

Needless Pain!

Some folks take pain for granted. They let a cold "run its course." They wait for their headaches to "wear off." If suffering from neuralgia or from neuritis, they rely on feeling better in the morning. Meantime, they suffer unnecessary pain. Unnecessary, because there is an antidote. Aspirin tablets always offer immediate relief from various aches and pains we once had to endure. If pain persists, consult your doctor as to its cause.

Save yourself a lot of pain and discomfort through the many proven uses of Aspirin. Aspirin is safe. Always the same. All drug stores with complete directions.

Mountain Boy to Resume Operations Soon; Premier Border Shows Up Well; Another Premier Dividend

As soon as spring weather permits, the Mountain Boy Mining Co. will resume work on its property at Stewart. William Tolin, manager of the property, is at present on a trip to Montreal, where principals of the company reside, on business in connection with the forthcoming resumption of operations. J. M. McDonald, formerly of the exploration staff of the Granby Co., will be engineer in charge of the work on the Mountain Boy. In view of the low prices of metals, work will be confined for the meantime to mining some of the high grade ore. The company is reported to be amply financed.

G. R. Bancroft, managing engineer of the Premier Border property at Stewart, is well pleased with results being obtained from diamond drilling that has been carried out on the property during the past few months. The drilling cuts across a porphyry zone which strikes towards B. C. Silver and has shown it to have a width of some six hundred feet, 200 feet of which are through porphyry similar to that of the Premier. The drill cores show values ranging from \$3 to \$56 in gold and silver across a width of 70 feet. Cross-cutting is now being carried out with a view to developing various cross-fractures of which at least eight have been defined. The main workings on the property are approximately on the same horizon as No. 5 level of the Premier and some two hundred feet

below the lowest workings on B. C. Silver and Sekakwe.

The Premier Gold Mining Co. will pay its usual dividend of six cents per share on the 5,000,000 shares issued on April 4 next to shareholders on record up to March 12. The dividend announcement was made following a recent meeting of the directors of the company in New York.

METAL WATER KILLS FISH

Water Through Galvanized Iron Pipes Causes Death of Trout and Salmon

At the Atlantic Biological Station, St. Andrews, N.B., the water that is turned on through galvanized iron pipes in the spring, always kills young trout and salmon in short order. Dr. Kathleen E. Carpenter, who formerly investigated the matter of the death of fishes in water flowing from lead and zinc mines in Wales, now reports that the tap-water contains iron and zinc, which form with the slime a suffocating film over the gills of the fish. These metals can be largely removed from the water by aerating, holding, and filtering it through finely divided material. Yet the improvement that occurs with the progress of the season indicates that with continuous use of the system and with protection from frost, the metals of the inner surfaces of the pipes would be kept from solution in the water by becoming coated with a permanent insoluble deposit.

AT THE WRONG END

A handbook issued for the use of political campaigners gives a good deal of advice about how to begin speeches.—Kingston Whig-Standard.

An itching skin? Ugly pimples? Red eruptions?

The active fluid DDD will wash the disease germs out of the skin. Touch a few drops to a bad spot—watch the formula penetrate. Repeat the test one, two, three times—the rough unsightly spots have disappeared.

Kennedy of Peace River Heard From On Outlet Matter

In answer to a letter sent to him by the Prince Rupert-Peace River Oulet Association regarding the proposal to build a railway line from the Peace River Block to Prince Rupert, D. M. Kennedy, M. P. for Peace River, writing from Ottawa, states that he notices Vancouver also has an "On to the Peace Association." Mr. Kennedy trusts that, with all the efforts being put forth, action by the Dominion government will be assured.

Shipments From Prosperity Mine Very Profitable

Shipments made by Premier Gold from the Prosperity Mines during January show a net profit of \$34,372.48 per ton, according to A. MacDonald, Seattle Stock & Mining Syndicate. Mr. MacDonald stated that the information was released by Prosperity Mine Syndicate owners of 24% of the property.

Single Men Should Not Be Taxed Is Finding of Debate

With G. W. Johnstone, the president, in the chair, the Baptist Brotherhood last night held a short business session, during which final plans were completed for a big social to be held next week. After the business was completed, an amusing debate was held entitled "Resolved that all single men over the age of 21 years should be taxed." After a wordy battle the judges retired to deliberate and returned a verdict in favor of the negative. The debaters were as follows: Affirmative—Ald. P. H. Linzey and V. G. Houston. Negative—M. R. Dafee and C. Gilker. Judges were W. Wilson, L. Dell and C. Daniels. The attendance was fair, and membership is growing.

