PRICE FIVE CENTS

Dolly Varden Mine Shipping Steadily

September Output was 110,000 ozs. and to date this Month 92,000 ozs. have gone down the Railway

Allice Arm, October 22.—The output of the Dolly Varden mine proving very satisfactory. The returns for the month of September show 110,000 ounces of silver, which at the present price is at \$1.18 an ounce.

It is estimated that at the present rate of progress the output of the present month will reach 135,000 ounces. Already to date the output for the month has been 92,000 ounces and there is no probability that there will be anything to interfere with regular shipments being made.

There are at present 138 men on the payroll at the mine and it is expected to keep increasing as long as the weather permit. When the snow gets deep for further shipments to be made, there will be a continuation of systematic development work throughout the winter.

This will employ many of the men who are now on the payroll and will insure steady shipments being made next year.

The new Climax locomotive which was recently brought in by the Dolly Varden mine is now in operation and its use enables shipments to be made.

Everything seems prosperous at the camp and in the spring it is expected there will be a steady stream of ore pouring out to the millers. In the meantime development on many of the properties is going on steadily.

PREMIER ON VICTORY LOAN

Writes Sir Henry Drayton Regarding New Issue and Urging Dependence on Own Resources.

(Special via G. T. P. Telegraphs.)

OTTAWA, Oct. 22.—Sir Robert Borden who is in temporary retirement on account of illness has written Sir Henry Drayton, Minister of Finance, as follows:

"I hope the people of Canada will fully realize the extreme importance of making the present Victory Loan a complete success.

"The necessities of the country involve a very heavy expenditure in demobilization, in the payment of the liberal war gratuity authorized last December, in carrying out the arrangements for the civil re-establishment of returned soldiers and in providing for settlement upon the land. As Sir Thomas White pointed out in his Budget speech, the present fiscal year, for this reason, is a war year so far as expenditure is concerned. The exportation of our surplus food products and other staple commodities must be maintained and, pending the return of normal financial conditions, the Government is called upon to establish necessary credits for this purpose.

"The money markets of the world to which we have had resort in the past are closed, and it is entirely necessary to rely upon our own resources. They are ample for the purpose of providing the country with the amounts necessary to carry on its affairs. The security offered by a Canadian loan is second to none in the world; and every citizen who contributes his quota aids in stabilizing and maintaining the credit of his country."

WILL ARRIVE IN EUROPE SOON

KAKICHI UCHIDA AND HIS SON

The above picture shows Kakichi Uchida, head of the principal Japanese cable and telegraph companies, and his son, who are on their way to Europe aboard the Caronia, of the Cunard line, to study economic problems in connection with the vast international interests with which he and his affiliated companies in Japan are identified. Mr. Uchida left Tokyo early in August and has been studying economic conditions in the United States since his arrival at San Francisco.

ATHLETIC CLUB WAS LAUNCHED LAST EVENING

Officers Elected and Arrangements Made for Proceeding With Building at Once.

WILL INCORPORATE ACCORDING TO LAW

Nearly \$2,000 Required to Build Dressing Room and Secure Proper Equipment.

The Prince Rupert Amateur Athletic Association came into being at a meeting held in the Board of Trade rooms last evening with M. P. McCaffery in the chair. On the advice of W. O. Fulton it was decided to incorporate under the Benevolent Societies Act and with that end in view a provisional board of directors was chosen, consisting of H. S. Wallace, W. O. Fulton, Percy Tinker, M. P. McCaffery, H. McCall, Col. McMordie and Mr. Clementson. These will at once take the necessary steps to secure incorporation.

The Cost.
The committee appointed to secure data on the coast of fitting up shower baths, dressing rooms and securing paraphernalia reported and it was found that close on \$2,000 would be needed in all. At the Exhibition Building it would be necessary to construct a room 30 ft. by 30 ft. in the basement, to build a chimney and to put in shower baths and heating apparatus and a stair leading to the main building. The chimney would be useful for the fair purposes as at present when a stove is needed the stove pipe is stuck out of the window.

Officers.
Officers and working committee for the association were then chosen as follows:
Hon. President, M. P. McCaffery.

President, Colonel McMordie.
Vice-President, H. McCall.
Sec.-Treasurer, Percy Tinker.
Committee—Messrs. Ben Self, Williscroft, Johnston, Westaway, Nicholl, Pullen, Joe Scott, Jr., Brady, Gilhuly, Wearnmouth, Gibbons, Tobey, Woodland and McAuley.

