D EFORE you order dinner at a restaurant, you consult the bill-of-fare. Before you take a long trip by motor-car, you pore over road maps. Before you start out on a shopping trip, you should consult the advertisements in this paper. For the same reasons!

The advertising columns are a buying guide to you in the purchase of everything you need-including amusements! A guide that saves your time and conserves your energy; that saves useless steps and guards against false ones; that puts the s-t-r-e-t-e-h in family budgets.

The advertisements in this paper are so interesting, it is difficult to see how anyone could overlook them . . . fail to profit by them. Just check with yourself and be sure that you are reading the advertisements regularly-the big ones and the little ones. It is time well spent . . . always.

For example, read the grocery store "ads" this week.

Avoid time-wasting, money-wasting, detours on the road to Merchandise value. Read the advertising "road maps."
