Not Ready To Say

The judges have not yet come to a conclusion on the letters though final word will not much longer be withheld. There are excellent letters and so many of them that difficulties arise on each examination. Pacific Milk Company appreciates to the full the pains and time our valued patrons have gone to in sending us letters on Pacific Milk as a food for infants and we are extremely anxious that the decisions reached receive most thorough consideration.

Could not Eat or Sleep after Husband's Death

Her husband's death left her very run down in health, unable to eat or sleep much. Now she is brighter in spirits and eats and sleeps well. What caused the difference? Let her answer in her own words:—

"I think Kruschen Salts are a splendid tonic. After my husband's death in December last I became very run down in health. Had terrible fits of depression and was unable to eat or sleep much. I was also troubled with rheumatism. I decided to take Kruschen Salts and have now taken the little daily dose for nearly two months, during which time my health has greatly improved. The rheumatism has completely left me. I am much brighter in spirits and both eat and sleep well."

When life begins to "get you down," when you begin to feel the results of modern artificial conditions—errors of diet, worry, overwork, lack of exercise—then you should turn to Kruschen Salts. They possess a wonderful power of giving new life and vitality to the countless millions of cells of which the human body is composed. The way to keep smiling is to take Kruschen Salts every morning—just a pinch in your first morning cup of coffee or tea.

FREE TRIAL OFFER

If you have never tried Kruschen—try it now at our expense. We have distributed a great many special "GIANT" packages which make it easy for you to prove our claim for yourself. Ask your druggist for the new "GIANT" 75c. package.

This consists of our regular 75c. bottle together with a separate trial bottle—sufficient for about one week. Open the trial bottle first, put it to the test, and then, if not entirely convinced that Kruschen does everything we claim it to do, the regular bottle is still as good as new. Take it back. Your druggist is authorised to return your 75c. immediately and without question. You have tried Kruschen free, at our expense. What could be fairer? Manufactured by E. Griffiths Hughes, Ltd., Manchester, Eng. (Estab. 1756). Importers: McGillivray Bros., Ltd., Toronto.

Motorship Northland, Capt. Len Williams, arrived in port at 5 o'clock Saturday afternoon from Ketchikan and, after discharging one carload of frozen fish for transshipment east over the Canadian National Railways, sailed for Seattle.

There was a little dispute in the Vancouver city council last week as to whether Mayor Malkin should meet Grand Duke Alexander on his visit to the southern city in his official capacity or as a private citizen. Some of the aldermen thought it would be unwise to recognize Russian royalty in Canada now that they were not recognized in their own land. The result of the discussion was to leave the matter to the mayor to use his own judgment. M. Y. Aivazoff had written to the council suggesting a civic welcome for the visitor.

NOTICE!

Oil today is the biggest money-maker known to speculators. The oil fields of Alberta offer tremendous possibilities to those who can afford to buy now. Prices are at the lowest ebb and many people are availing themselves of the opportunity afforded by a low market. Market conditions prevailing are only temporary and will in the course of the next few months undoubtedly advance to much higher levels.

I strongly recommend leases of from $20 to $30 per acre, providing they are on structure and in close proximity to assured active operations. Why not take advantage of the present low prices, as such an action on your part may in a few months place you in a position of independence.

My previous experience covering a period of three years in close contact with the Alberta field is assurance that your requirements will be handled to the best possible advantage.

A method employed by persons of small capital and which has found much favor here, is the formation of syndicates with the units at $100. each, a very simple and easy form of profit participation. I am at present in touch with a genuine ground floor proposition. This comprises 600 acres of leases at $30. per acre, syndicated into 180 units at $100. each per unit, with every assurance of extensive development on the structure commencing almost immediately. I expect to remain in Vancouver for a few weeks before returning to Prince Rupert and will be pleased to attend to any enquiries personally.
