FOUR CARS BUTTER FOR BELGIANS GO FROM EDMONTON

Edmonton, Oct. 20.—As a part of an order from the Belgian government, P. Burns & Co. last week shipped four cars of butter from Edmonton and were also shipping from Calgary and Saskatoon. The Edmonton shipment included 200,000 fifty-six pound boxes, and about a couple of weeks ago they shipped about 400,000 boxes on the same order.

It is understood that the order will take up all the available surplus that the Burns produce department can command. The Belgian government has also bought heavily in eastern Canada.

With the heavy outside demand the price of butter to the trade has gone to 59c. There is a big demand from the coast, both in the American and the Canadian cities and big shipments are being made there weekly.

GREATEST SILVER COUNTRY IN WORLD

That is What Alice Arm Mining Men are Saying in Vancouver.

That the Alice Arm district, particularly that area extending south from the Kitsault River, is destined to be developed into the richest silver camp in the world is the opinion of prominent mining men who have recently returned from the north, says the Vancouver World.

Already there is every indication of a busy winter of development and many of the large groups are in the hands of companies and individuals intent upon "bringing in" this district on a scale never seen before. W. V. Somerville and J. D. Meenach are among the enthusiasts who are owners of promising properties at Alice Arm.

Meenach, who with Charles Z. Frey and other Seattle capitalists, own the Musketeer group, located about three and a half miles northwest of the Dolly Varden mine, passed through this city recently and expressed himself in no uncertain terms regarding the district.

"It is the greatest silver country in the world, without a doubt," said Meenach, "and you will see the greatest silver camp in history there when the developments under way are carried out. A mile north of me is the Wolf, and further north again on the east side of the glacier is the Homestead group where men are now working and a great showing has been made. All the properties are striking richer pre the further they go down. There will be some great work done this winter. The Wolf has 419,000 tons of ore blocked out and will be working with the diamond drill this winter. The Climax is working on a vein 20 feet wide and showing 113 ounces to the ton. The North Star has wonderful ore, the quartz being held together by great deposits of native silver. They are packing out ore now in sacks up to 1,000 ounces to the ton."

BASKETBALL

Junior Colts Beat Kind Edward and High School Defeats Senior Colts.

There were two basketball games last evening. The first game was a fast exhibition played between the Colts No. 2 and the King Edward School, which resulted in a win for the former, score 2-0.

The second game was played between the High School and the Senior Colts. The Colts had a 3-0 lead in the first half, but the High School boys came to their senses in the second half, took six baskets themselves and held the Colts scoreless. It was a lively game, full of life and excitement. Final score, 6-3. There was a number of enthusiastic spectators who took a lively interest in the games.

HOUSEHOLD NECESSITY

Gillett's Lye has long been regarded as a household necessity because of the fact that it is useful in so many ways, and so satisfactory in every respect that no woman feels that she can keep house without it. Makes the finest kind of soap for washing and cleansing. One can of Gillett's Lye will make ten pounds of good soap in twenty minutes. Many of its uses are shown in booklet under the label.

"GILLETT'S LYE EATS DIRT"
 Made in Canada.

NEW YORK WOMEN FORM LEAGUE FOR BETTER GOVERNMENT

New York, October 11.—The recently enfranchised women of New York have formed themselves into a League pledged "to further the election, regardless of party, of such men and women as by their record, talent, and standing in the community give promise of a higher and more efficient type of public official." In order to be of real value, the League intends to obtain "full and accurate records of all candidates and distribute them among the registered women voters of the assembly districts."

Members of the League are particularly keen on welfare and

social work, and intend to use their votes to effect improvement in these matters. The purity and distribution of food will also occupy their attention. During elections they will hold political meetings, at which the opposing candidates will be invited to speak

and answer the questions of their women constituents. And at least three mass meetings a year will be held to discuss local politics and questions of current interest.

Never forget to look through the classified list on Page 5.

Friskie Engines

Complete and ready to install.

FRISBIE

the friendly motor

Friskie Motors give long, uninterrupted service with practically no repairs except occasional grinding of valves. Valves in cages; accessible in a few seconds. An "all muscle" construction throughout, every part designed for hard work. Overhead valves, opening directly into combustion chambers. No pockets or crevices to gather carbon, and waste fuel. This type of construction effects a gain of

15 to 20 per cent. more power

than is possible with L or T-Head designs. Intake and exhaust manifolds are cast integral with the cylinder; miles ahead of the old, leaky, bolted-on manifolds. Large valves insure full charge on the intake and a complete, clean exhaust.

1 to 6 CYLINDERS—5 to 75 HORSEPOWER

Friskie Motors are made in following sizes: 1-cyl., 5 and 7 H.P.; 2-cyl., 10 and 16 H.P.; 3-cyl., 18 and 25 H.P.; 4-cyl., 30 and 40 H.P.; 6-cyl., 50 and 75 H.P.—Bore and Stroke, 4 3/4" x 5" and 6" x 6". For work or play, the Friskie will measure up to your hardest tests.

- 5 Horse Power, \$450
- 7 " " \$600
- 10 " " \$700
- 16 " " \$900
- 25 " " \$1400
