Birchtown, Quebec—"I live 13 miles from town on a farm, with all my home duties and churning to attend to. At the Change of Life, I became nervous and run-down. The Vegetable Compound helped my whole system. My nerves are better, my appetite is good and I am able to do my work. I have also taken the Blood Medicine and the Liver Pills and they helped me. I will answer letters from women asking about your medicines."—Mrs. RICHARD CHARLTON, Birchtown, Quebec.

Behind the Stockade

THE great new head office structure of the Sun Life Assurance Company of Canada in Montreal overlooks the original site of the Indian village of Hochelaga . . . the palisaded capital of the warlike redskins which Jacques Cartier found at the foot of Mount Royal. Nearby still stand the stone towers where the women and children of the white settlers took refuge.

It is significant that the headquarters of the world's greatest international company for the protection of the home by modern methods should be located where the first settlers gathered in block-houses and behind stockades to defend their families against their savage foes.

protection of life assurance that prudent men everywhere increasingly turn.

In proof of this, during the first nine months of this year, the new business of the Sun Life Assurance Company of Canada was over \$50,000,000 in excess of that of the corresponding period of the great boom year of 1929.

When days were most dangerous it was behind the stockade that the pioneers sought safety and shelter for their loved ones. Today, under trying business conditions, it is to the sure and tested

In times of stress, as well as of prosperity, Sun Life policies solve both business and personal problems.
