NO PROGRESS WITH GRAND TRUNK DEBATE

Ontario Elections Interest Members More Than Proceedings of Parliament.

(Special via G. T. P. Telegraphs.)

Ottawa, Oct. 18.—The House of Commons was not in a hurry to get along with the debate on the second reading of the Grand Trunk bill yesterday. After listening to three speeches the members decided to adjourn the House until Monday and then it is expected that they will be more interested in the Ontario election than in proceedings in the House. It is certain that the taking of a division on the second reading will be deferred until members who have been participating in the contest are back in the capital.

REFUSES TO ARBITRATE STEEL STRIKE

E.H. GARY TESTIFYING BEFORE SENATE COMMITTEE

Eliott H. Gary, chairman of the board of the United States Steel Corporation, in his statement to the Senate committee says that he will not meet any workmen's representatives and advocates federal regulation of concentrated capital and combined labor. He declares that unions are a menace to the country and refuses to arbitrate the steel strike. Continuing he said: "We put ourselves squarely upon the issue that this is a question of the open or closed shop. Now, as to what will bring about the closed shop we must decide from time to time, depending upon the facts presented. At the present time the union leaders have brought about this strike, which is no more or less than an attempt of a minority to secure control of the interests of the large majority, including not only the employers but the employees."

TAX IS NOT FOR AVERAGE INVESTOR

Victory Bond issues of other years had a tax exempt clause which aroused considerable interest but for the great majority of investors could have no material effect. The forthcoming loan has not this tax exemption feature. But it must be firmly impressed that it is only the interest yield that is taxable.

Married people and people with dependents are not taxed on an income of less than \$2000. So it can be seen that the great majority of investors in these bonds will never know personally that the income from their bonds bears a tax.

The tax on bond income is only for rich men to think about.
