In Prince Rupert

Steel will touch the three figure mark on this end of the Grand Trunk Pacific Railway within the next two or three days. It is stated by Superintendent W. C. C. Mehan.

Now that the rails are across the Kitsumkalum River, the big ballast pit near there can be tapped and the work will be speeded up.

A memorial service will be conducted in the Anglican Church tonight by Bishop F. H. DuVernet for Harry Gilroy and Alexander Allen who were drowned last month in Shawatinas Lake.

Payroll at Anyox Is Reduced—Toric Holds Annual Meeting—E. C. Pickett Sells Alice Arm Claims

On account of the drop in the price of copper, the Grand Consolidated Mining, Smelting & Power Co., operating at Anyox and Allenby, has cut two hundred men off its payroll but there are still 650 employed. A statement issued by the company says that, after crediting precious metals and miscellaneous income and before depreciation and write-offs, its copper cost was 9.95 cents a pound in the second quarter of this year, 12.07 cents a pound in the first three months and an average of 10.614 cents for the full year of 1929. Profit for September quarter was \$172,017 as against 418,099 in the preceding quarter and \$1,071,808 in the third quarter last year.

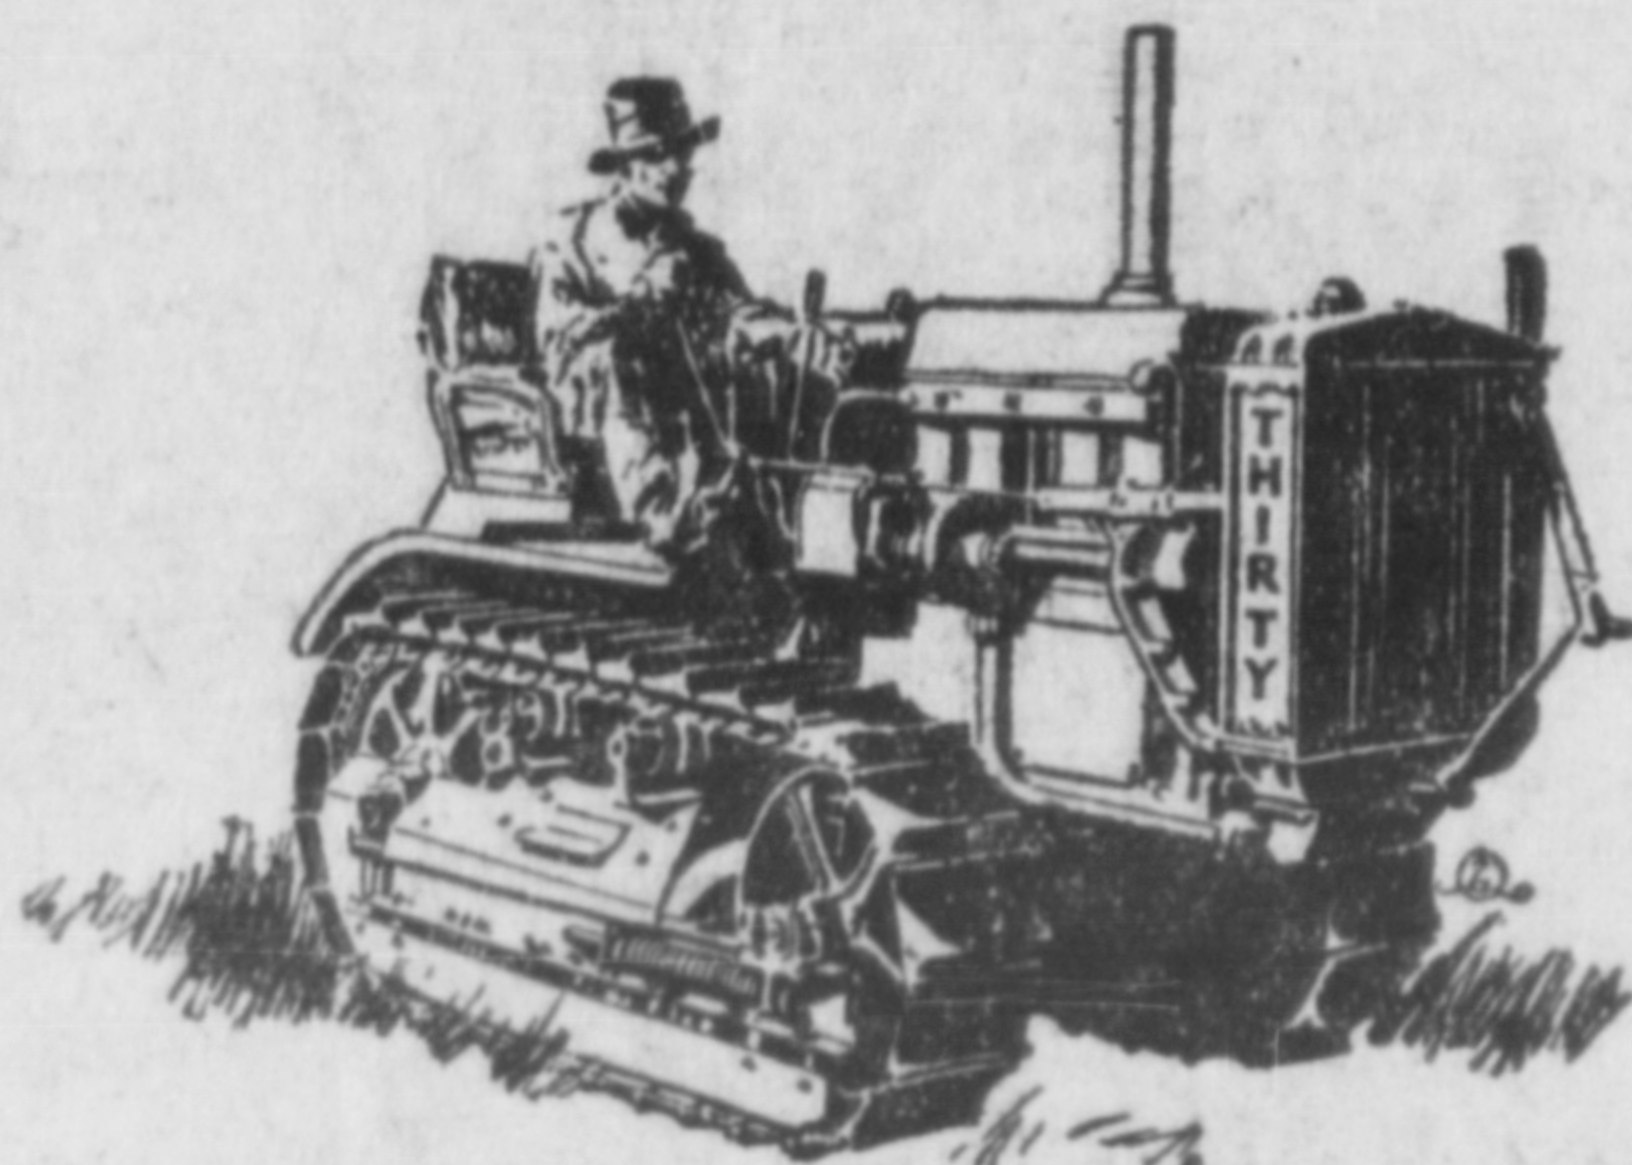

The Toric Mines Co. Ltd., whose property at Alice Arm is now in the hands of the Britannia Mining Co., held its annual meeting this week in Vancouver.

Final payment on the deal transferring the Tiger group and the Rose Marie claim in the Alice Arm district adjoining the Toric mine from E. C. Pickett to the Utility Mines No. 1 Co. has been made. The payment was \$60,000 cash and 200,000 shares of stock in the company which will operate the property. The ore is principally silver.

Former Local Doctor Given New Fellowship

Word has reached the city that Dr. John A. West, already a Fellow of the Royal College of Surgeons (Edinburgh), has been offered and accepted a fellowship in the newly chartered Royal College of Physicians and Surgeons in Canada. As only a limited number of doctors are being awarded the fellowship without examination, Dr. West's many friends here will be glad to hear that he has received it. Dr. West, who practised here for several years, is now located in Vancouver where he is specializing in surgery.

Bitter weather—almost impassable snows—it's the lineman's job to bring relief. His tools must be right. But of even greater importance is his clothing. Warm it must be! It must not bind or impede his movements—and it must be as sturdy as the man himself.

Perhaps that's why you find more linemen—more outdoor men of all occupations—wearing Stanfield's underwear than of any other kind. Soft—warm—durable, it brings utmost comfort.

BONUSES OR BUYERS

Everyone agrees that it would be a fine thing to induce some large industry to build a plant in British Columbia. Some communities would be willing to bonus such an undertaking, give it a free site, or exempt it from local taxes. But it is not bonuses that make an industry successful . . . it's buyers. Why not support the industries that are already here and give them a chance to help you pay the taxes. Insist on B. C. Products every time you make a purchase and you will be doing your share.
