PUBLIC INQUIRY

We are inclined to think that when the inquiry is held into the dismissal of Norman Watt from the Government service it should be held in public. The public have heard Gillis Royer Has Long Lead in Inso much about it in the Legislature during the past few days that they now feel they are entitled to more than an official report of a commissioner.

If the inquiry is held in Prince Rupert and the public are admitted, there will certainly be a considerable audi- up to and including February 10, 15-9. ence, for this whole question of the dismissal of public (To be included in this table a J. Norrington beat Miss Molly Cross servants is very much in the public mind today and the feeling against it is very strong except for very good cause.

HEALTH INSURANCE

If health insurance should become an accomplished fact, a good deal of credit for it will be due to Dr. Wrinch of Hazelton, who has spent a good deal of time and effort making investigations and drawing attention to the need. While a measure of this kind needs very careful compiling. it may become a very useful institution and it is to be hoped the present Government will give it careful consideration, as they doubtless will.

Weedless. Pain!

The man who wouldn't drive his motorcar half a mile when it's out of order, will often drive his brain all day with a head that's throbbing.

Such punishment isn't very good for one's nerves! It's unwise, and it's unnecessary. For a tablet or two of Aspirin will relieve a headache every time. So, remember this accepted antidote for pain, and spare yourself a lot of needless suffering. Read the proven directions and you'll discover many valuable uses for these tablets. For headaches; to check colds. To ease a sore throat and reduce the infection. For relieving neuralgic, neuritic, rheumatic pain.

> People used to wonder if Aspirin might be harmful. The doctors always turn to Aspirin for immeanswered that question years ago. diate relief.

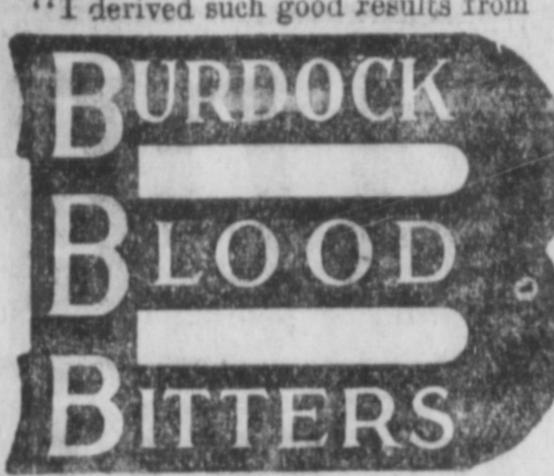

It is not. Some folks still wonder if it really does relieve pain. That's settled! For millions of men and women have found it does. To cure the cause of any pain you must consult your doctor; but you may
