PREMIER CLOSES WESTERN CAMPAIGN

Government For Years Has Not Given Money To Bring Immigrants

Prime Minister Given Fine Reception In Winnipeg and Audience Is Particularly Enthusiastic About Plans For Unemployment Relief

WINNIPEG, July 16:—The Dominion government has not for years contributed a single dollar towards bringing foreign immigrants into Canada, Rt. Hon. W. L. Mackenzie King, Prime Minister, told a large audience here last night. He made the statement in answer to a question asked from the audience when he was dealing with the subject of unemployment. The Premier said that some foreign immigrants had come in under railway agreements, "but last April we informed the railway companies that they must stop recruiting and bringing in foreign immigrants and they know that that is to be the policy of the government."

The meeting was the final one which the Premier will hold in the prairie provinces in the course of his election campaign tour. It was an enthusiastic gathering and the Premier met with applause when he declared that the government would give "dollar for dollar" to provinces and municipalities which would start a program of construction to meet the unemployment situation. He repeated and emphasized his statement that the federal government was willing to assist any provincial government which reported that unemployment was too great for it to meet.

DEATH IS NATURAL

Finding of Coroner's Physician in Connection With Demise of George Green

VANCOUVER, July 16:—Dr. A. W. Hunter, coroner's physician, following an autopsy, yesterday reported that the death of George W. Green, manager of the Dustbane Products Co., who was to have appeared before the select committee of the city council investigating school board affairs, had been due to natural causes.

POLITICAL BATTLE ON

Ontario and Saskatchewan Governments Taking Active Part In Campaign

OTTAWA, July 16:—Ontario and Saskatchewan are to see the climax of the election campaign. In both key provinces, the provincial Conservative administrations are now in the battle. For weeks Premier Ferguson of Ontario has been in bitter attack on the government and last night Premier Anderson of Saskatchewan announced his intention to bring his reinforcements into the fray.

VANCOUVER WHEAT

VANCOUVER, July 16:—Wheat was quoted on the local exchange today at 95 1/2c.

INFANTILE PARALYSIS IN LOS ANGELES WITH SIX DEATHS TO DATE

LOS ANGELES, July 16:—There have been 77 cases of infantile paralysis here recently. Six of the patients with the malady have died.

NEW DEVELOPMENTS ON STEWART MINE

Shall Bennett Declare A Tariff War On Britain In Canada's Name?

Casey in the Montreal

Stewart Favor Swings Toward Hanson; Baxter Fails to Offset Impression Made By Pattullo

STEWART, July 16:—With the approach of July 28, interest in the impending election is fast reaching fever heat in Stewart and, as a topic for street-corner conversation, the respective merits of Messrs. Hanson and Brady have ousted every other question of the day. Even mining development and the projected Peace River outlet, which mean so much in the workaday life of Stewart, have been relegated to the background, and one can no more raise a discussion on these two topics than he can upon the pursuit of astronomy by the ancients.

To the interested, yet unbiased, observer, it is a curious fact that about a month ago it was conceded, absolutely by the Conservatives and reluctantly by the Liberals, that Mr. Brady would be returned, but now the situation seems to be reversed. Liberals are now enthusiastic in their assertions that Olof Hanson will be Skeena's next member, and, though the Conservatives are maintaining a stolid front in favor of Mr. Brady, yet it cannot be denied that they are worried.

Messrs. Pattullo and Pearson did much to advance the Liberal cause in Stewart when they visited here two weeks ago, and, though the Conservatives sought to recover lost ground by sending in T. S. Baxter, it must be admitted that Mr. Baxter did not secure the desired results. True, he made a neat speech and was given every attention by a fairly large audience, but the enthusiasm was lacking and no one was particularly swung to the Tory cause by the maze of figures in which Mr. Baxter lost his audience and himself both. Anyone can quote statistics, and Stewart electors know it.

The big factor in the sudden swing to the Liberal candidate is, however, not attributable to any local cause but to the reports in-

coming from other sections of the riding which seem to favor Mr. Hanson in nearly all cases. No very favorable reports for Mr. Brady have come to hand, and the inference is that the Conservative machine is either broken or they have no such favorable reports to make.

NATURAL CAUSES

Following a post-mortem examination conducted by a physician, Coroner C. L. Monroe decided, in holding an inquiry yesterday afternoon, that the death of Joseph Bussinger, whose body was found on Monday near McClymont Park, had been due to natural causes.

