Col. T. A. Hiam Guest of Honor Last Night at Banquet Given By Mayor C. H. Orme

At a dinner given for him last night by Mayor Orme in the Commodore Cafe, Colonel T. A. Hiam, assistant to President Sir Henry Thornton of the Canadian National Railways suggested that the choice of site for the new hotel be left to the railway company; also he stated that he thought the western outlet of the Peace River district would be built by the two big railway companies jointly as the federal government would insist upon it. Those were the most striking statements made in a brief address in which he confirmed what he had said earlier in the day in regard to the new hotel. Mayor Orme presided with the distinguished visitor at his right and President Tinker of the Chamber of Commerce to his left.

NORTHERN B.C. BIG FALL FAIR PRINCE RUPERT

Prize List Now Ready and Can Be Secured By Applying to Secretary

The prize list for the annual fall fair of the Northern B. C. Agricultural and Industrial Association is now ready and copies can be secured by applying either personally or by mail to the secretary, W. D. Vance, Prince Rupert.

The list of prizes is a large one and there are a great many specials that are most attractive. This year the great feature of the floral department is the floral display for which the first prize is \$20, second, \$10 and third, \$5. This is proving very attractive and it is understood several Prince Rupert growers are already planning to enter. A table space of about six feet square will be allotted to each exhibitor and he or she may use cut flowers, plants or anything that is thought may make an effective display, as long as the flowers are grown by himself.

It has been suggested that this will be a great opportunity for some of the flower growing districts, such as Hazelton, to demonstrate what the growers there can do. They will be up against keen competition from Prince Rupert and possibly Queen Charlotte Islands. Col. Hiam remarked on his love for the north. In his opinion Prince Rupert had been subjected to too many speeches. On his former visit he had been asked regarding two definite projects, one of which was the building of a hotel at Prince Rupert and the other the building of the western outlet for the Peace River country. In regard to the hotel he had promised to get it built at as early a date as possible. He had gone east and asked Sir Henry about it. The money had since been voted and they would start work as soon as possible.

In regard to the site, Col. Hiam said he had nothing to say. Sir Henry Thornton would be here on the Prince Henry's third trip but he thought it would be best to leave the selection of the site to the railway, else, as in the case of the famous trial by Solomon, they might find part of it in one place and part in another. The same was true of the Peace outlet. When it was constructed it would likely be a joint affair because the Federal Government would insist upon that.

Colonel Hiam spoke of the pleasure it gave him to come north. He hoped to be back with Sir Henry in three weeks and again in September. He was pleased to see the mayor in his present position. He hoped he would hold it for a long time. Mayor Orme thanked the visitor for being there and particularly for the happy message he had brought.

MONCTON, N.B., June 21.—The record of the present Dominion government was laid before the people of the Maritime Provinces here last night by Canada's Prime Minister, Rt. Hon. William Lyon Mackenzie King. From the stage of a theatre, Premier King fired the opening gun of his campaign in the Maritime Provinces. By radio, his words were carried through the homes of thousands of people. The Prime Minister reviewed labor and railway matters, discussed the question of Maritime rights and the Duncan report and made a plea for calm consideration of the government's record. An excellent hearing was accorded Premier King and his speech was punctuated with applause. He referred to the benefits which would accrue to Maritime ports through increased trade under British preference. "You have just passed through a provincial election here," said Premier King. As Prime Minister of Canada he had never interfered in provincial politics and did not believe in so doing. He merely asked the electors not to confuse provincial with federal issues. Postmaster General P. J. Veniot, dealing with the air mail service, said he hoped to have it in operation from Halifax to Vancouver during the present year. The continent could then be bridged in 38 hours.

The Political Corner

The Australian Treaty

Mr. Bennett said in his Calgary speech on June 12 that he pledged himself if elected to abrogate all treaties made by Canada which were inimical to the interests of the farmer. The Tories have repeatedly charged that the Australian Treaty was inimical to the interests of the farmer. On Page 751 of Hansard March 7, 1929, Mr. Guthrie, former leader of the Tories, said, referring to the Australian Treaty: "I understand the treaty was negotiated by the Minister of Finance himself and it has proved to be probably the greatest direct blow that agriculture has had in this country in many years."

No later than March of this year H. H. Stevens said of it: "We have expressed our criticisms of this treaty on the basis that under it the Canadian farmer had not received a square deal."

So the Australian Treaty is to be abrogated if the Conservative Party wins in this election. We desire to call the attention of the voters at Ocean Falls to this threat which will imperil their great pulp and paper industry.

We desire to call the attention of all the loggers of this coast to this threat which will imperil their market for logs both at the pulp plants and in the manufacture of lumber for the Australian lumber market.

What reply will these men give to Mr. Bennett's threat? Mr. Brady will no doubt say as usual, "Oh! I will see that you are protected in some new legislation," but the reply to Mr. Brady will be: "We are satisfied with the Australian Treaty. It has been a big thing for us and we will not have it abrogated." A bird in the hand is worth two in the bush.
