Dr. Mandy's Report Gives Prince Rupert Good Publicity Connected With Development Taku River Mines

District Is Likely to Develop Into Important Producing Low-Grade Area and Rupert Is Nearest Canadian Port

A new bulletin on the Taku River mining area written by Dr. J. T. Mandy, resident mining engineer, features the position of Prince Rupert relative to the Taku country, contains an excellent view of Prince Rupert city and harbor and a map showing the north coast mining country and its relative position to Prince Rupert. The city is mentioned many times in connection with the supply of mining equipment and the report*------

does justice to the commanding po- portunity of giving the city prom-

inence in connection with the fu-

sition Prince Rupert occupies. The new district is undoubtedly ture operations of the mines there. rich and is capable of enormous development and Prince Rupert should not let all the business pass PEACE PIPE her by.

At the beginning of the report Dr. Mandy says:

"The mouth of the Taku River is

about 140 miles northwesterly of the Stikine River mouth. It empties into the head of Taku Inlet, about 25 miles northeast of Juneau, Alaska, and about 320 miles north of Prince Rupert, British Columbia. British Columbia-Alaska boundary crosses the river about 20 miles from its mouth, throwing Province under a Port Haney date the important extent of the area in line may be of local interest since Canadian territory east of the the new reeve there is a former Alaskan pan-handle. The area is resident of Prince Rupert: reached by direct and frequent "The peace pipe was smoked at steamship connection from Prince the inaugural meeting of the Rupert or Vancouver to Juneau and Maple Ridge Municipal Council or thence by launch and river boat up Thursday, but for a time it looked
