grenade blast in the village of Chung Woon.

Blank testified that he did not throw the grenade. He said he was on a "large size bender" that night.

A companion testified that a group of British and Canadian soldiers went to a farmhouse in search of women. The grenade exploded there. Private Donald Mitchell Gibson, Ottawa, and Private Alan R. Davis, Vancouver, also will be tried for murder at separate courts martial later.

Canadian National steamer Prince Rupert docked at 1 p.m. with a full list of passengers including many returning from summer vacations and will sail tonight at midnight for Ketchikan.

He said Canada and the U.S. are working on the initial proposal to "establish basic principles for handling the Pacific fisheries problems in which the three nations are concerned."

The idea is to establish an organization for handling fishing matters "to prevent any crisis arising in them as was the case during the 1930s."

Senator Warren Magnuson, member of the foreign commerce committee, said he is going to the San Francisco peace meeting and hopes to assist in expediting talks with the Japanese about fishing. He felt the proposed treaty would include provisions that each country recognizes the national fishing grounds of others.

He said American fishing for salmon off Vancouver Island would not be disturbed. Japanese fishing in tuna beds of southeast Asia would be recognized.

## Progress In The District

The "outstanding progress" of the whole district is "very evident as along the northern branch of the Canadian National Railways, according to information from CNR offices. Everywhere the tempo of industry is speeding up.

This is reflected in the increase of railway staffs at various centres.

The lumber industry continues to be most active and so far the absence of forest fires had been a great relief.

The shipping of ore from mines at Smithers has been on the increase and there has also been a movement of farmers. This is a "gratifying feature" as in the long run it is farming that is the backbone of a country's progress. Return of the six trains a week on the railway is being hoped for.

Bus traffic out of Prince Rupert continues but there is no indication that a change to day travel will be instituted.

## Six to Die in Assassin Charge

AMMAN, Jordan (CP)—A special military court today sentenced six men—two in absentia—to die on the charge that they plotted assassination of King Abdullah, who was slain in Old Jerusalem, July 20. Four others were acquitted and freed.

Doomed prisoners include Dr. Mousa Abdullah El Hussein, 35, cousin of the exiled former Mufti of Jerusalem.

Mrs. Munroe and family returned to the city this afternoon on the Prince Rupert.

## A True Pal

HAPPY REUNION—Perra, the famous German shepherd dog who conducted the Shillih family across the Yugoslavia-Austrian border last year, was reunited with her owners at Maple, Ont., about 15 miles north of Toronto. She is shown here with, left to right: Mrs. Josef Shillih, daughter Jane, 27, Mr. Shillih and son George, 25. Perra preceded the family, arriving here two months ago. Mr. Shillih has a job with a Toronto customs brokerage firm; Jane will go into domestic service while George will work in the bush for a year. (CP PHOTO)

## Large Tungsten Strike Claimed in Central BC

### Free Newsman Demands Truman

WASHINGTON (CP)—President Truman, in an unusual lecture to the new Czech ambassador, today called on Communist Czechoslovakia to free William N. Oatis, Associated Press correspondent, imprisoned on "espionage" charges.

While anti-Communist pickets paraded outside the White House, Truman declared ever since the Reds seized power in Czechoslovakia and Foreign Minister Jan Masaryk was "murdered," relations with United States have deteriorated. Best way to improve them, he said, is to free Oatis.

BURNS LAKE.—The largest strike of tungsten believed uncovered in British Columbia has been claimed by prospectors Andy Ostrem and Cecil Kay. Back home from their trip, the pair say they found the huge deposit of tungsten of "10 claims long" a few miles east of Prince George.

Within a matter of hours news of the find leaked out and representatives of an American mining syndicate were reported on their way here to negotiate purchase of the property.

Andy Ostrem is remembered best here as one of the original stakers of the Pinchi Lake mercury mines. Mining engineers Jacobson and Olson, representing the Seattle Brynson interests, are at Prince George checking the area.

## They Query Census Figures

HAROLD MORRISON  
 City Press Staff Writer

Stick around, and we'll tell you about the census-takers and the municipalities. The bureau has already corrected its figures for Sault Ste. Marie, Ont. In its preliminary estimate of the census the bureau reported that the city's population was 29,851 compared with 25,794 in 1941. Now it has informed the mayor of Sault Ste. Marie that the total should be 32,247.

Sault Ste. Marie had informed the bureau that its local assessment check in 1950 gave a total of 31,543. On investigation, the bureau found that a clerk had failed to include two lists of persons in the preliminary census count.

DON'T ALL AGREE  
 Then there's the case of St. Thomas, Ont., whose assessment commissioner William Vidler indicated he was none too happy with the city's population figure as disclosed in the initial report of the 1951 decennial Canadian census.

The preliminary census report, which is by no means complete, gave St. Thomas a population of (Continued on Page 5)
