C.N.R. TRAINS

Evidences of Progress

There are a number of very material evidences of the progress of Prince Rupert just now. Among them may be noted:

The construction of the first unit of a large hydroelectric power plant for the use of the city and neighborhood.

Plans all laid for building of new Canadian National Railway Hotel to commence this year.

Tenders being called for new Liquor Store for Provincial Government on Third Ave. Work proceeding on construction of highway by

Provincial Government. Securing of contract by local shippard for building large railway car barge for use in the south, the

work to be done this year. Extensive new fishermen's floats being built by Federal Government.

New Post Office expected to be built by the Federal Government.

Work on new addition to Fisheries Experimental Station nearing completion.

Number of buildings being planned for private interests.

Increased tourist service being given and better stop-offs arranged by railway company.

New steamship to make home port at Prince Rupert just commenced new service. General spirit of co-operation and optimism on the

part of the people of the city, officials of the railway company, power corporation and country generally in regard to future prospects for city and district.
