## CONCLUSION OF CONGRESS

Salvation Army Gathering Came to Close Last Night

The last of a most successful series of meetings was held at the Salvation Army Citadel last night. This took the form of a musical program interspersed with a variety of other items. Staff Captain Acton, divisional commander from Wrangell, Alaska, was in the chair. Many places at which the Army is at work in this district were represented with a special item, among them being, Glen Vowell, Hazelton, Cedarvale, Kitselas, Metlakatla, Canyon City, Port Simpson, Prince Rupert, as well as Ketchikan and Metlakatla, Alaska.

A banner was presented to the corps which gave the most to the Missionary appeal. This banner was for only native corps. The winner was Hazelton, where Envoy Holland is in charge.

Some of the items were worthy of special mention and were vociferously applauded. The natives possess excellent musical and vocal ability.

From every point of view the congress has been a success and it is expected that next year there will be a much larger number of delegates.

The program last evening was as follows:

- Opening Song.
- Prayer.
- Chairman's remarks, Staff Captain Acton.
- Solo, Mrs. Atkinson.
- Address, "Father Duncan," Envoy Tomlinson, Cedarvale.
- Chorus, Envoy Halland, Hazelton.
- Duet, "The Army Will Be There", Envoy W. Wright and McKay.
- Solo, Mrs. Envoy Milne.
- Recitation, Mary Lamb.
- Men's Duet, Canyon City Officers.
- Trombone Solo, Bandsman J. Starr.
- Surprise item, Metlakatla.
- Solo, Mrs. Envoy Clifton.
- Duet, Mrs. Majury and J. Starr.
- Solo, Bandmaster Aukland.
- Duet, Capt. and Mrs. Andrew McKay, Port Simpson.
- Solo, Bro. Alexcee.
- Solo, Peter Wale of Hazelton.

## News of the Mines

AROUND PRINCE RUPERT

Discoveries on Black Bear Group — Woodbine Is Resuming Work Soon—District Did Well at Vancouver Exhibition

This season's work on the Black Bear group, which adjoins the Red Top near the headwaters of Bear River, has disclosed some very fine ore. Copper assays as high as 12.1 per cent with \$8 in gold and galena assays giving 82 per cent lead, 32 ounces silver and \$4 in gold have been obtained. The owners, Messrs. Bolen, Garner and Gillof, are well pleased with these very encouraging results and are busy prosecuting surface development on the property. A well mineralized vein of quartz porphyry, eight feet wide, has also been located during the recent work. This is the very latest discovery and no assays have as yet been obtained. The owners look upon this as the most important discovery upon the property. Last year the Black Bear came into prominence when it was announced that surface work had revealed a streak of ore running 81.7 per cent lead and 29.9 ounces silver, being accompanied in the same vein by two and a half to three feet of copper ore. At that time no work whatever had been done on the property beyond what could be accomplished with a pick. The high copper values are found on Claim No. 3. All told, the group consists of five claims.

## This Year's Pack Of Salmon Double Twenty Years Ago

Twenty years ago the salmon pack on the British Columbia coast totalled 530,000 cases which was considered at that time a very good showing. So far this year, with the season not yet finished, the total pack for the coast is 1,197,457 cases or more than double that of 1910. That year as this, the Skeena had the largest pack of any individual district.

Un'ion steamer Catala, Capt. A. J. Dickson, returned to port at 10 o'clock this morning from Anyox. Stewart and other northern points and will sail at 3.30 this afternoon for Vancouver and waypoints.

## NEW DIRECTOR OF TUCKETTS

Mr. L. R. Greene, Vice-President of The Tuckett Tobacco Co. Limited, recently elected to the Directorate of this well-known Canadian company. Mr. Greene joined the Tuckett Company in 1915 as Manager of Sales and Advertising. Prior to that time he had served for 17 years with Sherwin-Williams Company at Cleveland and Montreal. Mr. Greene is well known throughout Canada for his interest in public affairs. He is, at present, the President of the Chamber of Commerce, Hamilton. He is past President of the Rotary Club, and a past President and Director of the Canadian Association of National Advertisers and is a much sought after speaker, being an authority on sales and advertising.

Latest news from the Kenneth group in the Stewart district is to the effect that the high grade vein has widened to three feet and that the crew is busy sacking ore for shipment. Jack Rennie has the hauling contract.

A crew of men have commenced work on the Woodbine property at Stewart, getting the camp, pipe lines, etc. in shape for the commencement of development work. The property will be in active operation by September 1 with a crew of about twelve men under the personal direction of Hugh McGuire. The persistence of gold values in the ores of this property is a most encouraging feature and justifies further development. Extensive surface prospecting and underground exploration will be undertaken and the results to be obtained from this projected work are looked forward to with considerable interest particularly in view of the fact that persistent rumors are current to the effect that good gold values have been obtained at depth in the adjoining Premier property. Mr. McGuire visited the mine a few days ago and has now gone to Vancouver to complete arrangements for the resumption of work.

Louis Legge has uncovered some very promising looking ore on the claims in which he is interested near Chickamin Glacier in the Portland Canal district. Fair average values in gold, silver and lead have been obtained over a width of 10 feet. Legge and his associates are prospecting the surface by means of open cuts.

Portland Canal again this year carried off honors for mineral displays at the Vancouver Exhibition. In addition to the award which was received by the Silverado mine for the best exhibit of native silver ore, minerals displayed from the Stewart district were awarded a cup for the best general district exhibit of ores. First prize for the best individual property exhibit of copper-ores went to the Glenora-Queen group on the Stikine River. Second prize for the best lead-zinc ore went to the Ingenika Mines Ltd. on the Ingenika River while the Stella group at Alice Arm got first prize for the best exhibit of molybdenum ore. The Portland Canal exhibit is stated to have been the largest and most representative collection ever assembled in the province. The northwestern mineral survey district exhibit this year in addition to ores from Stewart, Alice Arm and Atlin was greatly increased by some splendid displays from the Taku and Stikine River sections.

## ALARM FOR LON CHANEY

Famous Character Actor of Screen Is Battling With Attack of Anaemia

LOS ANGELES, Aug. 26.—Lon Chaney, motion picture character actor, is battling with anaemia. He has received at least two blood transfusions and studio officials express concern over his condition. Chaney rallied somewhat last night and there was reported to be a change for the better in his condition.

## MT. ROBSON IS SCALED

After Many Attempts, Peak Is Reached For First Time This Year

MOUNT ROBSON, B.C., Aug. 26.—Mount Robson after many attempts has been climbed for the first time this season.

A party composed of N. E. Odell and C. G. Crawford of London, England, both members of the Mount Everest expedition and Terris Moore of Haddon Field, N.Y., are now on their way down to their base camp after successfully gaining the summit.

It was in a lone attempt to climb Mount Robson, 12,972 feet high, the highest peak in the Canadian Rockies, that Newman D. Waffl of Orange, N.J., lost his life two weeks ago.