Bound from Vancouver to Skagway with a good-sized passenger list, C.P.R. steamer Princess Norah Capt. Thomas Cliff, arrived in port at 10.30 this morning from the south and sailed at noon for Alaska.

Pains Around Heart Weak Spells Would Fall Over

Mrs. James Vansalstine, Pibroch, Man., writes: "I had pains around my heart, and suffered with weak, smothering spells. Sometimes I would fall over and would have to be picked up and put to bed. 'I used several boxes of

and it is now over three years since I have had a spell. 'I hope anyone who is in the same condition I was will give H. & N. Pills a fair trial.' Price, 50c, a box at all druggists and dealers, or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

Mud Baths Are Popular Healing Processes In East

BERLIN, March 18.—Hydro-athic treatment and mud baths were popular healing processes in the ancient temple of Asklepios (Aesculapius) at Pergamum, Asia Minor, says Dr. Theodore Wiegand. The German explorer told the Archaeological Society that a colonnade nearly a mile long connected the city with the temple of healing, and surmounted by a cupola 200 feet in diameter, adorned with glass mosaics. Adjoining is another sanctuary, where it is supposed, the patients took different cures.

Patriarchal Crustacean At Boston

BOSTON, March 19.—The grandfather of all the lobsters larded at the Fish Pier here was brought in by the steamer trawler Boston College on March 4. He was caught off Nantucket Shoals in 62 fathoms of water and weighed 30 pounds. Joseph Stima, mate of the trawler, estimated his age to be from 30 to 40 years and was unable to account for his presence so far off shore, unless it was due to the fact that it is the season when the lobsters change their shell and Methusala (as he was christened) went out there on account of the hard bottom to await the process. It is very rare, he said, to get lobsters in that vicinity. When Methusala was measured he was found to be three feet long, with a claw spread of 41 inches. His feelers were 21 inches long. This smashes all records at the Boston Fish Pier as the former champion weighed only 20 pounds and was only a little more than half the size of Methusala.

TWO SISTERS ARE REUNITED

Former St. John Women End Forty Years of Separation

ST. JOHN, N.B., March 19.—After 40 years of separation two sisters who were former residents of St. John, N.B., were united recently at Tarrytown, N.H. The sisters are Mrs. William Reaves and Mrs. Joseph Willette. Mrs. Reaves left St. John and made her home in San Francisco. Letters were exchanged for a time but nothing was heard from Mrs. Reaves following the great San Francisco earthquake in 1906. A brother of Mrs. Reaves living in Boston repeatedly attempted to get in touch with her without success. The reunion of the sisters was brought about by a letter which Mrs. Reaves sent to her brother in Boston. The brother was dead and his widow forwarded the letter to Mrs. Willette. Mrs. Reaves at present resides in Tarrytown, N.H., and Mrs. Willette in Nashua, N.H.

Gran Humphries Takes Long Trip

SYDNEY, Aust., March 18.—"Granny" Humphries, aged 102, got the wanderlust the other day, took a three-mile ride on a railroad and then went home contented. "Granny" came to Australia from Ireland in her youth and with her pioneering husband went into the backwoods whence she never emerged until curiosity got the better of her and she insisted upon taking a train ride. Her three bachelor sons, aged 72, 75 and 77, deplored their mother's escapade.

HOW HE GOT SUIT "A man with a new suit is trusted," says the advertisement of a tailor. Well, that depends.—Halifax Mail.

How much is a dollar?

WHAT your dollar is worth depends on you. Today, a dollar will buy a full one hundred cents' worth of merchandise or service.

The advertisements in this newspaper will tell you where you can make your dollar do its full duty. They will tell you what a dollar will buy. They will tell you, by name, those articles on which you can depend to give a dollar's worth of value for every dollar invested.

The advertisements in this newspaper will give you a new conception of values. They will demonstrate to you the qualities of any article in which you may be interested and tell you where you can buy it at a price you can afford to pay.

By reading the advertisements you will soon become familiar with the most desirable articles of merchandise in all lines. You will learn to have the confidence in them that they deserve, and, when you buy, you can do so with full assurance that you are getting one hundred cents' worth of value for your dollar.

Read advertisements daily to enable your dollar to do its full duty.
