Two Children Burn to Death

Tragedy at Burton on Upper Arrow Lake on Sunday When Home Is Destroyed

NELSON, Sept. 23:—Two children of Mrs. Alma Glossos—Julius, aged nine, and Frieda, aged five—were burned to death on Sunday when fire destroyed their home at Burton on Upper Arrow Lake. A third child, aged eight, was rescued after being seriously burned.

Union steamer Catala, Capt. A E. Dickson, returned to port at 10.30 this morning from Anyox. Stewart and other northern points and will sail at 3.30 this afternoon for Vancouver and waypoints.

True dyes are easiest to use!

Dresses, drapes or lingerie look *new* when they're re-dyed with Diamond Dyes. No spotting or streaking; never a trace of that re-dyed look. Just rich, even, bright colors that hold amazingly through wear and washing.

Diamond Dyes are the highest quality dyes you can buy *because they're so rich in pure anilines.* That's what makes them so easy to use. That's why they've been famous for 50 years. 15 cent packages—all dealers.

Silver Cup to Get More Finances—Woodbine Work Proceeding—Stewart Property to Be Sold at Auction

A small crew of men has been kept at work on the Silver Cup property in the Hazelton district during the past summer but the mine is only on a maintenance basis for the present. The company is only partially financed to continue operations but officials hope to bring in sufficient new money to enable resumption of development work before long, possibly before snow flies this fall. It is not proposed to start the mill again until ore sufficient for six months' operations is assured, officials state. As values are in silver, lead and zinc, no doubt the low prevailing prices for these metals are a factor in the delay in financing further operations.

Development work on the George Enterprise property at Stewart has closed down after a season which was featured by ideal weather conditions which enabled the crew to carry out a far more extensive program of work than would have been possible under ordinary conditions. Starting last June with a crew of seven men, the property was given an intensive prospecting which yielded very satisfactory results and will have an important bearing on future developments. In addition to numerous open cuts, tunnels A and 15 were considerably extended during the season with results apparently very satisfactory to the management. On the Heather group, which was added to the original holdings in 1928, work was confined this season to developing the discovery made last fall and here again the results were said to be very pleasing. Since the George Enterprise was incorporated in February 1928, the company has actively and efficiently explored its large holdings. The property consists of 21 surveyed claims situated near the head of Bear River valley. A well conditioned camp is maintained and mining operations are served by modern equipment including a 220-foot portable compressor with direct connection to a 60 h.p. gas engine.

Work on the Woodbine property at Stewart is proceeding apace and is centred upon the sinking of a shaft to intercept gold ores which were shown in diamond drill holes last spring. It is evident that the management has great faith in the future of the property and is making a genuine attempt to prove up another producer.

Engineers of the Premier Gold Mining Co. have been examining several properties in the Portland Canal district during the past summer, the latest to receive attention having been the A. and T. on Bear Lake ridge. Last month the Terminus was inspected and the Ruby Silver came in for attention two weeks ago. No reports of the examinations are, of course, available.

Pursuant to a judgment against the Marmot Consolidated Mines Ltd., handed down by Judge F. McB. Young in County Court here in favor of Joseph Ryan, substituting for Joseph K. Green, all the estate, right, title and interest of the defendant company are to be sold at auction in Prince Rupert on September 26. This includes 39 mineral claims and fractions owned by the company at the forks of Marmot River comprising the group known as the Marmot Consolidated.

With the completion of the contract let early in June, work on the Windsor group on Bitter Creek has closed down for the winter. The program included driving two tunnels, one 80 feet and the other 50 feet and it is learned that results were very satisfactory. In addition to the tunnel work, some open cuts were made. Jim Landers was in charge of the work this season and, under his direction, it is said that the progress made has considerably enhanced the outlook for this promising property.

William Hanna, well known Anyox prospector and original discoverer of the famous Hidden Creek property, is a visitor in the city, having arrived this morning on the Catala from the smelter town.

