Last Night

The Baptist Brotherhood was addressed by W. Louden last evening. He traced the movements of a tree from its natural state to the finished wood. A detailed description of modern sawmill methods was found very interesting. In the absence of W. Wilson, the president, Frank Glass occupied the chair.

J. H. Smith, R. Dafoe and W. Louden were later found in a corner busily engaged on their debate with Toc H next Friday. The topic for the debate is "Resolved that the Lord's Day Act be Abolished." Toc H. will have to work hard to gain a decision over the Brotherhood team. This meeting will be open and refreshments will be served.
