## The "MARRIAGE" OF WHITE HORSE WHISKY

"MARRYING" is a term used by experts to describe the blending process through which "White Horse" gains its smoothness and mellowness.

Scotch Whisky is the blending of malts and grain whisky. For "White Horse" only the choicest makes of Scotch Whisky are selected. These are matured for a long period in sherry wood—expertly blended—or "married"—then aged, rebled and aged again.

Every drop of "White Horse" must go through this long, deliberate process—and the result generously repays the effort.

White Horse is Scotland's senior Whisky. Used throughout the world wherever connoisseurs foregather.

Immediately the lights at Bonilla Island and Butterworth rocks are established application will be made to Lloyds to have insurance rates granted to ships using Heccate Straits. On this route 220 miles is saved on the round trip for vessels coming to Prince Rupert from Panama Canal and also the difficulty of getting bearings and finding Dixon Entrance in bad weather is obviated.

At present only about five per cent of shipping is equipped with direction finding apparatus so that beacons would be of little use to them at present.
