Read how one woman lost 28 lbs. drugs or exercises.

"I take a daily dose of Kruschen, and I have lost two inches round the waist and hips and 28 lbs. since last summer. I feel very well on it and people tell me I look very fit. I am 5 ft. 4 in. in height, 40 years old, and come of a stout family," Miss E. L. Don't go lumbering about with a burden of unhealthy, excess fat-you can get rid of it easily if you get the Kruschen habit.

Kruschen Salts provides the easiest, you can possibly desire. By purifying your blood of harmful acids, helping the liver, kidneys and bowels to throw off waste material, they remove in natural way the fatty deposits which poisonous-waste matter has produced Not only do you lose pounds in weight, but you lose years in appearance. Little by little, the ugly fat disappears slowly, yes-but surely-and you soon feel wonderfully healthy, vital and energetic-more so than ever before in your life.

A Dream of Ninety Years Ago Comes True

In 1840 the people of Montreal dreamed of a bridge to join the harbour with the communities of the South Shore. The site they then selected was that on which now stands the magnificent structure known to us, three generations later, as the Montreal Harbour Bridge, officially opened on May 24th, 1930.

The single 16 candle-power gas lamp in the foreground is typical of the scientific darkness of its day, for it was not till 1880 that electric light was installed in the Harbour of Montreal. Today the dream of ninety years ago is realized in the bridge—one of the world's finest monuments to modern science and engineering—illuminated by 165 one thousand candle-power incandescent electric lamps—a total of 165,000 candle-power. Special plans for this unique installation were designed by the engineers of the Harbour Commission in conjunction with illumination engineers of the Northern Electric Company Limited.
