

Lecture room in C.N.R. hospital car, first of its kind in the world now at Spadina yards, Toronto, for inspection. The company has three such cars

Prospecting For Spring Salmon At Flats Hecate Sts.

About twenty trolling boats have gone out to the flats in Hecate Strait to prospect for spring salmon. There it is that the first fish are usually caught. The place where they fish is about two hours from Squadree which is the nearest harbor.

Sometimes the fish are taken in large numbers on the flats. Last year some of the boys made a thousand dollars in a month there but usually about three hundred dollars is good fishing.

WRIGLEY'S

WRIGLEY'S is good company on any trip. It's delicious flavor adds zest and enjoyment. The sugar supplies pep and energy when the day seems long.

Twenty Years Ago

In Prince Rupert

March 26, 1910
A public meeting was held in the Empress Theatre, at the call of Arthur Cuthbert, to consider the situation following the turning over of the local waterworks project to the city. The unanimous opinion was that construction at Acropolis Hill should stop until the city council is elected.

The Bank of British North America is to open a branch here shortly, a contract having been let to Anderson & McKinnon for the construction of a temporary one-storey building at the corner of Third Avenue and Fulton Street. (The building now stands on Third Avenue below the Daily News office where it is occupied by W. H. Montgomery.)

This year the sockeye salmon fishing season will open on June 20 and the Skeena River boundary is extended seven miles above Strawberry Island, it is announced by Hon. William Templeman, member for this district.

Brotherhood Holds Social

Affair Last Night in Baptist Church Parlors Pronounced Great Success

A most successful social was held last night in the Baptist Church parlors under the auspices of the Baptist Brotherhood. The president, G. W. Johnstone, spoke a few words of welcome to the visitors, after which C. Gilker, chairman of the social committee, took charge.

The first part of the evening was musical and the program was as follows:

- Violin solos—M. R. Dafeo.
 - Humorous readings—Ald. P. H. Linzey.
 - Vocal solos—Miss Beulah McKinley.
 - Piano selections—Miss Aletta McKinley.
- Get-together games were then indulged in, one of the funniest was a blindfold tilting match between M. R. Dafeo and Lee Dell. Amid roars of laughter the bout was declared a draw. Many other mirth provoking stunts took place, and the proceedings were brought to a close by the serving of refreshments. The ladies who were the guests, expressed agreeable surprise that mere men could entertain with such success.

About forty-five were present, and the Brotherhood's first social was declared an unqualified success.

R. W. Sinclair of Inverness Cannery arrived in town on yesterday afternoon's train from the Skeena River for a brief business visit, returning to Inverness this morning.

Nominations Will Be Made For the Local Rotary Club

At the Rotary Club luncheon tomorrow the nominating committee will propose a full slate of officers for the coming year, and, if these are adopted, there will be no election. However, every member of the club has a right to nominate anyone for any office and, should advantage be taken of this privilege, a ballot will take place on the club's election day. The recommendations of the committee follow:

- President, S. D. Johnston.
- Secretary, George Rorie.
- Treasurer, G. H. Munro.
- Directors—John Dybhavn, James L. Lee, B. J. Mellish, C. L. Munroe, John J. Little and G. E. Gulick.

Lord and Lady Willingdon Boost For Banana Fruit

OTTAWA, March 26.—If Lord and Lady Willingdon had their way bananas would be on every Canadian table—bananas, of course, from the British West Indies! Their Excellencies came back from their recent holiday fine believers in a banana a day.

A few years ago bananas were considered thoroughly indigestible. Today they are prescribed for young children. It appears that the firm yellow fruit, slightly green-tinted, formerly classified as A1, was the cause of all the trouble. We have learned that the smallest touch of green was a danger signal, that the banana was not ripe and consisted largely of raw starch. In this state the fruit should only have been eaten when cooked. When the golden skin mottles to a dark brown, bananas are at their best, easy to digest, full flavored, sugary and wholesome. Even if the skin is black, if it is unbroken, the pulp is thoroughly wholesome. The Journal of the American Medical Association says that the "digestibility of the banana is directly proportional to the ripeness of the fruit."

Something well worth remembering is that bananas should be kept at a moderate temperature.

Domestic Science Is Recommended

Duke of York Pays Tribute to His Lady in Opening Institute

LONDON, March 26.—"I commend the study of domestic science to you in all seriousness, for I know what real comfort can be given to a home by a wife who is interested in domestic matters."

That was the Duke of York's tribute to the Duchess when he opened the new institute of the Borough Polytechnic Cookery School. Addressing the pupils, the Duke said that the list of delicious dishes taught at the institute almost

GOVERNMENT OF THE PROVINCE OF BRITISH COLUMBIA

March 31st

Is the last day for filing returns of Income earned during the calendar year 1929.

Returns are required to be filed with the Provincial Assessor, Prince Rupert, from whom the necessary forms and full information may be obtained.

Those required to make returns are as follows:

- Every corporation or joint stock company, (use Form No. 7).
- Every partnership, and every person engaged in business of any kind, or practicing any profession, (use Form No. 7B).
- Every other person in receipt of income from salary, wages, commission, fees, bonus, perquisites, interest, dividends, rent, or other income from any source whatsoever, in excess of—
 - (a) In the case of a married person, \$1800.
 - (b) In the case of a single person, \$1200.
 (Use Form No. 7A).

Individuals whose total income from all sources is less than the amount specified need not file a return unless requested by the Assessor to do so.

In the case of Provincial returns the amount of the tax is not payable until 30 days after the date upon which the Assessor mails a notice of assessment.

The public are earnestly requested to obtain the necessary forms and file returns promptly in order to avoid penalties. Assistance in the making up of returns will be gladly rendered where necessary by the staff of the Assessor's office.

DEPARTMENT OF FINANCE C. B. PETERSON,
Province of British Columbia. Commissioner of Income Tax.

What Northern B.C. Power Means to Prince Rupert

A good many people do not yet realize what the development of power by the Northern B. C. Power Corporation means to Prince Rupert. The present power plant at Shawatians generates very little more than one thousand horsepower and the steam plant at the drydock is used as a reserve.

The new power plant at Falls River is designed to generate 32,000 horsepower of which the first unit of 6,000 is now being constructed and is expected to be completed this year. Other units will be of 6,000, 10,000 and 10,000 horsepower, respectively.

The initial capacity of the pond at Falls River is to be 258,000,000 cubic feet but by raising the dam, the capacity will later be increased to 5,000,000,000 cubic feet.

Water powers under reserve which may be used for power purposes include:

Falls River	32,000 horse power
Thulme River	15,000 " "
Union Bay	10,000 " "
Khtada River	20,000 " "
Brown's River	15,000 " "

This means that for many years to come Prince Rupert will be provided with plenty of power and the huge organization of the Power Corporation of Canada will be using its influence to help build up the district industrially.

Spring Cleaning SPECIALS

- Stock Up At These Prices
- P. G. NAPTHA SOAP—20 bars for \$1.00
 - ROYAL CROWN SOAP—20 bars for \$1.00

tempted him to offer himself as a pupil. He referred to the care taken in the instruction of young girls and women in domestic science and homecraft so that they might build up good and comfortable homes.

The aim of the Polytechnic was to provide facilities for forming a steadfast character and true friendship, for training the intellect, and for leading an upright, unselfish life. "That embodies our national ideals and sums up, to my mind, everything worth living for," the Duke added.

T. C. Workman, representative of the London Salvage Association, arrived in the city on the Prince George this morning from Vancouver, being here on official business in connection with the institution at the local dry dock of repair work on the steamer Camosun which went ashore last Saturday night on Calvert Island.