An effort was made to have the officers and committee representative men who would bring credit on the association and to include in it members of those associations which are interested in athletics.

Fees.
The fee for entry into the new association was set at \$10 for adults, \$5 for working boys under 18 and no charge for school children. Adult members will pay a dollar a month for the use of the rooms, and boys 50c a month.

GERMAN OPERA NOT POPULAR

Soldiers and Civilians Try to Stop Performance at New York.

(Special via G. T. P. Telegraphs.)

New York, Oct. 21.—Despite the decision by Mayor Hyland that German opera should not be given in New York until the Peace Treaty was signed, "Die Meister Singer" was presented in German at Leighton Theatre while thousands of soldiers, sailors, marines and civilians fought with the police in an attempt to reach the theatre and stop the production. Several shots were fired as former service men time and again charged the police lines. A barrage of bricks, stones and other missiles was formed in an attempt to force a way through.

JAPANESE MENACE WORRYING AMERICANS

Speech of Senator Lodge Caused Considerable Stir in Washington.

(Special via G. T. P. Telegraphs.)

WASHINGTON, Oct. 22.—The speech of Senator Lodge in which he warned western nations of the "Japanese menace" has caused a stir in officialdom here. The suggestion that Japan was slowly but surely building up an imperialistic power in the Pacific, which unless curbed would cause a new outbreak of universal war, has set people thinking. While the aim of the speech was admittedly political and delivered with a view to influencing people against the present Government, the truth of the suggestion is so self evident that men and women of both political parties are becoming worried.

BILLIARD CHAMPION IS SAN DIEGO MAN

(Special via G. T. P. Telegraphs.)

New York, Oct. 21.—Ora Morning Star, of San Diego, defeated Jake Schamefer, of San Francisco, in the opening game in an 18.2 ball-line billiard championship tournament. George D. Sutton, of Chicago, won the second game, defeating George D. Slosson.

LEADER IN RIEL REBELLION DIES

(Special via G. T. P. Telegraphs.)

Spokane, October 21.—John F. Wilnot, a resident of Spokane since 1892, died here yesterday. He was a member of the R.N.M.P. and it was his company of mounted police that captured Riel in the Riel Rebellion.

Large Shipment of Pulp and Shingles

One Hundred Car loads a week Passing through this Port from Swanson Bay, Shipped by Whalen Company.

Large shipments of pulp, shingles and lumber are regularly passing through this port from Swanson Bay where the Whalen Pulp and Paper Company have their big plant. The average of shipments through Prince Rupert is nearly 100 carloads weekly most of which goes right through to big industrial concerns in the Eastern States.

Among the many corporations that buy raw pulp from the Swanson Bay plant are the Quaker Oats Co. of Pekin, Illinois.

They take this pulp to their carton making plant and there turn out the familiar round packages in which their goods are sold. The Whalen plant does not make paper or cardboard but this is made at the plants in the East.

The new slips at Swanson Bay and Prince Rupert are nearly finished and the company expects to use them by November 15. After that time there will be no extra handling here as the cars will be taken to Swanson Bay where they will be loaded and brought back here and taken right out on special trains. This will eliminate the heavy cost of hauling the product between the barges and the trains here. The Grand Trunk is building the slip here, which is located just west of the garbage wharf, and the Whalen people are building the slip at Swanson Bay. The car barges will be handled by the G.T.P. tug Lorne as the company's tug, the Francis Cutting, is hardly large enough for the purpose.

It is expected that when the new service is operating the shipments will be larger with the lessened cost of shipping which will reduce the f.o.b. costs at the ultimate points of delivery. Mr. Warren, the local agent of the Whalen Co. says that he is now very busy with the great amount of pulp, paper and shingles that is passing through at the present time.

CAPT. DANIELL WAS PRISONER

Well Known Prince George Officer Here on Way to Victoria After Trying Experiences.

A strenuous three months of flying on the Somme early in 1917 was followed by nearly two years of monotony and hardship as a prisoner of war in the hands of the Germans. This was the experience of Capt. J. B. Daniell, of Prince George, who with Lieut. Crocker, also of Prince George, arrived here last evening and is going to Victoria for demobilization.

