Combine of Millers, Bakers and Dealers Is Charged by Council

Minister of Labor Will Be Asked to Study Prices and Ascertain If Trade Restrained—Short Weight Is Alleged

VANCOUVER, June 13:-Decision to call upon the Minister of Labor of Canada to investigate the relation of wheat prices to the prices of flour, feed and bread and to decide whether an association of millers, bakers and dealers constitutes a combination in restraint of trade in contravention of the Criminal Code of Canada was reached by a special committee of the city council yesterday. An appeal will be made to other western cities for support in the movement. In a resolution which it adopted, the city council does not undertake to prove or disprove any given statement but places before theoauthorities information which it believes warrants investigation.

Preliminary List of Voters Closing Next Week; Latest Chance

People Will Still Have Opportunity of Registering Up to July 3—Registrars Are Now Busy In City

In connection with the registration of voters for the forthcoming federal election, the city has been divided . into seven distrcts with a registrar in charge of each. While these registrars are required to turn in their preliminary lists to the returning officer by June 17, next Tuesday, prospective voters will still have a chance to get on the list up to July 3, after which the court of revision will be held, by applying to the registrars who up to that time may add missing names to their lists. Of course, it is desirable that people should geta

their names on their list before

June 17.

Following are the districts into MARITIME which the city has been divided with the men in charge of each:

The Political Corner

Friday, June 13

Government to Be Returned

with an increased majority. Of this there can be no manner of doubt. Even the leading Conservative newspapers such as the "Province," make no claim that there is any chance of the Liberal Government being defeated.

As one Conservative put it the other day: "Mackenzie King's fiscal policy is a 'humdinger'." His bold stroke in offering the greatest measure of trade preference to the British Isles has seized the imagination of the old land and the Conservative party there is loud in the praises of his magnanimous offer and has already won by-elections on the strength of this policy which it desires to reciprocate.

The great gospel of British trade for British peoples everywhere throughout the Empire is spreading like wildfire, and Mackenzie King is now heralded as the one man who has had the vision, the statesmanship and the courage to come out boldly and declare for that policy, without waiting for the lead of any other part of the British Empire.

His other policy of "countervailing duties" is supplementary to the great policy of Imperial preferential tariffs and is a notice to the United States and other nations of the world that if they insist upon building tariff walls against us to injure our trade with them, they must take the consequences and expect as high a tariff from us. In other words Canada intends to do business with her friends and Imperial relatives and not with those who slight us and injure our trade.

Should we not send a man to Ottawa to uphold the hand of Mackenzie King in his Imperial fiscal policy rather than send a Conservative who is opposed to the policy of Imperial preferential tariffs? The Conservative party in Canada has always opposed that policy, ever since it was first inaugurated in a small way by Sir Wilfrid Laurier.
