Ald, P. H. Linzey asked the city council last night if something could not be down about the condition of a piece of sidewalk on Fulton Street near Sixth Avenue which, every time it rained, became flooded. He suggested that the Board of Works put in necessary drains. City Engineer F. N. Good stated that it had been drained off only three or four months ago but had filled up again. "Then I would suggest that you give us a ferry," responded Ald. Linzey, always face-

STOP AT THE START

You May Pay If You Don't

When you realize that about 90% of all sickness begins with constipation, you won't want to take chances. If you have the symptoms — bad breath, coated tongue, always tired -put a stop to them now!

But do it the natural way. Not with pills and drugs, which give but temporary relief and must be taken in increasing doses. Eat Kellogg's ALL-BRAN-an appetizing deliciously flavored cereal.

Kellogg's ALL-BRAN sweeps the system clean of wastes and impurities, Its action is natural; the roughage carries with it the poisons which clog your system.

In addition, ALL-BRAN is rich in iron. Scientific research shows that nearly all this iron goes into the blood, making it give the rich glow of healthy color.

You'll like ALL-BRAN. Ready-.to-eat with milk or cream-fruits or honey added. Physicians recommend it. And we guarantee it to relieve both temporary and recurring constipation. Two tablespoonfuls daily - with every meal, in recurring cases.

Start now! Today. Kellogg's ALL-BRAN is sold by all grocers in the red-and-green package. Served in hotels, restaurants and dining-cars. Made by Kellogg in London, Ontario.

That's what makes Puffed Grains crisp . . . delicious ... virtually as nourishing as hot cooked cereals

YOU may have wondered why Puffed Whear and Puffed Rice are so light and crunchy...

Here's the secret. They are made by an utterly different process from all other ready-to-eat cereals. Grains of wheat and rice are sealed in bronze guns. The guns are revolved in fiery ovens. In this terrific heat the natural grain moisture in each tiny food

When the guns are fired, 125 million explosions occur in each grain. Every tiny food cell is completely broken up. (Just as it would be from long hours of cooking.) Hence every particle of food is completely digestible. This is why Puffed Wheat and Puffed Rice are rated as virtually as nourishing as hot cooked cereals.

When these grains come forth in showers from the guns, they've been puffed to 8 times normal size. They're crisp, fragile, crunchy . . . deliciously good to eat. They taste like sweet new nutmeats. Like fresh buttered popcorn. You'll say you never before dreamed that wheat and rice could be so meltingly good to eat.

Don't neglect to give your family this more delicious . . . more richly nourishing cereal. Order Puffed Wheat and Puffed Rice from your grocer today. 5751