Capt. Daniell who is an officer of the Royal Naval Air Service, is a son of Police Magistrate and Mrs. Daniell of Prince George, and the former editor of a Prince George newspaper. He was a prisoner from May 1917 until six weeks after the armistice and since that time has been in England awaiting an opportunity to return home. He crossed on the Megantic with 950 other officers of the Flying Corps and expects to return to Prince George soon and probably will take up newspaper work there once more.

Capt. Daniell's mother is the famous artist whose work is well known throughout the country and especially in the coast cities.

MACHINISTS ATTENTION

Owing to Carpenters' Hall having been taken over by the Health Department, local 207 will meet tonight in the Council Chamber, City Hall.

GOLD RUSH IN MANITOBA

Rich Ore Carrying Immense Value Reported to Have Been Found.

WINNIPEG, Oct. 22.—Manitoba is competing with the Yukon Territory and British Columbia in the matter of gold rushes. Two rich gold strikes have been made in the eastern part of the province. One near The Pas and the other just on the border of Ontario about 200 miles east of here.

The vanguard of the army of gold seekers is already in both fields. It consists of prospectors, lumberjacks and laborers, who were in the vicinity of one or the other strike when the news first was broken. This vanguard is being reinforced rapidly by platoons of retired prospectors, clerks, newspaper reporters, returned soldiers—men of all trades and professions—from Winnipeg and neighboring towns. By the time a party of ten prospectors reported to have started from Mexico, and a party of 75 from California, reach the fields both probably will have been claim staked for many miles around.

Cooks' strike at The Pas, which is declared by assayers and mining engineers to give promise of being the richest since the "pay dirt" was discovered in Alaska, was made by accident. He was not even prospecting at the time. The other was a strike of good fortune that surpassed his fondest expectations. He had come to the wilds of Western Ontario to spend a vacation fishing and hunting. By chance, a man named Wachman met Larsson, a veteran prospector, who induced him to lay down his fish-pole and gun and take up a pick "for exercise." A vein of gold said to assay at from \$200,000 to \$300,000 a ton is among the reported finds.

ROAD ROUND ISLAND WOULD BE ATTRACTION

Writing of Prince Rupert in the Toronto Globe Mrs. Cotes says:

"The climate makes the north of the Province the natural refuge of a heat-blistered continent in the summer months, and already our American neighbors are flying through the country in large numbers, like migrating birds, looking disappointedly for hotels expensive and luxurious enough to perch at without loss of self-respect. Tourists ask interest and occupation and amusement—how well the genius of the C.P.R. understands that! A beginning has been made at Jasper Park, but the beginning ended there. A 25-mile driving road round Kaien Island would be costly to build, but it would turn Prince Rupert into a point of pilgrimage, instead of a boat-and-rail junction for summer travel. Meanwhile it might be possible to give the place a station. But there is no lack of indication, no scarcity of opportunity. We shall see what we shall see."

IRISH QUESTION STILL WORRYING

British Cabinet is Wrestling With Problem of Effecting a Settlement.

(Special via G. T. P. Telegraphs.)

London, Oct. 22.—The British Cabinet is wrestling with the Irish question. It is the one big problem ahead that it seems almost impossible to overcome. The question is a small one inside it. The two irreconcilable parties, the Sinn Feiners and the Orangemen, are still apart as the poles.

In Dublin and other parts of the land there is a condition verging on rebellion. The London Cabinet recommends "the recreation of a union of sympathy and willing co-operation between several peoples in these islands."

Many Irish people are returning from the United States, but as a result of this re-patriation will mean no one seems to know. It is expected, however, that the British Cabinet, piloted by Lloyd George, will bring down a bill for the consideration of Parliament that will be a bold measure.

ONTARIO ELECTIONS RETURNS COMPLETED

Prohibition Expected to Have a Majority of Quarter of Million Votes.

(Special via G. T. P. Telegraphs.)

Toronto, Oct. 21.—The standing of the parties late this afternoon give the following results: Liberals, 43; Conservatives, 27; Progressives, 28; Independents, 2, and about 11.

Late returns show prohibition upheld practically everywhere, even Toronto going dry. Indications are that the dries will have a majority of about 250,000.

PAINTERS

An open meeting of Painters Union No. 731 will be held in the City Hall Thursday, October 23, at 8 p.m. All painters in the city are cordially invited to attend.
