The late Mr. Bussinger was about 67 years of age and had lived in the north for many years. He had been missing for the past few weeks and some concern was expressed for his safety. A son resides in Telkwa and is expected in town at once.

It is presumed that the aged prospector had taken to the hills for stroll and was overcome and died.

The body was positively identinadian exports to the United fied today as that of Joseph Bussinger by William Burken with **\*** \$7,000,000. whom deceased stayed up to the time of his disappearance.

## From This Province For Employment Aid

Was Merely Suggestion of Co-operation—Prime Minister Was Again Victim of Organized Heckling at Meeting In Regina Last Night

REGINA, July 15:-After one of the most strenuous meetings of his campaign, Premier King left here late last night for Winnipeg where he will conclude his tour of the west. The Premier was heckled somewhat when he dealt with the unemployment problem but the unperturbed Mr. King pursued his outline of the campaign issues, answered questions and replied to communications submitted to him by unemployed men's associations of the city. Heckling was not unexpected here and there were stories of the disturbances being organized. Foro-

two hours the Premier dealt with unemployment, the budget and problems of and representation for + B. C. PACKERS TO he Imperial Conference to be held in London.

Again the Premier reiterated the government's policy in dealing with unemployment. When requested, he said, the federal government was prepared to assist the provinces "dollar for dollar" in unemployment relief.

In answer to statements made by Premier Tolmie of British Columminister of labor, Mr. King declared emphatically that no applications ed before Parliament had been reasking for co-operation in view of In 15 Ontario constituencies reply had been sent to Dr. Tolmie which nominated, the only three- promising consideration of the recornered fight will be in Fort Wil- quest for co-operation. #### Tory Deception

Messrs. Stevens and Brady are telling us that the Liberal Government has increased taxation because Canada now collects more taxes than when the Liberals came into power.

This is a half truth and is worse than a whole lie because it is made with the intent to make the electors believe the rate of taxation has not been reduced.

Mackenzie King says very justly that he is entitled to commendation for having continuously reduced the rate of taxation during the last six years, though the amount of revenue collected has increased materially.

As a country prospers and business increases more taxes are collected although the rate may be greatly reduced.

Mr. Brady once taught mathematics. Let us give him a simple problem in arithmetic:

"If a business man on a \$20,000 turnover pays a 6% business "tax or \$1,200, what tax will he pay on a \$200,000 turnover when "the rate is reduced to 1%? The answer of course is \$2,000. More "taxes, but rate reduced from six to one."

The Mackenzie King Government reduced the Sales Tax from 6% in 1923 to 5% in 1924; to 4% in 1927; to 3% in 1928; to 2% in 1929 and to 1% in 1930, and all our other taxes have been similarly reduced by the Liberal Government and yet Messrs. Stevens and Brady continue in their attempt to deceive the electors into the belief that their taxes

have not been reduced. They cannot meet the government squarely on the big issues of the day such as the Imperial Preferential Tariff and the Economic Conference but fritter away the time of the people in discussing "five cent pieces" and "when is a tax reduction not a tax reduction."

Any port in a storm.