TIBET IS ISOLATED

Priestly Class Jealous Rulers of Closed Country — Many of Inhabitants Nomadic

MELBOURNE, Aust., Sept. 23:—Having lived for more than 20 years on the border line between China and Tibet, Mr. R. Cunningham, of the China Inland Mission, who is at present at Melbourne, has gained an extensive knowledge of life in Tibet, which is probably the least known inhabited country in the world. Populated by more than 6,000,000 people, Tibet is bordered by Russia on the north, India on the south, China on the east, and Persia on the west. Four high mountain ranges correspond with these boundaries, and Tibet may only be entered by high, snow-capped passes from 14,000 to 20,000 feet above sea-level.

"It seems as if nature had conspired with the lamas to make Tibet a closed country," said Mr. Cunningham. "Apart from the fact that no person, other than a Tibetan, is allowed to enter the country, it would be difficult for one to live in or near Tibet, because the height above sea-level makes the atmosphere so rarified." Relatives of Sadhu Sundar Singh, an Indian Christian who visited Australia several years ago, were found by Mr. Cunningham at Darjeeling in North India in March. Sundar Singh was taken prisoner when he first visited Tibet, and he was told that if he returned he would be put to death. It was rumored, however, that he had died of cholera.

Having learned to speak the Tibetan language, Mr. Cunningham has frequently conversed with the lamas who pass into China, and from them he has obtained information of the political and religious organization of the country. The whole basis of its life, he said, was religious; the supreme ruler, the Dalai Lama, being both the religious and political head. There were several cities with from 5,000 to 7,000 inhabitants, all of whom belong to the priestly caste of lamas. The remainder of the population consists of Nomads searching pasture for their herds. The lamas were also the military force of Tibet.

STOP CONSTIPATION AT THE START

You May Pay If You Don't

When you realize that about 90% of all sickness begins with constipation, you won't want to take chances. If you have the symptoms — bad breath, coated tongue, always tired —put a stop to them now!

But do it the natural way. Not with pills and drugs, which give but temporary relief and must be taken in increasing doses. Eat Kellogg's ALL-BRAN—an appetizing deliciously flavored cereal.

Kellogg's ALL-BRAN sweeps the system clean of wastes and impurities. Its action is natural; the roughage carries with it the poisons which clog your system.

In addition, ALL-BRAN is rich in iron. Scientific research shows that nearly all this iron goes into the blood, making it give the rich glow of healthy color.

You'll like ALL-BRAN. Ready-to-eat with milk or cream—fruits or honey added. Physicians recommend it. And we guarantee it to relieve both temporary and recurring constipation. Two tablespoonfuls daily — with every meal, in recurring cases.

Start now! Today. Kellogg's ALL-BRAN is sold by all grocers in the red-and-green package. Served in hotels, restaurants and dining-cars. Made by Kellogg in London, Ontario.

Kellogg's ALL-BRAN
Improved in Taste and Texture.

Assistant City Engineer Trail Loses His Life

NELSON, Sept. 23:—Pete S. Demidoff, aged 27, assistant city engineer of Trail, was drowned in Lower Kootenay Lake on Sunday when a raft in which he was transporting a deer which he had shot around a bluff was broken up in rough water.

Twenty Years Ago

In Prince Rupert

September 23, 1910.

As a result of a quarrel over business matters which took place in a lonely shack about a mile west of the city last evening, one man was dead this morning in the G.T.P. hospital and another was under arrest on a charge of murder.

In the absence of Mayor Stork Ald. Barrow was elected acting mayor last night at a meeting of the city council. Street grading was the principal matter under discussion at the meeting.

Max Kalish, general manager of the Humbolt Steamship Co., is a business visitor in the city, having arrived from Seattle last night on the company's steamer Humbolt.

JEWISH NEW YEAR

Jewish New Year is being observed today and tomorrow and, in recognition of the festival, some of the Jewish places of business here have closed.