RIOTING TOLD TO BE SERIOUS

LONDON, July 16:—Calcutta dispatches to the Daily Mail today reported that rioting between Moslems and Hindus in Eastern Bengal has assumed a very serious aspect, over one hundred and fifty square miles, and the police are being rushed to Mymensingh and Kishorganj.

STEWARDS OFF HOME

Prince Henry Waiters Ordered Back to England Because Canadians are Available for Jobs

VANCOUVER, July 16:—Because the positions could be fulfilled by unemployed Canadians, a crew of twenty-two waiters were returned to England last week off the new Canadian National steamer Prince Henry on order of the immigration department.

The entire party voiced rigorous protests, claiming that they had had been engaged for two years' employment but the immigration department was adamant.

The same ruling will apply to stewards arriving on the second new ship, the Prince David, in August.

OFFICIAL SUSPENDED

John Morton, Scavenging Superintendent, Relieved of Duties Pending Completion of Probe

VANCOUVER, July 16:—John Morton, superintendent of the city scavenging department, has been suspended pending completion of the civic probe into his department. Mayor W. H. Malkin announced that the auditors had reported no money shortages had been discovered in the audit of school board books.

THE WEATHER

Prince Rupert—Clear, calm; temperature, 55.

B. C. Silver Property Now Ready For Mill Engineer Banks Says

Believed That Mill and Plant of Dunwell May Be Purchased—No Agreement With Premier

STEWART, July 16:—In his annual report to the shareholders of the Selukwe Gold Mining & Finance Co., C. A. Banks, consulting engineer for the company's British Columbia holdings, asserted that development at the B. C. Silver had now reached a stage where the installation of a 100-ton mill was warranted.

Rumor now has it that Mr. Banks' recommendation is about to be acted upon, and it is thought here that the B. C. Silver might purchase the mill and plant of the Dunwell Mining Co. At any rate it is reported that local officials of the B. C. Silver have been looking over the Dunwell mill.

Mr. Banks is expected in Stewart within a short while and possibly no plans will be announced until then. Local sentiment seems to favor B. C. Silver mining and milling their own ore rather than coming to an agreement with the Premier Gold Mining Co., which was the alternative suggested by Mr. Banks.

WILL SEND DELEGATION

British Columbia Hopes to Win British Lumber Business

VICTORIA, July 16:—British Columbia will send a lumber delegation to Great Britain shortly if plans discussed here between the provincial government and E. M. H. Lloyd, representative of the Empire Marketing Board, materialize.

Hon. N. S. Lougheed, minister of public works, asked Mr. Lloyd if a lumber delegation could secure worthwhile results in Great Britain. Mr. Lloyd replied that it should be able to do a great deal of good in promoting the sale of British Columbia timber products generally.

FRAUDS ON INSURANCE

NEW YORK, July 16:—Employees of the Metropolitan Insurance Co. were arrested here when it was disclosed that the insurance company had been defrauded of about \$1,000,000 on false death claims. Twenty-seven 'corpses' appeared to testify that they had not known that they were 'dead.'

The Political Corner

Vol. 1. Wednesday, July 16, 1930 No. 30.

The Dunning Budget

"The Toronto Globe" says editorially that the Dunning budget is easily the most important issue on which the people of this country have ever been called to make pronouncement. It says:

"It was offered and promoted as a business policy for Canada 'for it ties the Dominion up with the greatest potential market the world has ever seen, a market which will remain friendly, if properly cultivated, regardless of the political winds which blow the 'tariff fences of foreign nations hither and thither.

"Having incorporated it in the budget, Premier King is able 'to point to profitable results. Bermuda has reciprocated. The 'British West Indies are preparing to open their doors wider to Canadian products. Sentiment throughout the British Empire, and 'especially in Great Britain, has turned definitely in the same direction."

"Canada can get her imported commodities from Empire countries on a fair trading basis. It should be her set aim to do so, to 'cultivate them accordingly, to pursue a steady course in this direction. There is enough business available within the Empire to 'bring prosperity and contentment to all British countries for generations to come.

"If the people of Canada have faith in the Empire and its possibilities they cannot do otherwise than support the budget and 'select its sponsors as their representatives at London. This is the 'great issue before them. It is a tremendous issue, worthy of careful weighing on its business and economic merits. It can and 'should be considered apart from sectional or partisan interests, for 'it is bigger than any section or any partisan issue."

Since the "Globe" published the above, Australia too has followed the lead of Canada and the above mentioned sections of the Empire in granting similar preferences to other parts of the British Empire. And now we have all the bankers and financiers in the Old Country uniting in a manifesto to all the political parties in England urging that Imperial preferential trade is the only salvation for Great Britain.
