BASEBALL FOR FAIR

The bringing of the V. A. C. baseball team from Van- in 1920. The influenza dead in the couver for the fair is a move that will undoubtedly prove 49 in 1928, 36 in 1927 and 55 in 1926. very popular here. Local ball players have had an idea of Diptheria accounted for 981 deaths touring the south on several occasions but have found it in 1929, giving a rate of 10 per 100,-i impossible to get away. Now they will have the opportun- 000; whooping cough for 755 death ity to try their skill against what is looked upon as the and a rate of 8; measles, 619 death best team in the province. If they make a good showing, as 467 deaths and a date of 5; scarled is confidently expected of them, they will know better fever for 440 deaths and a date of what to do.

Most people like watching baseball. It is undoubtedly the ed an increase of 282 over the prefavorite attraction in Prince Rupert and in most other tical with the number in 1927. centres. People from the district will here have an opportunity of seeing some good games without going south. It of the heart was 135 per 100,006 should be a great attraction and should bring hundreds to which compared with 131 in 1928 the fair who otherwise might not come.

NATIVE CONGRESS

Under the auspices of the Salvation Army a native re- causes in 1929 were pneumonia with ligious congress will be held in Prince Rupert for the first a rate of 86, tubercolosis with 79.5 time this year. On former occasions the event has been held at Port Essington of some other up-river centre. The decision to hold it in Prince Rupert is a compliment to the fants) with 50 per 100,000 populacity and doubtless the citizens will reciprocate by lending tion. all possible aid to make it a success.

Prince Rupert appreciates the visits of the natives from during 1929, and the rate of 73 per

1,000 population, as against 11.3 in 1928, 11.1 in 1927 and 11.5 in 1926. The pronounced increase in 1929 in the number of deaths and the death rate was largely due to the influenza epidemic which had its peak Tuesday, August 12, 1989 in January of that year. Deaths assigned to this cause numbered 7,168 during the years as compared with 4,703 in 1928, 3,451 in 1927 and 5,174 and a rate of 6; typhoid fever for 4.5. The deaths from measles show.

The 1929 death rate from diseases 124 in 1927 and 122 in 1926. The cancer rate was 90 in 1929, against 88 in the preceding year, 83 in 1927 and 81 in 1926. Amongst other important diseases of the arteries with 61. nephritis with 58 and diarrhoea and enteritis (mainly amongst in-

The Annual Fall Fair The Prince Rupert Daily News

Out of town people are recommended to make their plans now to attend the Fall Fair which promises to be the biggest and best ever held in the city, and to enter their exhibits with Secretary Vance at once.

They are also recommended to see that their subscriptions to the Daily News are paid up so that they may keep in touch with all the forward movements. It is a daily record of the doings of the dstrict and a support of all that is best for Northern and Central B. C.
