### Engine Man On Visit to South

L. Liahjall will bring back Demonstration Boat in About Three Weeks

L. Liahjall, representative of the Rap Diesel motors, returned to Seattle today to supervise some installing work there. He expects to return in about three weeks' time with his factory's demonstration boat Rap III, which is sold as a halibut boat to Ketchikan.

Mr. Liahjall plans to stay in Prince Rupert a considerable part of the summer and his work will be to follow the boats that have installed Rap motors. He is especially interested in two boats at the present time being equipped at McLean's boat wharf and at the drydock. These boats, which are respectively 44 feet and 45 feet in length, are furnished with 29 h.p. Rap engines and Mr. Liahjall believes he will be able to give the fishermen a surprise as he says the Rap factory's 29 h.p. engine can develop a power far above what the engine is rated for. He therefore is of the opinion that the 29 h.p. Rap engine will make a big hit in B.C.

### Billy the Gunner Celebrates His 60th Birthday

The cheerful skipper of the "Thelma H." Bill Hanson, universally known as "The Gunner," a name reflecting distinguished services in the Spanish-American war, celebrated his sixtieth birthday on Sunday last at his home port in Jap Inlet.  
The captain served a substantial supper, with suitable refreshments, to 14 guests. With cards and tobacco and stories of the sea, of sailing ships and foreign ports, the captain and his guests enjoyed a 24-carat diamond anniversary.

### Swedish Hospital Is Well Equipped

STOCKHOLM, Sweden, Jan. 23.—The big Stockholm hospital "Serafimer Lasarettet," which is now being rebuilt, will, when ready, be one of the best equipped institutions of its kind in the world. The new kitchen of the hospital will be the most modern one in Europe. Among other interesting novelties introduced is the system for serving food to the patients. The nurses and attendants are relieved from carrying trays from the kitchen, the food being served directly to the patients from rolling tables passing through the wards.  
The dishwashing will be performed by machines in a special department, which is isolated from the wards so that the patients will not be disturbed any more by the noise and clatter of the dishes. Electric elevators will carry the food and the dishes between the different floors. The walls of the hospital will be decorated by enlivening color designs and paintings by one of Sweden's leading artists.
